Interim report on the 2015 activities, functioning and finances of the Implementation Support Unit

Submitted by the acting director of the Implementation Support Unit

I. Background:

1. At the Tenth Meeting of the States Parties (10MSP), the States Parties agreed to and adopted the “Directive from the States Parties to the ISU” in which it is stated that the Implementation Support Unit (ISU) shall “report in written form as well as orally on the activities, functioning and finances of the ISU to each Meeting of the States Parties or Review Conferences, and to informal meetings under the Convention as appropriate”. The “Directive” further states that “an audited annual financial report” for the previous year and “preliminary annual financial report” for the present year shall be submitted by the ISU to the Coordinating Committee and subsequently to each Meeting of the States Parties or Review Conferences for approval.

2. The Implementation Support Unit’s 2015 work plan and budget was approved on 26 June 2014 by the States Parties to the Anti-Personnel Mine Ban Convention at their Third Review Conference in Maputo, Mozambique. The work plan and budget had previously been endorsed by the Convention’s Coordinating Committee. Efforts were undertaken to ensure that the preparation of the work plan and budget was inclusive and transparent, with all States Parties invited to provide input and express views.

3. The ISU’s work plan listed activities and expected results organized in accordance with the ISU’s mandate, which was adopted by the States Parties on 3 December 2010 at their Tenth Meeting of the States Parties. In particular, in keeping with its mandate, the Implementation Support Unit sought to:
   • support the Convention’s multilateral machinery and office holders;
   • assist individual States Parties in fulfilling obligations;

Late submission.
• facilitate communications and retain the Convention’s documentation, and;
• liaise with actors that share the aims of the Convention’s States Parties.

4. The ISU started 2015 facing a deficit of CHF 176,363 which was covered by the Geneva International Centre for Humanitarian Demining (GICHD) as an exception and one-off measure. This led to the establishment by the GICHD and ISU of a budgetary follow-up mechanism to closely monitor the financial health of the ISU and prevent similar deficits from recurring in the future. The Implementation Support Unit’s budget costs for 2015 were estimated to be CHF 898,077. However, the deficit suffered by the ISU in 2014 and subsequent financial uncertainty in 2015 led to the ISU taking a number of actions including a reduction in salary costs, a “bare-bones” approach to spending which including travel restrictions, salary adjustment and salary caps. The ISU also undertook unusual efforts and time spent to raise funds for the 2014 work plan in late 2014 and early 2015 as well as to raise funds for its core activities in 2015 while reducing the cost of the 2015 work plan. The ISU offered a new projection of its costs over the course of 2015 based on reduced staffing levels as well as reduced levels of activities totalling CHF 650,000.

5. The Convention’s States Parties have agreed to endeavour to assure that the necessary financial resources are provided for the Implementation Support Unit’s operations. As of 25 November 2015, 162 States had ratified or acceded to the Convention. Twenty-Eight (28) States Parties provided contributions to the Implementation Support Unit in 2015 with these contributions totalling CHF 608,477. With these contributions combined with other income, the Implementation Support Unit’s revenue in 2015, as of 25 November, totalled CHF 612,435.

6. In 2015, the Implementation Support Unit continued to benefit from infrastructure, logistics and administrative services provided to it by the GICHD. Moreover, the GICHD served to advance funds to the Implementation Support Unit’s operations when required as a result of cash flow variability.

II. Report:

Mandate #1: “Prepare, support and carry out follow-up activities from formal and informal meetings under the Convention including Meetings of the States Parties, Review Conferences, Amendment Conferences, intersessional meetings, Standing Committees, the Coordinating Committee and the Article 5 Extensions Request Analysing Group”

Mandate #2: “Provide substantive and other support to the President, President-Designate, Co-Chairs and Co-Rapporteurs in their work related to all such meetings.”

7. The ISU prepared, supported and carried out follow-up activities associated with ten meetings of the Coordinating Committee. During the Coordinating Committee meetings, particularly the initial meetings in 2015, close attention was placed on the resources of the ISU with the ISU providing updates to members concerning the ISU’s financial situation as well as actions that were being taken to address the lack of predictability concerning contributions, including a series of meetings with donors.

