<sup>&</sup>lt;sup>1</sup> Notes on using the cover page:

<sup>1.</sup> The cover page could be used as a **complement** to submitting detailed forms adopted at the [First and Second] Meetings of the States parties in instances when the information to be provided in some of the forms in an annual report is the same as it would be in past reports. That is, when using the cover page, only forms within which there is new information would need to be submitted.

<sup>2.</sup> The cover page could be used as a **substitute** for submitting detailed forms adopted at the [First and Second] Meetings of the States parties only if all of the information to be provided in an annual report is the same as in past reports.

<sup>3.</sup> If an indication is made on the cover sheet that the information to be provided with respect to a particular form would be unchanged in relationship to a previous year's form, the date of submission of the previous form should be clearly indicated.

# Form A National implementation measures

# Article 7.1 "Each State Party shall report to the Secretary-General ... on:

a) The national implementation measures referred to in Article 9."

*Remark:* In accordance with Article 9, "Each State Party shall take all appropriate legal, administrative and other measures, including the imposition of penal sanctions, to prevent and suppress any activity prohibited to a State Party under this Convention undertaken by persons or on territory under its jurisdiction or control".

State Party:	ITALY	reporting for time period from	01-Jan-20	to	31-Dec-20	
--------------	-------	--------------------------------	-----------	----	-----------	--

Measures	Supplementary information (e.g., effective date of implementation & text of legislation attached).
Law 29 October 1997, n° 374 – "Ban of antipersonnel mines"	Effective since 18 November 1997 text attached at previous Report
Decree 2 October 1998 - "Destruction of antipersonnel mines stockpiles"	Effective since 17 October 1998 text attached at previous Report
Law 26 March 1999, n° 106 "Ratification and implementation of Ottawa Convention"	Effective since 24 April 1999 text attached at previous Report
Decree 1 August 2000 "Destruction of antipersonnel mines stockpiles"	Effective since 6 September 2000 text attached at previous report

# Form B Stockpiled anti-personnel mines

### Article 7.1 "Each State Party shall report to the Secretary-General ... on:

b) The total of all stockpiled anti-personnel mines owned or possessed by it, or under its jurisdiction or control, to include a breakdown of the type, quantity and, if possible, lot numbers of each type of anti-personnel mine stockpiled."

State Party:	ITALY	reporting for time period from	01-Jan-20	to	31-Dec-20
--------------	-------	--------------------------------	-----------	----	-----------

Туре	Quantity	Lot # (if possible)	Supplementary information
		//	Italy completed the destruction of all its national stockpile in 2002.
TOTAL			

### Form C Location of mined areas

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

c) To the extent possible, the location of all mined areas that contain, or are suspected to contain, anti-personnel mines under its jurisdiction or control, to include as much detail as possible regarding the type and quantity of each type of anti-personnel mine in each mined area and when they were emplaced."

State Party:	ITALY	reporting for time period from	01-Jan-20	to	31-Dec-20
--------------	-------	--------------------------------	-----------	----	-----------

#### 1. Areas that contain mines\*

Location	Туре	Quantity	Date of emplacement	Supplementary information
N/A				No mined area is under jurisdiction or control of Italy

### 2. Areas suspected to contain mines\*

Location	Туре	Quantity	Date of emplacement	Supplementary information
N/A				No suspected mined area is under jurisdiction or control of Italy

\* If necessary, a separate table for each mined area may be provide

### Form D APMs retained or transferred

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

d) The types, quantities and, if possible, lot numbers of all anti-personnel mines retained or transferred for the development of and training in mine detection, mine clearance or mine destruction techniques, or transferred for the purpose of destruction, as well as the institutions authorized by a State Party to retain or transfer anti-personnel mines, in accordance with Article 3"

State Party:	ITALY	reporting for time period from	01-Jan-20	to	31-Dec-20
--------------	-------	--------------------------------	-----------	----	-----------

Institution authorized by State Party	Туре	Quantity	Lot # (if possible)	Supplementary information
ITALIAN ARMED FORCES	AUPS MAUS MK2 VAR VALMARA MAUS 1	111 113 111 113 15 100		Warfare mines are utilized for bomb-disposals and pioneers training courses.
TOTAL		563		1

1a. *Compulsory:* Retained for development of and training in (Article 3, para.1)

### 1b. Voluntary information (Action #54 Nairobi Action Plan)

Objectives	Activity / Project	Supplementary information
		(Description of programs or activities, their objectives and progress, types of mines, time period if and when appropriate,)
//	//	"Information on the plans requiring the retention of mines for the development of and training in mine detection, mine clearance, or mine destruction techniques and report on the actual use of retained mines and the results of such use"

NOTE: Each State Party should provide information on plans and future activities if and when appropriate and reserves the right to modify it at any time

# Form D (continued)

### 2. *Compulsory:* Transferred for development of and training in (Article 3, para.1)

Institution authorized by State Party	Туре	Quantity	Lot # (if possible)	Supplementary information: e.g. transferred from, transferred to
N/A				No transfer outside of Italian territory
TOTAL				

### 3. *Compulsory:* Transferred for the purpose of destruction (Article 3, para.2)

Institution authorized by State Party	Туре	Quantity	Lot # (if possible)	Supplementary information: e.g. transferred from, transferred to
N/A				No transfer outside of Italian territory
TOTAL				

# Form E Status of programs for conversion or de-commissioning of APM production facilities

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

e) The status of programs for the conversion or de-commissioning of anti-personnel mine production facilities."

