## **Part I Organization and work of the Twelfth Meeting**

### **A. Introduction**

1. The Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction provides in article 11, paragraphs 1 and 2, that the States Parties shall meet regularly in order to consider any matter with regard to the application or implementation of this Convention. At the Second Review Conference (Cartagena de Indias, 30 November to 4 December 2009), the States Parties agreed to hold annually, until a Third Review Conference in 2014, a Meeting of the States Parties. In addition, at the Eleventh Meeting of the States Parties (Phnom Penh, 28 November to 2 December 2011), the States Parties agreed to hold the Twelfth Meeting of the States Parties in Geneva the week of 3 to 7 December 2012.

2. To prepare for the Twelfth Meeting, in keeping with past practice, at the May 2012 meeting of the Standing Committee on the General Status and Operation of the Convention, a provisional agenda and provisional programme of work were presented. Based upon discussions at that meeting, it was the sense of the Co-Chairs of the Standing Committee on the General Status and Operation of the Convention that these documents were generally acceptable to the States Parties to be put before the Twelfth Meeting for adoption. To seek views on matters of substance, the President-Designate convened an informal meeting in Geneva on 3 September 2012 to which all States Parties, States not parties and interested organizations were invited to participate.

The meeting noted with appreciation the declarations of completion of Article 5 mine clearance obligations submitted by Congo, Denmark, Guinea-Bissau, Jordan, and Uganda, as contained in APLC/MSP.12.2012/Misc.2, APLC/MSP.12.2012/Misc.1, APLC/MSP.12.2012/Misc.5, APLC/MSP.12.2012/Misc.3, and APLC/MSP.12.2012/Misc.6, respectively.

### **E. Decisions and Recommendations**

24. The Meeting highlighted that the States Parties find themselves at a mid-way point in the application of the Cartagena Action Plan. In this respect the Meeting, warmly welcomed the Geneva Progress Report 2011-2012, noting specific commitments made by many individual States Parties to achieve further progress in fulfilling Cartagena Action Plan commitments in time for the Third Review Conference in 2014.

25. Pursuant to consideration of a paper presented by the President of the Eleventh Meeting of the States Parties entitled “Reflections on the Article 5 Extension Process” as contained in document number APLC/MSP.12/2012/4, and with the view of ensuring that high quality requests continue to be submitted, that high quality analyses continue to be prepared, and that cooperative engagement of article 5 implementing States Parties continues after requests have been granted, the Meeting endorsed recommendations #1 to #14, as contained in the paper, and agreed to encourage States Parties, as appropriate, to implement these recommendations.

26. The Meeting, taking into account the analyses presented by the President of the Eleventh Meeting of the States Parties of the requests submitted under article 5 of the Convention and the requests themselves, took the following decisions:

(a) The meeting assessed the request submitted by **Afghanistan** for an extension of Afghanistan’s deadline for completing the destruction of anti-personnel mines in mined areas in accordance with Article 5.1, agreeing to grant the request for extension until 1 March 2023.

(b) In granting the request, the Meeting noted that even with a consistent and sizeable effort having been undertaken by Afghanistan going back even before entry into force of the Convention, Afghanistan faces a significant remaining contamination challenge in order to fulfil its obligations under Article 5. The Meeting further noted that, while the plan presented by Afghanistan is workable and ambitious, its success is contingent upon the findings of survey efforts, stable funding and the challenges posed by the security situation.

(c) Also in granting the request, the Meeting requested that Afghanistan provide updates at meetings of the Standing Committees, Meetings of the States Parties, and Review Conferences with respect to a variety of commitments made and milestones contained in its extension request, including with respect to the following:

(i) The commitment made by Afghanistan to carry out, in 2013, non-technical survey of 863 impacted communities and 15,361 non-impacted communities, and “village by village search” in 863 impacted communities and 2,295 non-impacted communities.

(ii) Any revisions to Afghanistan’s work plan, and the reasons for these revisions, which might result from Afghanistan’s commitment to review its work plan on a continuous basis and its commitment to do so using an inclusive approach that was so important in the preparation of the extension request.

(iii) Any revisions to Afghanistan's work plan, and the reasons for these revisions, which might result from the three main factors expressed in the request that could impact positively or negatively on the work plan, namely the results of surveys and resurveys, the amount of funds acquired and the security situation in Afghanistan.

