STANDING COMMITTEE ON VICTIM ASSISTANCE AND SOCIO-ECONOMIC REINTEGRATION

9 MAY 2006

DEVELOPING SMART OBJECTIVES AND A NATIONAL PLAN OF ACTION – THE ROLE OF INTER-MINISTERIAL COORDINATION

Presented by
Sheree Bailey
Victim Assistance Specialist
Geneva International Centre for Humanitarian Demining

NAIROBI ACTION PLAN

Commits relevant States Parties to establish and enhance:

► national data collection capacities for information related to mine victims and victim assistance;
► services for the emergency and continuing medical care of mine victims;
► increased physical rehabilitation capacities;
► increased psychological support and social reintegration services;
► support for economic reintegration; and
► development and implementation of national legal and policy frameworks to effectively address the needs and rights of mine victims and other persons with disabilities.
NAIROBI ACTION PLAN

Calls upon other States Parties

“to promptly assist those States Parties with clearly demonstrated needs for external support.....ensuring continuity and sustainability of resource commitments.”

FIRST REVIEW CONFERENCE

► “....the call to assist landmine victims should not lead to victim assistance efforts being undertaken in such a manner as to exclude any person injured or disabled in another manner”

► “assistance to landmine victims should be viewed as a part of a country’s overall public health and social services systems and human rights frameworks”

► “....providing adequate assistance to landmine survivors must be seen in a broader context of development and underdevelopment....”
Guide to the Process of Developing a National Response to Landmine Victim Assistance

- Designate an intersectoral group to oversee the process
- Assign responsibility for the process
- Situation analysis
- Review situation analysis
- Prepare a set of SMART objectives
  - Specific – Measurable – Achievable – Relevant – Time-Based
- Develop a national plan of action
- Resource mobilization
