xxi. The Meeting assessed the request submitted by Thailand for an extension of Thailand's deadline for completing the destruction of anti-personnel mines in mined areas in accordance with article 5.1, agreeing unanimously to grant the request for an extension until 1 November 2018.

xxii. In granting the request, the Meeting noted that the proposed 9.5 years is ambitious and contingent upon maintaining a sizeable increase in State funds dedicated to implementation and obtaining external support at a level that is at least 10 times greater than Thailand's recent experience in acquiring such support. The Meeting further noted that significant progress was expected, through Thailand's "Locating Minefields Procedure", to overcome impeding circumstances such as the manner in which the Landmine Impact Survey in Thailand had hindered implementation efforts.

The Meeting encouraged requesting States Parties, as relevant, to develop as soon as possible resource mobilisation strategies that take into account the need to reach out to a wide range of national and international funding sources. The Meeting furthermore encouraged all States Parties in a position to do so to honour their commitments to fulfilling their obligations under article 6.4 of the Convention to provide assistance for mine clearance and related activities.

progress to be achieved during extension periods. The Meeting furthermore encouraged all States Parties whose requests had been considered by the Ninth Meeting to provide updates relative to their accounting of remaining mined areas and/or annual benchmarks for progress at meetings of the Standing Committees, at the Second Review Conference and at Meetings of the States Parties.
