Introduction

The Government and people of Iraq has honour to present their best greetings to his Excellency, Secretary General of United Nations, and avail themselves of this opportunity to thank both his Excellency and the international community for the support provided to Iraq.

Despite of exerting efforts and the considerable challenges that our teams still faced to clear minefields , destroyed all mines(including mines of an improvised nature) ,ERW and IEDs that have been found as well as the new dangerous areas that discovered in many areas of the country , Iraq pledges to the international community to continue its hard and diligent work, sparing no effort to implement its international commitments.

The Iraqi Mine Program has accomplished many non-technical and technical, surveys and clearance activities over the reporting period as well as a number of activities related to mine risk education campaigns. The extension request work plan has also been updated and establishes the capabilities and financial resources required to implement the plan.

We aspire to an Iraq Free of Mines , we also seek to national program. We call on the international community to continue and increase its support and assist and in addressing the remaining mined areas that continue to claim many lives and impede the process of investment and economic development in Iraq.

Finally, we express our heartfelt thanks for your trust and support for a prosperous, Iraq Free of Mines.

تتشرف حكومة العراق وشعبه بتقديم أفضل تحياتهم لسعادة الأمين العام للأمم المتحدة ، والاستفادة من هذه الفرصة لشكر كل من صاحب السعادة والمجتمع الدولي على الدعم المقدم للعراق.

على الرغم من الجهود المبذولة والتحديات الكبيرة التي لا تزال فرقنا تواجهها في إزالة حقول الألغام ، فقد دمرت جميع الألغام (بما في ذلك الألغام ذات الطبيعة المرتجلة) والمتفجرات من مخلفات الحرب والعبوات البدائية الصنع التي تم العثور عليها بالإضافة إلى المناطق الخطرة الجديدة التي تم اكتشافها في العديد من مناطق البلد ، يتعهد العراق للمجتمع الدولي بمواصلة عمله الشاق والدؤوب ، دون بذل أي جهد لتنفيذ التزاماته الدولية.

أنجز برنامج الألغام العراقي العديد من المسوحات غير الفنية والتقنية وعمليات إزالة الألغام خلال الفترة المشمولة بالتقرير ، فضلا عن عدد من الأنشطة المتعلقة بحملات التوعية بمخاطر الألغام. كما تم تحديث خطة عمل طلب التمديد وتحديد القدرات والموارد المالية اللازمة لتنفيذ الخطة.

نطمح إلى عراق خالٍ من الألغام ، كما نسعى إلى برنامج وطني. ندعو المجتمع الدولي إلى مواصلة وزيادة دعمه ومساعدته ومعالجة المناطق الملوثة المتبقية التي لا تزال تحصد أرواحا كثيرة وتعوق عملية الاستثمار والتنمية الاقتصادية في العراق.

ختاما، نعرب عن خالص شكرنا لثقتكم ودعمكم لعراق مزدهر خالٍ من الألغام.

A- National Implementation Measures

We would like to point out here that my country, Iraq, has indicated on many occasions, especially the speeches made during the previous conferences of the OTTAWA treaty , as well as the request for extension, as he affirmed that Iraq has enough legislation ,so no need to legislate additional aspects to ensure the implementation of Iraq's obligations to the article nine of the Anti personnel Mine Ban convention (Ottawa), so we will mention those aspects in the table below. As such, Iraq considers existing laws to be sufficient in the context of Article 9 obligations.

- Action #21 - Oslo Action Plane

After Iraq army liberates provinces previously controlled by ISIS gangs in 2014 , Iraq was confronted by new contamination, primarily by Improvised Explosive Devices (IEDs) . According to the States Parties of the Convention and as highlighted in the ICRCs 2019 document, IEDs which fit the definition of an anti-personnel mines - which are indiscriminate and victim activated (pressure plate, trip wire, infrared etc..) - need to be reported as anti-personnel mines of an improvised nature. The Oslo Action Plan also highlights in Action #21 that States Parties affected by anti-personnel mines of an improvised nature will ensure that they apply all provisions and obligations under the Convention to such contamination as they do for all other types of anti-personnel mines, including during survey and clearance in fulfilment of Article 5 and disaggregate by types of mines when reporting in fulfilment of Article 7 obligations.