State Party:	ITALY	reporting for time period from	01-Jan-20	to	31-Dec-20	
--------------	-------	--------------------------------	-----------	----	-----------	--

Indicate if to "convert" or "decommission"	Status (indicate if "in process" or "completed")	Supplementary information			
Civilian firm TECNOVAR has ceased the activity	completed	Adjudication in bankruptcy on 3 November 1997.			
Conversion of civilian firm VALSELLA	completed	Valsella Meccanotecnica S.p.A., after the acquisition by VE&D srl and Pro.De. srl, completely stopped any military production and destroyed all the equipments for constructing APMs. The firm was converted in a Vehicles Development Center, whose current activity is "engineering, construction of prototypes and fitting of vehicles". Civil works for infrastructure restoration are still in progress.			
Conversion of civilian firm MISAR		National Military Authorities, in charge of collection and destruction of APMs owned or possessed by any civilian at the moment of entry into force of Law 374/97, have received confirmation that MISAR was acquired by successive companies and APM production facilities were destroyed.			

NOTE: APMs were never produced in any military facility.

### Form F Status of programs for destruction of APMs

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

f) The status of programs for the destruction of anti-personnel mines in accordance with Articles 4 and 5, including details of the methods which will be used in destruction, the location of all destruction sites and the applicable safety and environmental standards to be observed."

State Party:	ITALY	reporting for time period from	01-Jan-20	to	31-Dec-20
--------------	-------	--------------------------------	-----------	----	-----------

### 1. Status of programs for destruction of stockpiled APMs (Article 4): COMPLETED

Description of the status of programs including:	
Location of destruction sites	Details of:
Military Plant in BAIANO DI SPOLETO	<ul> <li>Methods: Pressure APMs in service within the Italian Army (detonators included) and practice mines of all types and models were assigned to this Military Plant; AUPS, MAUS, MK2, VAR 40 and PMC (out of order) are the most common models processed. The working cycle for warfare mines can be summed up as follows: <ul> <li>unpacking and dismantling;</li> <li>differentiated salvage of components (explosive, plastic and metallic materials);</li> <li>grinding of demolition explosive and plastic materials;</li> <li>recycling or disposal of demolition material by private firm.</li> </ul> </li> </ul>

	<b>Applicable safety standards:</b> An incinerator for explosives has been installed in the plant, for the processing of detonators and explosive with no commercial value. The working lines have been installed in rooms already equipped with wiring, air pressure and intaking systems suitable for the specific purpose
	<b>Applicable environmental standards:</b> The disposal process, as the facility itself, are in compliance with the current safety regulations and with those concerning environmental protection. In particular, every attention was paid in order to avoid any soil pollution.
Military Plant in NOCETO DI PARMA	Methods:Warfarewide-rangeAPMsVALMARA 69 were assigned to this MilitaryPlant as a consequence of Decree 1 August 2000.The working cycle can be summed up as follows:- unpacking and dismantling;- differentiated salvage of components (plastic and metallic materials);- cutting of explosive body, destruction of plastic components;- recycling or disposal of demolition material by private firm.
	Applicable safety standards: An incinerator for explosives has been installed in the plant for the processing of explosive, as it has no commercial value. The working lines are being installed in rooms equipped with wiring, air pressure and intaking systems suitable for the specific purpose.Applicableenvironmentalstandards:
	disposal process, as the facility itself, are in compliance with the current safety regulations and with those concerning environmental protection.

### 2. Status of programs for destruction of APMs in mined areas (Article 5)

Description of the status of programs including:	Details of:
Location of destruction sites	
N/A	No mined area in territory under national jurisdiction or control.

# Form G APMs destroyed after entry into force

#### Article 7.1 "Each State Party shall report to the Secretary-General ... on: g) The types and quantities of all anti-personnel mines destroyed after the entry into force of this Convention for that State Party, to include a breakdown of the quantity of each type of anti-personnel mine destroyed, in accordance with Articles 4 and 5, respectively, along with, if possible, the lot numbers of each type anti-personnel mine in the case of destruction in accordance with Article 4"

State Party:	ITALY	reporting for time period from	01-Jan-20	to	31-Dec-20

1. Destruction of stockpiled APMs (Article 4)

		,		
Туре		Quantity	Lot # (if possible)	Supplementary information
				Italy completed the destruction of all its national stockpile in 2002.

### Form I Measures to provide warning to the population

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

i) The measures taken to provide an immediate and effective warning to the population in relation to all areas identified under paragraph 2 of Article 5."

*Remark:* In accordance with Article 5, para.2: "Each State Party shall make every effort to identify all areas under its jurisdiction or control in which anti-personnel mines are known or suspected to be emplaced and shall ensure as soon as possible that all anti-personnel mines in mined areas under its jurisdiction or control are perimeter-marked, monitored and protected by fencing or other means, to ensure the effective exclusion of civilians, until all anti-personnel mines contained therein have been destroyed. The marking shall at least be to the standards set out in the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices, as amended on 3 May 1996, annexed to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects".

State Party:	ITALY	reporting for time period from	01-Jan-20	to	31-Dec-20	
--------------	-------	--------------------------------	-----------	----	-----------	--

[Narrative:] No warning action is needed as no mined area, or suspected mined area, is under the jurisdiction or control of Italy.

### Form J Other relevant matters

Remark: States Parties may use this form to report voluntarily on other relevant matters, including matters pertaining to compliance and implementation not covered by the formal reporting requirements contained in Article 7. States Parties are encouraged to use this form to report on activities undertaken with respect to Article 6, and in particular to report on assistance provided for the care and rehabilitation, and social and economic reintegration, of mine victims.

State Party:	ITALY	reporting for time period from	01-jan-2020	to	31-dec-2020