8. The ISU met on numerous occasions with individual committees to assist them in carrying out their work plans and advise them on preparations for the 2015 intersessional meetings and the Fourteenth Meeting of the States Parties as well as activities that could be undertaken on the margins of the meeting. The ISU provided advice on implementation of the Maputo Action Plan supported their efforts in fulfilling their mandate and assisted in preparing customised letters addressed to individual States Parties to encourage their participation in the 25-26 June intersessional meetings. In total, 88 States, numerous
international and non-governmental organizations and 348 delegates were registered to participate in these meetings.

9. The ISU supported the Committees on Article 5 Implementation in holding bi-lateral meetings, with numerous representatives of States Parties, including several directors of mine action centres, in the process of implementing Article 5. In particular, the Committee met with those States Parties that had indicated would be requesting an extension of their Article 5 deadlines as well as those whose deadlines were approaching and one State Party that was in a position to declare completion of its Article 5 obligations.

10. The ISU supported the Committee on Article 5 Implementation by facilitating meetings with expert demining organizations including the HALO Trust on 13 January 2015 with Norwegian People’s Aid on 17 February 2015 and with the Mines Advisory Group on 18 February 2015. These meeting offered the Committees with an understanding of the challenges currently faced by organizations in the field. This also provided an opportunity for the Committee to learn more about the status of mine clearance in States where these organizations are operational.

11. The ISU provided ongoing support to the Committee on Article 5 Implementation in drafting correspondence for the Committee’s Chair to States Parties requesting extensions of their Article 5 deadlines, obtaining and compiling expert input on requests received, arranging and preparing background notes for the Committee to meet with States Parties requesting extensions during the 25-26 June intersessional meeting and assisting in the preparations of analysis by soliciting expert input from 11 organization and collating the information received and provide additional support to the committee in their analysis efforts.

12. The ISU supported the Committee on Article 5 Implementation in fulfilling its mandate of presenting preliminary observations at intersessional meetings and final conclusions at Meetings of the States Parties by drafting correspondence for the Committee’s Chair to States Parties implementing Article 5 indicating how the Committee intended to proceed in its work as well as to request information necessary for the Committee to carry out its mandate. The ISU also supported the Committee by compiling information submitted by States Parties implementing Article 5 in support of the Committee’s efforts of completing initial observations and final conclusions.

13. The ISU supported the Committee on Enhancement of Cooperation and Assistance in fulfilling its mandate of presenting preliminary observations at intersessional meetings and final annual conclusions at Meetings of the States Parties by supporting the Committee in its interaction with a number of different organizations including with the other Committees of the Convention, particularly the Committee on the Implementation of Article 5 and the Committee on Victims Assistance.

14. The ISU supported the Committee on Enhancement of Cooperation and Assistance in facilitating meetings with demining organizations including meeting with the HALO Trust on 17 February, Norwegian People’s Aid on 17 February, and Mines Advisory Group on 18 February to discuss their challenges in carrying out mine clearance activities. The ISU further supported the Committee by facilitating meetings with mine affected States Parties including meetings with Zimbabwe on 17 February and Sudan on 18 February 2015.

15. The ISU Supported the Committee in arranging a meeting between the Committee and the leading mine action donors on 19 February to discuss Maputo Action Plan commitments, specifically the Actions relevant to “international cooperation and assistance” which includes the commitment of States Parties to “enter into partnerships for completion”.
16. During the 25-26 June intersessional meeting the ISU supported the Committee in developing a scenario for, preparing and moderating a panel discussion entitled Thematic Discussion on Fostering Partnerships during the plenary featuring a representative of the Permanent Mission of the Netherlands as a donor State, Jordan as a recipient State of Article 5 implementation assistance, a representative from Norwegian People’s Aid and a representative from the United Nations Development Programme.

17. The ISU supported the Committee on Victim Assistance in fulfilling its mandate of presenting preliminary observations at intersessional meetings and final conclusions and recommendation at Meetings of the States Parties by drafting correspondence for the Committee’s Chair to States Parties that have indicated having a responsibility for a high number of landmine victims highlighting how the Committee intended to proceed in its work as well as to request information from the States Parties.

18. The ISU supported the Committee on Victim Assistance by supporting the developing of a table to be used as a “victim assistance information gathering tool” and supported States Parties in understanding how to make best use of this tool. The ISU also supported the Committee by compiling information submitted by these States Parties in support of the Committee’s efforts of drafting initial observations and final conclusions.