The table (3) below includes areas affected by IEDs that were discovered and recorded in the IMSMA database during the period (1/1/2019) to (31/12/2019), most of these sites are within the governorates of the Regional Mine Action Centre-North (RMAC-N) and were previously under the control of ISIS gangs.

-Action 19 - Oslo Action Plan (Strategic plan)

According to the Oslo Action Plan (Action # 19), the Republic of Iraq has a strategic plan (2017-2021), also based on the first update of the extension request plan that was supported by ISU and sent in 2019 to Article 5 Committee , by cooperative with other ministry and governmental partners a committee was formed with the purpose of updating the national strategic plan so that it covers the remainder until 2028 fits in with the Ottawa Extension Request Plan .as well as we asked ISU to supporting us in this matter.

-Action # 3- Oslo Action Plane (Gender and diversity)

History and Efforts of DMA to promote mainstreaming of gender and diverse needs in mine action as follows:

In 2016 the Directorate of Mine Action (DMA). In 2017 Directorate of Mine Action (DMA) created a gender team and established a Gender Unit through an official decision. The DMA developed a clear vision to the requirements of gender considerations and highlights the role of women in all fields.

Women and men often have distinct gender roles and responsibilities within society and engagement with both women and men is crucial to the collection of information and gaining a comprehensive understanding of the challenge.

The Gender unit has implemented a number of activities especially in the area of surveys (Non-technical survey) and risk Education (RE) campaigns in many provinces, particularly in liberated areas.

Gender activities in the Mine Action

1-The gender unit (survey team) participated in the non-technical survey with RMAC-South operation teams - Missan Province (the first experience of the team) 2017.

2- Participated of the gender unit (survey team) in the non-technical survey with RMAC-Middle of Euphrates operation teams - Karbala Province 2017.

3- GMAP/ GICHD with DMA /Gender unit workshop 2017

4- Participate of the gender unit (survey team) in the non-technical survey with RMAC-Middle of Euphrates operation teams- Babylon Province 2018.

Also there were many activities at 2019:

5-Gender unit staff by cooperation with RMAC- North implemented many of RE campaigns in liberated areas 2019.

6 - Participate of the gender unit staff in the victims' statistics survey in Al-Anbar Province for the first, second and third phase 2018-2019.

7- Training of Gender unit staff to taking distinctive role in the media, awareness and assistance to victims, and in all related of mine action in 2019.

8 - The gender unit staff Participate in the (Women and Green Initiative) workshops according to Principles of sustainable development 2019.

9- The gender unit staff participated in the national Forums 2019.

10-Training of gender unit staff at the Ministry of Interior/Women's Training Institute according to Principles of sustainable development in 2019.

-Action # 9 - Oslo Action Plane (Information Management)

The Planning and Information Management Department / DMA is supported by iMAAP Org. The information management system in Iraq is in constant development with several modern programs linked to the IMSMA system being developed to allow for real-time and efficient data analysis. This allows us to quickly share this data with national and international partners as follows:

- 1- Creating (online OPS Dashboard) that were shared with all national and international partners to see (online) all the activities and works that have been implemented as well as the size and type of pollution that recorded in IMSMA database.
- 2- Creating and develop (online task management system-OTMS) online program for issuing work orders has been established to facilitate procedures for obtaining work orders as quickly as possible. This system was shared with all national and international partners. (This program is the first of its kind in the world).
- 3- Created and updated online reporting tool (FIRST) that were shared with all national and international partners to monitor and view their reports entered into the IMSMA system.
- 4- Update the internal server containing an iMMAT tool that helps to analyse the data simultaneously and prepare complete reports within minutes and submit them for decision-makers or any reports that are requested periodically or according to the periods or requests that we need. We share this tool with all Departments at DMA in order to assist them to setting priorities and setting the necessary plans for that.
- 5- We currently publish the (FREEDCAMP) app for labour administration and follow-up work between departments and sections
- 6- Create and using the electronic IMSMA form for RE reports tool to help in receiving the field report of the awareness activity and entering it in a faster and more accurate.
- 7- Established the Technical Working Group for Information Management (IM-TWG) with the national and international partners. There were monthly periodic meetings are held to facilitate procedures to them and listen to their challenges that facing in order to solve it.

