

Afghanistan's statement in Compliance session

We have been following reports on use and use allegation of Antipersonnel mines in some countries.

Afghanistan as a state party of the APMBc and as a country which has been suffering of landmines and other indiscriminate weapons, expresses its deep concerns due to the use of Landmines anywhere and under any circumstances.

We are hoping that landmines will never be used.

Mr Chair: I would like to quote a sentence from the 13 MSP
" Landmines have no place in our civilized world. Thank you"