19. The ISU supported the Committee on Victim Assistance in taking the message of the States Parties to other forums by supporting the Chair’s efforts in addressing the XXVII Session of the Human Rights Council as well as its efforts to “build bridges” between other actors working in the area of disability including meetings with the Special Rapporteur on the Rights of Persons with Disabilities, the Human Rights and Disability Advisor of the United Nations Office for the High Commissioner for Human Rights, representative of the Convention on the Rights of Persons with Disabilities and the ICBL, amongst others.

20. The ISU supported the Committee on Victim Assistance in convening and preparing an event on 23 April 2015 in follow up to the Bridges between Worlds global conference that took place in Medellin, Colombia in April 2014. This event included a panel featuring participation by a member of the United Nations Committee on the Rights of Persons with Disabilities, the Permanent Mission of Austria to the United Nations in Geneva, the ICBL, Human Rights and Disability Advisor of the United Nations Office for the High Commissioner for Human Rights, and a senator in the Kenyan parliament’s upper house and chair of the United Disabled Persons of Kenya. Approximately 50 representatives from States Parties participated in the event.

21. The ISU supported a Committee member, Thailand, in convening the Bangkok Symposium on Landmine Victim Assistance: Enhancing a Comprehensive and Sustainable Mine Action. The Symposium was held on 14-17 June 2015. The Symposium provided a platform for discussion on the Actions within the Maputo Action Plan concerning victim assistance as well as discussions on how to move forward in strengthening the bridge between victim assistance with wider disability efforts at the national level. Approximately 100 representatives from States and organization took part in the event.

22. The ISU supported the Committee on Cooperative Compliance by providing background information to the committee concerning allegations of the use of mines that were already under discussion by the States Parties and by supporting the convening of a number of meetings of the Committee as well as between the Committee and representative of Permanent Missions in Geneva and other representatives. The ISU also supported the Committee by facilitating interaction with relevant States on the margins of meetings taking place in Geneva as well as with organizations such as the United National Mine Action Services and the ICBL.
23. The ISU supported the Presidency in a number of areas including by carrying out research on all instances in which States Parties have taken decisions on reporting, providing an initial draft of the guide to reporting and arranging a series of meetings for discussion of this draft and proposing amendments to the reporting guide, when relevant, providing support to the Committee of Cooperative Compliance and for the implementation of the President’s mandate concerning stockpile destruction, making arrangements to ensure a successful intersessional meeting, carrying out preparations for the Fourteenth Meeting of the States Parties including the preparation for five informal meeting in advance of the meeting and ensuring that delegates were informed about the proceedings, amongst other tasks.

24. The ISU provided support to the incoming presidency by providing detailed briefings on a number of issues concerning the hosting of a Meeting of the States Parties as well as preparing documents and providing support to the Presidency in communicating its key objectives under its Presidency, amongst other. This assistance included a mission to the capital of one of the States Parties in question to brief senior officials.

Mandate #3: “Provide advice and technical support to States Parties on the implementation and universalization, including on the Sponsorship Programme, of the Convention”

25. Due to the 2015 financial situation of the ISU as well as the regulations put in place to prevent 2015 being another deficit year, the ISU operated on a shoestring budget which reduced the capacity of the ISU in providing in-country support to States Parties including the participation in stakeholder discussions on requests for extensions.

26. In 2015, the ISU provided assistance to five States Parties (Cyprus, Ethiopia, Mauritania, Niger and Senegal) that submitted requests for extended mine clearance deadlines in 2015. The ISU supported these States by providing detailed explanations regarding the extensions request process, commenting on drafts and providing additional information and assistance.

27. At the request of Tajikistan, an ISU staff member carried out a mission to Dushanbe to support mine clearance stakeholder meetings and provide advice and input into Tajikistan’s drafting of their Article 5 completion plan.

28. The ISU continued to advise States Parties on the fulfilment of their reporting requirements concerning mine clearance and victim assistance remotely as well as through discussion in relevant forums. The ISU also provided advice to States Parties on mine clearance and victim assistance aspects of the Convention as well as on a number of different issues concerning the Convention.

29. The ISU liaised with the Convention’s Committees in order to identify candidates to be considered for sponsorship by the Donor’s Group and liaised with the sponsorship program coordinator of the GICHD and subsequently with those state being provided with sponsorship. The ISU facilitated meetings between sponsored delegates and the relevant committees.

30. As previously noted, the ISU supported a member of the Committee on Victim Assistance, Thailand, in hosting the Bangkok Symposium.

