

  **بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ**

اليمن **YEMEN**

Yemen Mine Action Program
البرنامج الوطني للتعامل مع الألغام

Do we have a Plan to ensure the destruction of A/P in mined area

We have for that five years strategic plan , priorities to clear all the areas cause casualty and prevent the development of the affected communities and marking 14 Mine fields by 2007 and we will continue clearing all areas.

What, if any circumstances will impede Yemen to fully implemented Article 5

Nothing will impede Yemen to achieve this goal.

Our prospective to clear all areas by 2011 or 20012 if we have enough resources .

Impact	Total Area	Area Surveyed	Area Left	Percent of Area left	Areas surveyed
High	43249959	43249959	0	0.00%	100.00%
Medium	311785034	241508334	70276700	22.54%	77.46%
Low	568259888	211364377	356895511	62.80%	37.20%
Total	923294881	496122670	427172211	46.27%	53.73%

Impact	No MF	MF Fenished	ongoing	MF Left	Marking
High	97	93	0	0	4
Medium	177	152	7	14	4
Low	232	186	19	21	6
Total	506	431	26	35	14

In 2006 we achieved 87 231 408 and cleared 98 Mine fields

What Financial and technical means Yemen dedicate to implement Article 5

Yemen is paying more than 50 % of the total budget of the program and will continue to do so.

All the needed personnel from MoD will continue to do their duty in Mine action Program as long as we have Mine problems.

We are building lasting capacity to deal with this problem behind 2009 with continued support from the international community.

Do we have NGOs or foreign organization or commercial companies running MAP in Yemen.

The answer is NO,
It is National execution since 2003.

Is there a need for external assistance.

The answer Yes.

The presence of UNDP and donor communities is vital to deal with the remaining of Mines problem.

شكرا

Thank you