(iv) The annual milestones for progress as contained in section 17.7 of Afghanistan's extension request.

(d) The Meeting assessed the request submitted by **Angola** for an extension of Angola's deadline for completing the destruction of anti-personnel mines in mined areas in accordance with article 5.1. While a number of substantive concerns were raised, the Meeting decided to grant the request for an extension until 1 January 2018, taking into account a number of considerations, including the commitment expressed by Angola to complete Article 5 implementation.

(e) In granting the request, the Meeting noted that, while it may be unfortunate that, after almost ten years after entry into force, a State Party is unable to account for what remains to be done to implement article 5.1, particularly given the significant investment in humanitarian demining in Angola over the past decade, including the investment already made in conducting surveys and information management, it is positive that Angola intends to take steps to garner an understanding of the true remaining extent of the challenge and to develop plans accordingly that precisely project the amount of time that will be required to complete Article 5 implementation.

(f) Also in granting the request, the Meeting noted that, by requesting a five-year extension, Angola was projecting that it would need approximately five years from the date of submission of its request to obtain clarity regarding the remaining challenge, produce a detailed plan and submit a second extension request. The Meeting also noted the importance of non-technical survey and efforts to update Angola's database to obtaining this clarity. The Meeting further noted that, as the request indicates that the non-technical survey process will take only two years, it may take less than five years to garner a necessary deeper understanding of contamination and to plan accordingly.

(g) Also in granting the request, the Meeting requested that Angola provide additional information and updates on the following:

(i) Given the importance of external support to ensure timely implementation, the meeting requested that Angola provide further clarity at the Thirteenth Meeting of the States Parties on estimated costs for implementation, including by clarifying the costs that Angola's State budget would cover as part of the overall cost of implementation.

(ii) Given the extremely large figures in the request which are attributed to expected demining progress by public institutions, the meeting requested that Angola provide further clarity at the Thirteenth Meeting of the States Parties on the actual size and location of the areas to be addressed by public entities, annual and geographically-specific milestones of expected progress, and a specification of how the areas to be addressed by public entities relate to the 2,116 remaining suspected hazardous areas reported in the request.

(iii) In noting that Angola indicates in its request the number of square metres which will be cleared by operators over the course of 2013-2017, the meeting requested that Angola indicate, at the Thirteenth Meeting of the States Parties, how this amount of area relates to the number of remaining suspected hazardous areas reported in the extension request, how these clearance activities have been prioritized, and how this activity relates, if at all, to the non-technical survey project.

(iv) In noting that Angola's non-technical research project aims to update the data of suspected areas in the country and reflect them in the Inter-Sectoral Commission for Demining and Humanitarian Assistance (CNIDAH) database, and, in noting that the request indicates that this activity is projected to take place during the period 2011-2013, the Meeting requested that Angola report to the Thirteenth Meeting of the States Parties on the outcomes of this project, including by providing an update on the number, location and size of areas known or suspected to contain anti-personnel mines.

(v) In noting that Angola indicated that the HALO Trust and Norwegian People's Aid (NPA) have conducted surveys in various locations in Angola and that, if Angola's national authority concludes that these surveys remain up-to-date, there would be no need to repeat survey work in the areas in question, the Meeting requested that Angola report to the Thirteenth Meeting of the States Parties on the assessment of survey information it is carrying out in partnership with the HALO Trust and NPA.

(vi) In welcoming the efforts of Angola to obtain increased clarity regarding its implementation challenge through measures such as "database clean-up", the Meeting requested that Angola report to the Thirteenth Meeting of the States Parties on the outcomes of efforts to ensure the integrity of a national mine action information system, including efforts to obtain, enter and manage information provided by all actors carrying out survey and / or demining activities in Angola.

(vii) Given that Angola's non-technical research project is projected to take place during the period 2011-2013 and given Angola's on-going efforts to update its database and correct discrepancies, the Meeting requested that Angola report to the Third Review Conference on its revised knowledge of the size and location of all areas known or suspected to contain anti-personnel mines in mined areas under Angola's jurisdiction or control and provide this information as required in accordance with Article 7.