Mandate # 4: “facilitate communications among the States Parties, and promote communications and information regarding the Convention towards States not Party and the public”

31. In 2015, the ISU continued to disseminate the decisions and the understandings adopted by the States Parties through seminars and workshops. In addition, the ISU
continued to deliver presentations at regional or national conferences or workshops on
matters pertaining to the Convention, including on the obligations and status of the
Convention and on learning lessons from the implementation of the Convention.

32. The ISU was invited and sponsored to offer presentations on the Convention at a
number of seminars and workshops, including at the First Regional Eastern European,
Caucasus and Central Asia Workshop of the GICHD, 9-12 June 2015 held in Minsk,
Belarus; OSCE Regional Workshop on Comprehensive Approaches to Explosive Hazards,
Response and Reduction in Central Asia and Afghanistan, 14-18 September held in
Bishkek, Kyrgyzstan; Workshop on Mine Action Legislation 14-15 October held by the
OSCE together with the GICHD, held in Kiev, Ukraine; Long-term ERW Management in
Southeast Asia, and Lessons from Europe International Symposium from 1-2 June 2015,
held in Siem Reap, Cambodia. For most of these efforts, sponsorship was provided to the
ISU.

33. The ISU as observer on the International Mine Action Standards Review Board
provided inputs into discussions taking place within the Review Board. Particularly over
the course of 2015, the ISU has participated in discussions concerning “residual
contamination” and participates in the working group which has been tasked to provide
advice to the IMAS Review Board.

Mandate #5: “keep record of formal and informal meetings under the Convention,
and communicated, as appropriate, the decision and priorities resulting from such
meetings to States Parties and other stakeholders”.

34. The ISU continued to update and enhance the Convention’s website, including by
establishing content for the Fourteenth Meeting of the States Parties (www.14msp.org).
The ISU put considerable effort into revising content on the Convention’s website
(www.apminebanconvention.org), including by updating information on pages dedicated to
each individual State Party, on the core aims of the Convention and on the Implementation
Support Unit.

35. The ISU continued to ensure that the volume of documents and statements generated
at the 2015 intersessional meetings were collected and made available on the Convention’s
website and in the Convention’s Documentation Centre. Concerning the Convention’s
Documentation Centre, it is important to point out that due to lack of human resource
maintenance of the documentation Centre has been stalled.

Mandate #6: “Liaise, and coordinate as appropriate, with relevant international
organisations that participate in the work of the Convention, including the ICBL, the
ICRC, the UN and the GICHD”.

36. In 2015, the ISU continued its close collaboration with those organisations that
historically have played a leading role in supporting the States Parties, namely relevant
United Nations departments, agencies and services, the International Campaign to Ban
Landmines and its member organisations, the International Committee of the Red Cross and
the GICHD. This close collaboration contributed to the 2015 intersessional meetings having
been organized to the satisfaction of the States Parties and the identification of
organisational efficiencies.

37. The ISU continued to deepen collaboration with actors that are central to disability
issues (and hence central to the States Parties’ work on victim assistance), including the
World Health Organisation, the International Labour Organisation, the United Nations
Office of the High Commissioner for Human Rights and non-governmental organisations
that have competence in the area of disability rights. The ISU also continued to deepen its
collaboration with a number of other organizations which it has historically collaborate with on a number of occasions, including the OSCE and the RACVIAC.

III. Administrative support provided by the GICHD to the ISU and the States Parties in 2015:

38. Expenses for infrastructure, logistics and administrative services in support of the ISU are (i.e., office rent and supplies, information technology and telecommunications, website management, travel services, human resources management, insurance, financial management and audit costs, and contract and document management), are covered by the GICHD, on the basis of funds provided by Switzerland.

39. While costs associated with providing substantive support to the Presidency and Co-Chairs in preparing the Intersessional Work Programme were covered by the ISU budget, costs related to facility rental, interpretation (Arabic, English, French, Russian and Spanish) and conference management concerning the Intersessional Work Programme were covered by the GICHD budget, again on the basis of funds provided by Switzerland.

40. While costs associated with providing strategic direction to the Sponsorship Programme are covered by the ISU budget, costs related to the administration of the Sponsorship Programme, including travel and accommodation services as well as reporting and auditing were covered by the GICHD budget, again on the basis of funds provided by Switzerland.

IV. Financing of the ISU’s 2015 work plan

(As of 25 November)
