State [Party]: THE CZECH REPUBLIC reporting for time period from 1/1/2019 to 31/12/2019

[Narrative / reference to other reports:]

Steps taken to implement provisions of Article 6:

The Czech Republic in given period provided financial contribution to:

- 1) **the Ottawa Treaty** on activities of the Implementation Support Unit (ISU) in the framework of the Ottawa Treaty – 150,000 CZK;
- 2) **Bosnia and Herzegovina** through the International Trust Fund (ITF) – 300,000 CZK;
- 3) **Bosnia and Herzegovina** through the OSCE SAFE-UP Project to increase security and service support to ammunition and weapons warehouses in Bosnia and Herzegovina in order to show an effort in contributing to stabilization of the Western Balkan – 500,000 CZK.

Since the Czech Republic does not differentiate among various ERWs (mines, cluster munitions, EOD) in terms of assistance, above given information on assistance is also included in CCW P-II, APLC and CCM reporting forms provided by the Czech Republic.

**Matters pertaining to compliance and implementation not covered by the formal reporting requirements contained in Article 7**

On 1 January 2016, the Military Training Area Brdy was abolished by Act No. 15/2015 of the Collection of Laws, on the border military districts. The process of search, detection and destruction of UXO in this area was completed.

Although Brdy Protected Landscape Area was established in January 2016, the entire area is not open to the public. There are six locations which will remain permanently closed, which include inaccessible target impact areas.

In this regard, on 9 October 2017 the Minister of Defence of the Czech Republic issued a Provision, which established temporarily no-go zones within the Military Training Area Brdy until 31 December 2018 due to their pyrotechnic reconnaissance.

Based on findings of the pyrotechnic reconnaissance, the Minister of Defence of the Czech Republic made a decision to continue and focus on in-depth reconnaissance 30 cm below the ground level. The in-depth reconnaissance showed a necessity to conduct in-depth sweeping of the most affected areas. Therefore, a new Provision restricting access and work in those areas was prepared in 2019, issue of which is expected in 2020.