-Action #26- Oslo Action Plane (DMAs progress in developing national capacity)

Directorate of Mine Action has set a flexible annual plan in order to developing the capabilities of supervision and implementation teams of governmental and non-governmental organizations and companies (national and international) , we coordinated these activities with the Ministry of Defense (Military Engineering Directorate / School of Unexploded Bombs at Basmaya) and the Ministry of Interior (Directorate of Explosives Control / Explosive Control Training Center at al-Madaain).

In additional we held many of training courses implemented by training section for all the implementation partners throughout 2019 in order to updating information, reducing errors and national capacity building in the field by updating specialist information, safety and general protection measures to avoid mistakes and reduce accident rates. see a table (14) in below:

D- APMs retained or transferred

According to Article 3

-Action #16 - Oslo Action Plan

The Republic of Iraq retains anti-personnel mines for training mine detection dogs, testing demining machines and studying the effect of the blast of various types of anti-personnel mines on demining equipment at a rate of approximately 20 mines as we mentioned in previous Article 7 reports. Following the 2019 annual review of the number of mines retained, Republic of Iraq has concluded that the number retained mines do not exceed the minimum number absolutely necessary for permitted purposes and we destroyed all APM that discovered or removed by clearance operations.

-Action #17 - Oslo Action Plan

Republic of Iraq is currently considering alternatives to using live anti-personnel mines for training and research purposes and DMA cooperate with Ministry of Defence in the matter to continue exploring this matter. Republic of Iraq will keep the States Parties updated.

-Action # 28 – Oslo Action plan

- Regarding to this action , There are many RE activities have been done as follow:

A-Directorate for mine action (DMA)by coordination with the Iraqi Ministry of Education, specifically the Curriculum Department and cooperate with concerned organizations, where subjects were developed in the curricula of the elementary school for the fifth and sixth primary levels, especially in the subject of the danger of mines and ERW and how to guard against them.

These curricula are studying in all governorates of Iraq. by the other side, we are currently working to develop a plan to train of teachers, in effected governorates, because they are in permanent contact with students.

A group of teachers is scheduled to be trained in all governorates of Iraq, especially in areas that suffering of contamination, so that they are able to spread the awareness message to students and the way of safe behavior When there is a risk. as well as we are ongoing to hold a project such as(preparing awareness workshops, TOT) in all governorates according to the strategic plan .

B- Publishing awareness films on TV channels, news headlines and warning messages to citizens, by studying awareness messages and types because the media is very important and it reaches more fastest and largest possible number of people, as well as (DMA) is broadcasting educational paragraphs by coordinate with known local Satellite Channels with focusing of contamination type (Type of Hazardous) for each governorate.

C – There are many awareness campaigns, RE activities have been done as details here in below:

- 1- All demining operations related to mine, ERW and IED are accompanied by RE task order
- 2- Awareness campaigns are continuing in areas that still contaminated.
- 3- Encouraging citizens to change wrong behavior into safe behavior
- 4- Intensifying awareness campaigns in the areas whose residents are exposed to accidents.
- 5- Intensifying awareness campaigns for the areas that has natural disasters, such as flood and drifts
- 6- monitoring and evaluation on the authority partners (Org. & Co.) national and international that working in awareness field.
- 7- (DMA) have free cell phone No. (182) that working with all cell phone company, also we published to the people the necessity to call the free number to report mines, IEDs and military remnants or call the number 115 Civil Defense.

D- Merging awareness (RE) campaigns with for sports activities for the disabled (victims), the awareness and media department coordinated with the Victims Assistance Department by holding sports competitions for the disabled as well as there are educational and guidance lectures and distribute of publications and awareness posters carrying targeted messages to all The attendees and audiences.

