State [Party]: Ireland reporting for time period from 01/01/2018 to 31/12/2018

[Narrative / reference to other reports:]

The Irish Defence Forces is the only entity authorised to retain mines for permitted purposes. The Irish Defence Forces use live anti-personnel mines in the development and validation of mine render safe procedures and in training personnel in these procedures. Render safe procedures normally involve the destruction of the mine. Live mines are also used as part of the testing and validation of mechanical mine clearance equipment and in the training of personnel in the use of such equipment. Minimum metal content mines are used, as required, in the calibration and testing of mine detection equipment.

The Irish Defence Forces maintain a capability to survey, search for, detect, clear and destroy landmines. This capability includes many types of detection equipment, mechanical clearance assets, disposal experts and specialist search and clearance teams. The Defence Forces also continues to provide qualified personnel to territories affected by ERW as advisors and technical experts on search and clearance operations.

The Irish Defence Forces participated in the training of Jordanian Armed Forces in Mine and IED awareness and disposal during 2018. The Irish Defence Forces have deployed a mine clearance capability including mechanical clearance assets to both UNIFIL and UNDOF missions throughout 2018.

Ireland has been a consistent donor over many years in support of clearance operations related to landmines and unexploded ordnance. Ireland contributed over €7.7 million to humanitarian demining in the period 2016-2018, providing support intended to benefit the following States: Afghanistan, Cambodia, Lao PDR, Myanmar, Somalia, South Sudan, Vietnam and Zimbabwe.

Ireland also gave €20,000 to the APLC ISU in 2018 to support its work in implementation and universalisation. Ireland provided €5000 to Mines Action Canada's Mine Action Fellows programme to support capacity building for young women in demining activities.
