- EOD teams 2
- Mine Awareness Teams 3
- Female Local Teachers in IDP camps 3
- Crossing point Islamqala 2
- Filed Medical Units (FMUs) 2
Southern Region

Mechanical Excavation team/s (Seasonal)  1
Manual Mine clearance team/s (Seasonal)  2
Mine Awareness Teams  2
LT in Crossing Point (Spin Boldak)  2
Achievements:

Mine clearance

Clearance of 24,235,653 Sqm different land type
Clearance of 11,50000 Sqm battlefield

Total devices located and destroyed:
898 AT;34,056 AP;75,060 UXO and 12,712,980 fragments

Mine Awareness:

Training of more than 5.2 million people on the danger of mines and UXO
Establishment of more than 360 community based councils.
Emergency Response:
Mechanical Excavation teams supported by manual teams were standby in western & central regions (one/region) to response emergency cases. Health mobile teams in central, eastern and western regions were providing health assistance and emergency evacuation to the injured persons.

Achievements:
during the strike our mobile health teams provided health assistance in eastern, central & western regions. MA teams trained people on the danger of new UXO used. Mine clearance teams cleared more than 60,000 sqm of land that urgently been requested by the community, & provided safe opportunity for their repatriation. During the operations 290 new munitions and cluster bomb lets, mines and UXO have been destroyed.
Beneficiary and Socio-Economic Impact

The ultimate beneficiaries are the Afghan people who will benefit from the clearance of their houses/land in a safe environment. Displaced persons and refugees will be able return to their villages, rebuilt their houses and rehabilitate the affected infrastructures. Survey shows 12-15$ return for each dollar invested in mine clearance operations.