(viii) The Meeting requested that Angola submit, to the Third Review Conference, a plan, on the basis of its revised knowledge of its challenge, providing updated specifications for mine clearance and survey for the period between the Third Review Conference and the extended deadline. The Meeting further requested that Angola report on an on-going basis at meetings of the Standing Committees and Meetings of the States Parties on efforts to implement Article 5 relative to the updated plan that it presents the Third Review Conference.

(h) The meeting assessed the request submitted by **Cyprus** for an extension of Cyprus's deadline for completing the destruction of anti-personnel mines in mined areas in accordance with Article 5.1, agreeing to grant the request for extension until 1 July 2016.

---

(i) In granting the request, the meeting noted that Cyprus has expressed that the sole circumstance which impedes the ability of Cyprus to destroy all anti-personnel mines in mined areas that it has reported to be under its jurisdiction or control is that Cyprus has indicated that it does not have effective control over the remaining areas in question. The meeting further noted the importance of a State Party providing information on changes to the status of the control of mined areas when such a State Party has indicated that matters related to control affect the implementation of article 5 during extension periods.

(j) The Meeting assessed the request submitted by **Zimbabwe** for an extension of Zimbabwe's deadline for completing the destruction of anti-personnel mines in mined areas in accordance with Article 5.1, agreeing to grant the request for an extension until 1 January 2015.

(k) In granting the request, the Meeting noted that, while Zimbabwe had not complied with the principal commitment it had made in 2010 to garner an understanding of the true remaining extent of the challenge and to develop plans accordingly, Zimbabwe had made efforts to build its capacity and improve its efficiency by engaging the support of international organizations and developing survey and clearance plans for the remaining areas.

(l) Also in granting the request, the Meeting noted that, while it may be unfortunate that after almost thirteen years since entry into force a State Party is unable to account for what remains to be done, it is positive that such a State Party, as is the case of Zimbabwe, intends to reinvigorate efforts to garner an understanding of the true remaining extent of the challenge and to develop plans accordingly that precisely project the amount of time that will be required to complete Article 5 implementation. In this context, the Meeting noted the importance of Zimbabwe requesting only the period of time necessary to assess relevant facts and develop a meaningful forward looking plan based on these facts.

(m) The Meeting further noted that by requesting a 24 month extension, Zimbabwe was projecting that it would need approximately two-and-one-quarter years from the date of submission of its revised request to obtain clarity regarding the remaining challenge, produce a detailed plan, and submit an extension request for fulfilment of its Article 5 obligations. The meeting further noted that Zimbabwe, in accordance with the decisions of the Seventh Meeting of the State Parties, should submit its subsequent extension request nine months prior to the Third Review Conference.

(n) Also in granting the request, the Meeting noted the importance of Zimbabwe making use of the full range of practical methods to release, with a high level of confidence, areas suspected of containing anti-personnel mines, as recommended by the Ninth Meeting of the States Parties, and encouraged Zimbabwe to continue seeking improved land release and certification techniques which could lead to Zimbabwe fulfilling its obligations in a shorter time frame.

(o) Also in granting the request, the Meeting requested that Zimbabwe provide updates at the meetings of the Standing Committees in 2013 and at the Thirteenth Meeting of the States Parties with respect to a variety of commitments made and milestones contained in its extension request, and observations contained in the analysis on the request, including with respect to the following:

(i) The commitments made by Zimbabwe to develop national standards, relocate the mine action centre out of military cantonment, develop a national strategic plan and work with implementation partners to ensure a common approach to reporting and information management.

(ii) The annual milestones for progress as summarised in paragraph 17.7 of the analysis of the request submitted by extension request.

(iii) Zimbabwe's resource mobilization plan and efforts that the government of Zimbabwe is making to raise the profile and priority of mine clearance operations to the international community, including, international donor countries that could be in a position to contribute resources.

(iv) Zimbabwe's efforts to speed administrative procedures for implementing partners to carry out their work in an expedient manner.

27. Also in the context of considering the submission of requests under article 5 of the Convention, the Meeting warmly welcomed the report presented by the President of the Eleventh Meeting of the States Parties on the process for the preparation, submission and consideration of requests for extensions to article 5 deadlines, as contained in APLC/MSP.12.2012/4.

