## A new look - website

The screenshot shows the GICHD website with a new layout. The browser address bar shows <http://www.gichd.org/>. The page title is "Geneva International Centre for Humanitarian Demining Centre International de Déminage Humanitaire | Genève". The main content area includes a search bar, a photo of a demining site, and a text block about a mechanical study programme in Azerbaijan. The right sidebar contains "INFO RESOURCES" with links to "Publications", "Calendar", "Links & Information Database", "Mine Action and ERW Facts", "Current Edition", "Photo Gallery", "Other Languages", and "New on this Site".
