Notwithstanding the mandatory information contained in Article 5.4, use of this template to report this and desired additional information is voluntary.

STATE PARTY: _____

POINT OF CONTACT: _____
(Name, organization, telephone, fax, email)

Background

Article 5.1 requires each State Party “to destroy or ensure the destruction of all anti-personnel mines in mined areas under its jurisdiction or control, as soon as possible but not later than ten years after the entry into force of this Convention for that State Party.” Related to this paragraph is the provision in Article 5.3 which states that “if a State Party believes that it will be unable to destroy or ensure the destruction of all anti-personnel mines referred to in paragraph 1 within that time period, it may submit a request to a Meeting of the States Parties or a Review Conference for an extension of the deadline for completing the destruction of such anti-personnel mines, for a period of up to 10 years.” Article 5.4 proceeds to indicate what each request shall contain. The following template has been prepared to assist States Parties for use on a voluntary basis in providing pertinent information in its request for an extension of its deadline.

Summary

(Please insert a brief summary of the content of the proposed extension request. It is suggested that the summary indicate how much land has been cleared to date, how much affected area is estimated to remain, the approximate time it will take to finish Article 5 obligations, an assessment as to why the deadline could not be achieved, an indication of average productivity to date as well as an indication of expected productivity rates in the future.)