28. Pursuant to consideration of the proposal made by the Co-Chairs of the Standing Committee on Mine Clearance (Indonesia and Zambia) as contained in document APLC/MSP.12/2012/7, the States Parties made the following commitments:

(a) If after its original or extended deadline to implement Article 5 has expired, a State Party, as an exceptional circumstance, discovers a mined area (as defined by Article 2.5 of the Convention), including a newly mined area, under its jurisdiction or control that is known or suspected to contain anti-personnel mines, the State Party should immediately inform all States Parties and all stake-holders of the affected area of such a discovery and shall undertake to destroy or ensure the destruction of all anti-personnel mines in the mined area as soon as possible.

(b) If the State Party believes that it will be unable to destroy or ensure the destruction of all anti-personnel mines in the mined area before the next Meeting of the States Parties or Review Conference (whichever falls earlier), it should submit a request for an extended deadline, which should be as short as possible and no more than ten years, either to that Meeting or Review Conference if the timing of the discovery permits or to the next Meeting of the States Parties or Review Conference if the timing of the discovery does not permit, in accordance with the obligations enshrined in Article 5 and the process for submission of requests for extensions agreed to at the Seventh Meeting of the States Parties. Requests submitted should be analysed also in accordance with the process agreed to at the Seventh Meeting of the States Parties and commonly practiced since 2008, and decided upon in accordance with Article 5.

(c) States Parties concerned by the above mentioned decision shall continue to fulfil their reporting obligations under Article 7 of the Convention, including the obligation to report on

the location of all mined areas that contain or are suspected to contain anti-personnel mines under their jurisdiction or control and on the status of programs for their destruction. Each State Party should also continue to provide updates relative to these and other commitments at meetings of the Standing Committees, Meetings of the States Parties and Review Conferences.

29. In the context of the “Directive from the States Parties to the ISU”, the Meeting approved the “Implementation Support Unit 2013 Work Plan and Budget” for the activities of the ISU in 2013, as endorsed by the Coordinating Committee and as contained in APLC/MSP.12.2012/5. Also in the context of the “Directive from the States Parties to the ISU”, the Meeting approved the “Interim report on the 2012 activities, functioning and finances of the Implementation Support Unit (ISU) and preliminary 2012 financial report”, as orally amended, contained in APLC/MSP.12.2012/8, and the ISU’s 2011 audited financial statement.

30. The Meeting agreed to set the dates of 2013 meetings of the Standing Committees from 27 to 31 May 2013 with the length of individual meetings and their sequencing, and duration of the entire period of meetings to be established by the Coordinating Committee.

31. Pursuant to consultations undertaken by the Co-Chairs of the Standing Committee on the General Status and Operation of the Convention, identified the following States Parties to serve as the Standing Committee Co-Chairs until the end of the Third Review Conference: Austria (Victim Assistance and Socio-Economic Reintegration), New Zealand (General Status and Operation of the Convention), Mozambique (Mine Clearance), Ecuador (Resources, Cooperation and Assistance), and Norway (Stockpile Destruction). The meeting took note that these States Parties would join the following which, in accordance with the decisions of the 10MSP and 11MSP, would be completing the second year of their two year terms between the end of the Twelfth Meeting and the end of the Thirteenth Meeting: Bulgaria (General Status and Operation of the Convention), Colombia (Victim Assistance), the Netherlands (Mine Clearance), Thailand (Resources, Cooperation and Assistance), and Nigeria (Stockpile Destruction).

32. The Meeting agreed to hold the Thirteenth Meeting of the States Parties in Geneva the week of 2 December 2013. The meeting mandated the President to continue consultations with States Parties with a view to proposing, by the end of February 2013, a candidate to be designated to preside over the Thirteenth Meeting. As well, the Meeting adopted cost estimates for the Thirteenth Meeting, as contained in document APLC/MSP.12/2012/9/Rev.1

33. The Meeting noted with appreciation the offer made by Mozambique to host and preside over the Third Review Conference in 2014.

34. The Meeting took note of and expressed its appreciation for the paper, presented by the President of the Eleventh Meeting of the States Parties, entitled “Consideration of the organisation of the annual Meeting of the States Parties”, document number APLC/MSP.12/2012/3.

35. The Meeting welcomed the initiative of the Co-Chairs of the Standing Committee on Resources, Cooperation and Assistance in developing, on a trial basis, an information

exchange tool on assistance available to support the implementation of the Convention and encouraged States Parties to make use of this tool.
