1. MINE CLEARANCE. Updated data for demining in the year 2012 are as follows:
ANGOLA PROGRESS REPORT
ART. 5

- Area cleared. 118,119,818m² (one hundred and eighteen million, one hundred and nineteen thousand and eight hundred and eighteen square meters)

- Anti-Personal Mines. 5,576
- Anti-Tank Mines. 511
- UXOs. 200,585
- Roads cleared. 1,790km
- Power lines cleared. 116km
- Different Materials. About. 2,000 tons.

ANGOLA PROGRESS REPORT
ART. 5

2012

Accidents – 33
Injured – 17
Dead – 13
2. UPDATING OF ACTIVITIES UNDER ARTICLE 5 EXTENSION WORKPLAN

a. NATIONAL DATA BASE (CNIDAH).

Joint efforts to Update the DATA with the Operatores

Visited two provinces for DATA consolidation.

A round table attended by six operators including 5 International and national NGOs to analyse the DATA Discrepancies.

Enabled CNIDAH to set a more balanced BASELINE with the reality of the actual contamination.
a. NATIONAL DATA BASE (CNIDAH).

"Current Baseline" for SHAs and / or contaminated:

1,425 Areas with a total size of 155,994,920.291 m²
(1.560km²- One thousand and five hundred and sixty square kilometers)

That compared with baseline submitted in the extension request, 793,177,246,68 m² (about 793km²- seven hundred and ninety three square kilometers) an update with an increase of 50% of the suspected areas.

b. CNIDAH OPERATIONS

17 demining operators currently active: 4 public, 1 National NGO, 5 International NGOs and 7 commercial companies.
b. CNIDAH OPERATIONS
