**Oslo, 26-29 November 2019**

Item 10 of the provisional agenda

**Consideration of the 2020-2024 five-year work plan and budget and of the 2020 work plan and budget  
of the Implementation Support Unit**

**Implementation Support Unit Work Plan and  
Budget 2020-2024**

**Submitted by the President of the Fourth Review Conference\***

**I. Introduction**

1. At the Fourteenth Meeting of the States Parties (14MSP), the States Parties to the Convention on the Prohibition of the Use, Stockpiling, Production, and Transfer of Anti-Personnel Mines and on their Destruction adopted a decision on “*Strengthening financial governance and transparency within the ISU*”. This decision included a number of measures to increase predictability, accountability and ownership by States Parties of the work of the Convention’s Implementation Support Unit (ISU) including the establishment of a financial security buffer and the adoption of a multi-annual work plan. These measures aimed at encouraging States Parties to plan their financial contributions to the ISU, including if possible, consider multi-annual commitments and to provide overall financial predictability to the ISU.

2. The following five-year work plan and budget provides information on the general tasks to be carried out by the ISU over the next five years. This work plan takes into account the application of the previous ISU work plan 2016-2019 and its mid-term review by the Sixteenth Meeting of the States Parties (16MSP), the current financial status of the ISU, as well as measures to ensure the more practical implementation of the ISU’s activities. The work plan further ensures that, in accordance with the decision of the 14MSP, the financial security buffer is maintained so as to carry at all times an amount equivalent to one year of expenditures related to the ISU’s yearly budget and guarantees the basic operation of the ISU for any foreseeable year. The ISU will carry out the tasks set out in this work plan within the indicated level of staffing. The work plan takes into consideration three important modifications to the decision on “*Strengthening financial governance and transparency within the ISU*”:

- The current work plan is of a 5-year duration spanning the period from the Fourth Review Conference to the Fifth Review Conference;

---

\* The present document was submitted after the deadline to include the latest available data.

- The workplan merges “enhanced support” with “core support” of the ISU to better support implementation and to ensure a more practical approach to implementation in line with the mid-term review of the Sixteenth Meeting of the States Parties;
- The workplan includes a 1.5% increase in staff salaries for anticipated adjustment to cost of living as well as seniority.

3. In addition to the above, and in accordance with the decision of the 14MSP, the ISU can undertake activities or projects that do not feature in its budget, including at the invitation of States Parties or third parties not signatory to the Convention, when full additional financing is being provided in the form of paid contributions or at least of written pledges and when the Coordinating Committee is explicitly consenting thereto.

## **II. The Implementation Support Unit**

4. The Implementation Support Unit (ISU) was established by the Third Meeting of the States Parties in 2001 with the aim of assisting the States Parties with the implementation of the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mine and on their Destruction. In 2010, the Tenth Meeting of the States Parties adopted the Directive from the States Parties to the ISU which mandates the ISU to:

- Prepare, support and carry out follow-up activities from formal and informal meetings under the Convention including Meetings of the States Parties, Review Conferences, Amendment Conferences, intersessional meetings, Committees, and the Coordinating Committee;
- Provide substantive and other support to the President, President-Designate and Committees in their work related to all such meetings;
- Provide advice and support to States Parties on all aspects of the implementation and universalization including on the Sponsorship Programme of the Convention;
- Facilitate communication among the States Parties and promote communication and information regarding the Convention towards States not Party and the Public;
- Keep records of formal and informal meetings under the Convention, and communicate, as appropriate, the decisions and priorities resulting from such meetings to States parties and other stakeholders; and
- Liaise, and coordinate as appropriate, with relevant international organizations that participate in the work of the Convention including the ICBL, the ICRC the UN and the GICHD.

5. The Directive further requests the ISU to “propose and present a work plan and a budget for the activities of the ISU for the following year to the Coordinating Committee for endorsement and subsequently to each Meeting of the States Parties or Review Conferences for approval.”

## **III. Main objectives**

6. The main objectives of the ISU 2020 – 2024 work plan and budget are to support States Parties in the implementation of their Convention obligations and their Oslo Action Plan commitments during the period of 1 January 2020 to 31 December 2024.

## **IV. Reviews**

7. This work plan will be subject to a mid-term review to be presented to the Twentieth Meeting of the States Parties to assess whether the staffing and resources of the ISU remain adequate for the ISU’s practical and efficient functioning in support of the implementation of its mandate. The mid-term Review will include considering the ISU’s delivery capacity

across its mandate and whether further guidance may be needed, take into account new developments, and consider any adjustments that may be required. The review will include an assessment of the implications of consolidating the ISU's funding. Should the ISU's financial situation change considerably, the President, in consultation with the Coordinating Committee will carry out an extra-ordinary review and recommend adjustments based on that review.