-Action # 29– Oslo Action plan

A- There are several risk educations (RE) -raising activities and programs that aim to reduce injuries of mines and ERW by raising awareness and encouraging to change a wrong behavior into safe behavior, by education, training, publishing information , and community communication as below:

- 1- Directorate of mine action (DMA) by annual plan, implemented awareness campaigns continuously throughout the year targeted almost of all affected communities at most governorates of Iraq according to regional mine action centers (RMAC-S, RMAC-N, RMAC-N) as well as by type of hazardous in each governorate.
- 2- Visiting the schools and population communities in the villages with the district chief or mayor of the region to provide them awareness .
- 3- Visiting of women at home or by holding an awareness meeting for women in villages.
- 4- We Distribute awareness posters and leaflets that contain warning and advisory messages, photos of ERW, IEDs and mine, according to the nature of the contamination close to their community.
- 5- Implemented (RE) awareness campaigns in the camps for the displaced.

B- Providing children's plays aimed to know a safe behavior when there is danger, as well as many NGOs provided awareness programs in camps for the displacement.

C- Studies of the community are carried out in order to develop the awareness messages to ensure that the message is targeted and appropriate and to ensure that the message reaches the population faster in a simpler way and not too complex in order to ensure that the recipient receive it easily and that the message is easily understood. The Mine Risk Education programme is being carried out with the assistant of partners through new designs were developed and educational publications developed in line with the specific nature of contamination and threat posed to the population (3D designs for adults and children taking into consideration gender issues).

D- We are involving the gender factor in relation of teams working to deliver Risk Education (RE), especially for communities that have special traditions, as well as targeting all segments and age groups of society (children, adults, males, females, youth ... etc), all groups of society should receive education with a focus on Categories at greatest risk.

-Action # 30 – Oslo Action Plan

According to this Action :

A-Awareness campaigns are continuing in affected communities and the liberated areas are considered a high priority in order to accelerate the return of families and the displaced to their homes. There are also intensive awareness campaigns in the areas where injuries and accidents occurred as in Al Muthanna Governorate and during the grazing season. An emergency plan has been drafted for this province due to the increased number of injuries and accidents.

B- Iraq is also intensifying awareness campaigns to communities during the grazing and transportation seasons and the hunting season as in Samawah Badia for Al-Muthanna Governorate to reduce the number of injuries and accidents in 2020.

C - DMA coordinated with accredited NGOs placed warning boards containing pictures of ERW, IEDs and mine as well as of free phone numbers to call (DMA) when found ERW ,IEDs and mine .

D- Intensifying awareness campaigns on religious occasions as in the fortieth visit (Imam Al-Hussein visit), Niroz holiday in Missan and Basra for the year 2019.

E-DMA placed a warning signs marks (danger triangle) supported by ICRC to identifying the dangerous areas and avoid the people entered their and you can see the details in (section I-2 – Marking page 64)

-Action # 31- Oslo Action plan

A- Directorate for mine action (DMA) works to build capacity of awareness teams and developing their capabilities by holding workshops supporting by the United Nations Mine Action Service (UNMAS), There are two workshops have been held about Risk Education and assessment & monitoring during 2019 for DMA staff.

B- Directorate of mine Action (DMA) through RMACs always follow-up and evaluation the international and national partners that working in awareness (RE) of Mine, IEDs and ERW. Awareness sections in RMACs carry out many field visits to evaluate the performance of the workers, messages, type of awareness methods used, publications and the extent of public acceptance of this message.

-Action # 32- Oslo Action Plan

Challenges

- 1- Increasing of contamination area after liberating the provinces from ISIS gangs and the speedy return of the displaced families and to their homes, which requires intensifying awareness (RE) campaigns in these areas as well as the difficulty of access to some areas in sometimes.
- 2- The need to provide educational (RE) materials that the team is supposed to distribute during their field trips such as (hats, t-shirts, school bags ... etc).
- 3- There are many contaminated areas in middle and south of Iraq still need continuing RE activities for mines and ERW.

The Victim Assistance Requirements according to the Oslo Action Plane of Ottawa Convention

-Action # 33 - Oslo Action Plan

The government entity is represented by the commission of the Persons with Disabilities and Special Needs, that integrates victim assistance programs with plans, policies and legal frameworks, in addition to representing the seven disabilities in this body, which sets the general policies for people with disabilities and special needs in Iraq, including victims of mines and explosive remnants of war.

-Action # 34 - Oslo Action Plan

The Acting Law for the Care of Persons with Disabilities and Special Needs No. 38 of 2013 was established to ensure the needs and rights of all persons with disabilities, including victims of mines and explosive remnants of war, throughout national policies and legal frameworks related to disability, health, education, employment and development.

-Action # 35- Oslo Action Plan

Based on the recommendations of the Strategic Approach of Victim Assistance workshop that were held in Baghdad, the VA dep, of DMA, in coordination with the relevant partners in the ministries of health, environment, labor and social affairs represented by the commission of the persons with disability and Special Needs Authority, which is responsible for the disability program in Iraq. For the purpose of preparing a unified national plan that includes the needs and programs of people with disabilities and the role of all supportive bodies that provide their services to people with special needs, as well as the work to create a unified database for the people with disabilities, victims of mines and ERW.

-Action # 36 - Oslo Action Plan

There are no emergency medical services near or adjacent to the contaminated areas, but the victim who was injured, transported upon through the available means, may be evacuated by his companion with, or present first aid by the organization working near the contaminated areas. Concerning the continuing medical services, the victim has been received in central hospitals of the contaminated governorate and taken necessary action in connection with the provision of first aid services by emergency section, surgical operations and blood transfusion for victims who has serious case as a result of the injury, after the victim has acquired a degree of full recovery from the injury, he is referred to a rehabilitation center to rehabilitate the victim medically, psychologically, physically,

and physical therapy , according to his case, on other hand if the victim is amputated, he will be referred by the hospital to the rehabilitation center to rehabilitate the amputated party to fit with the prosthesis and then refer the victim to the prosthesis center, located in the contaminated governorate to provide him with the artificial limbs that he needs to ensure his physical inclusion in society.

-Action # 37- Oslo Action Plan

Ensuring a national referral mechanism to facilitate access to services, is the best solution for accessing services to victims, especially in remote areas, and activating the role of the community rehabilitation unit in each of the disabled rehabilitation centers located in all governorates unfortunately, this unit is not activated due to the obstacles, financial and security situation that encounter Iraq. This unit needs significant financial allocations in terms of logistical support, the allocation of vehicles and specialized cadres, including physicians, researchers, processors, and the provision of especially for logistic preparations, since we have approximately 23 rehabilitation centers throughout Iraq.

-Action # 38- Oslo Action Plan

Take steps to ensure access to services, rehabilitation, and psychological rehabilitation services. All of these procedures are taken, within the jurisdiction of the commission of persons with disabilities and Special Needs Authority, which draws out the general policies for people with disabilities and special needs in Iraq, including victims of mines and ERW, through representatives of all partners from ministries and NGOs as well as representatives of the seven disabilities in the authority. The commission has held Periodical meetings to discuss all issues that are concerning the states of persons with disabilities and special needs, including mine victims, and discuss the procedures, to ensure the provision of services.

-Action # 39 - Oslo Action Plan

The commission of persons with Disabilities and Special Needs works to set its utmost efforts to ensure social and economic inclusion and allocate the salaries of a full-time breadwinner who support the victim with his needs as well as the commission makes its efforts to access the persons with disabilities to education throughout private and inclusive schools and then to institutes and colleges

The commission has mandage, of integrating people with disabilities and special needs in society, by imposing 5% ratio of disabled workers within the public and private sectors, and all of these issues are guaranteed by Law 38 of 2013.

-Action # 40- Oslo Action Plan

Within the procedures of the departments concerned with disability, and according to Law No. 38 of 2013, the ministries concerned with supporting people with disabilities have initiated specific measures according to their specialization, for example, the Ministry of Transport, allocating pivot seats in public transport buses, and offer low price of travel ticket on board of Iraqi Airways and trains.

The Ministry of Youth and Sports, establishing special stadiums for athletes with disability for various games and participation in local and international championships in addition to supporting the activities carried out by the Paralympic Committee.

The ministry of labor and social affairs allocate monthly salary for disabled person from the social protection commission and grant soft loans for those who are seeking for jobs where, he/she trained at vocational centers.

The ministry of trade facilitate possessing an adapted car with low price, and there are other services provided by other ministries that fall within the protection and support measures.

-Action # 41- Oslo Action Plan

There are representatives of the seven disabilities in the commission, they are audio-visual, petition, short stature, mobility ... etc. They participate in the formulation of policies and decision-making within the Board of commission of the persons with Disability and special needs.
