¹ Notes on using the cover page:

1. The cover page could be used as a **complement** to submitting detailed forms adopted at the [First and Second] Meetings of the States parties in instances when the information to be provided in some of the forms in an annual report is the same as it would be in past reports. That is, when using the cover page, only forms within which there is new information would need to be submitted.
2. The cover page could be used as a **substitute** for submitting detailed forms adopted at the [First and Second] Meetings of the States parties only if all of the information to be provided in an annual report is the same as in past reports.
3. If an indication is made on the cover sheet that the information to be provided with respect to a particular form would be unchanged in relationship to a previous year's form, the date of submission of the previous form should be clearly indicated.

**CONVENTION ON THE PROHIBITION OF THE USE, STOCKPILING,
PRODUCTION AND TRANSFER OF
ANTI-PERSONNEL MINES AND ON THEIR DESTRUCTION**

Reporting Formats for Article 7

State party: Federal Democratic Republic of Ethiopia

Point of contact: Ministry of Defence – Mine Action Office (MoND MAO)

Telephone: +251 12 553 4614/ +251111380263

Fax : +251111380261

E-mail: modfrmcd@gmail.com (Attn.: MoND MAO)

Reporting for the time period: January 01, 2021 to March 31 2022

Form A National implementation measures

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

The national implementation measures referred to in Article 9."

Remark: In accordance with Article 9, "Each State Party shall take all appropriate legal, administrative and other measures, including the imposition of penal sanctions, to prevent and suppress any activity prohibited to a State Party under this Convention undertaken by persons or on territory under its jurisdiction or control".

State [Party]: Ethiopia reporting for time period from **January 2021** to **March 2022**

Measures: Supplementary information (e.g., effective date of implementation & text of legislation attached).

No legal, administrative and other measures were adopted within the period under consideration. The existing pieces of legislation in the main legal and judicial system of Ethiopia are adequate enough to charge, prosecute and punish any national or foreign citizen who uses, produces, transfers, stores or encourages others to use antipersonnel mines within Ethiopia territory. For additional information refer to the report submitted in 2017 for information that has been provided by the Federal Democratic Republic of Ethiopia on measures that have been taken in the past.

Form B Stockpiled anti-personnel mines

Article 7. 1 "Each State Party shall report to the Secretary-General ... on:

b) The total of all stockpiled anti-personnel mines owned or possessed by it, or under its jurisdiction or control, to include a breakdown of the type, quantity and, if possible, lot numbers of each type of anti-personnel mine stockpiled."

State [Party]: **Ethiopia** reporting for time period from **January 2021** to **March 2022**

Type	Quantity	Lot # (if possible)	Supplementary Information
N/A	N/A	N/A	The Federal Democratic Republic of Ethiopia had declared the completion of destruction all known stockpiled anti-personnel mines on April 2, 2009.
Total			

Not applicable.

Form C Location of mined areas

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

c) To the extent possible, the location of all mined areas that contain, or are suspected to contain, anti-personnel mines under its jurisdiction or control, to include as much detail as possible regarding the type and quantity of each type of anti-personnel mine in each mined area and when they were emplaced."

State [Party]: **Ethiopia** reporting for time period from **January 2021 to March 2022**

1. Areas that are confirmed and suspected to contain mines* These are the remaining mapped contamination as of 30 April 2019.

* Please see attached table with data on each mined area.

During the last April 2019 report, there were 261 areas in Ethiopia known and suspected to contain anti-personnel mines totaling 1,056,349,551 square meters remain to be addressed. See table 1 for complete list of these areas. Areas known or suspected to contain anti-personnel mines remain in 261wereda/districts in all six regions of Ethiopia as follows:

Region /Province	Number of areas known to contain mines	Number of areas suspected to contain mines	Total number of areas known or suspected to contain mines	Amount of area known to contain mines(m ²)	Amount of area suspected to contain mines(m ²)	Total amount of area known or suspected to contain mines(m ²)
Somali	24	185	209	3,812,500	1,046,265,608	1,050,078,108
Gambella	-	20	20	-	838,000	838,000
Afar	6	8	14	1,755,049	1,915,300	3,670,349
Tigray	3	-	3	691,989	-	691,989
Oromia	-	13	13	-	1,026,105	1,026,105
Benishangule Gumuze	2	-	2	45,000	-	45,000
	35	226	261	6,304,538	1,050,045,013	1,056,349,551

*Summary of areas known or suspected to contain anti-personnel mines as of 30April 2019
(Table 1)*

In its 2nd request for an extended deadline, which was submitted in 2019, the Federal Democratic Republic of Ethiopia made time-bound commitments to enhance efforts to implement Article 5 of the Convention. The Federal Democratic Republic of Ethiopia has made projections for the year when each of the remaining 261 areas known or suspected to contain anti-personnel mines would be released. In 2019-2025, it is projected that 35 areas known to contain anti-personnel mines totaling 6,304,538 square meters and 226 areas suspected to contain anti-personnel mines totaling 1,050,045,013 square meters to be released in six regions of the country.

*As of 31 March 2021, Federal Democratic Republic of Ethiopia was able to cancel and reduce 110 areas measuring 330,341,076 square meters. Previously suspected hazardous areas are now no longer suspected from anti-personnel mines threat. Areas are declared safe for social and development activities. The methodology used to declare the area safe comprises: 46,600 Square meters cleared, and 13,400 Square meters **cancelled** using NTS. (See Annex III.) Areas were released in Somali region with the effort resulting in implementation Fike zone being declared complete in Somali region. In the course of carrying out operations to release these areas, a total of 46 Anti-Tank mines(TM-57 type) were destroyed. The remaining area to be addressed is 152 areas measuring 726,008,475 Square Meters will be part of the next plan until December 2025. For information see the next table 2 implemented 1 May 2019-April 2020. All the areas were released using manual clearance method because the remaining area is mountain and most of the area is remote in the border of the country.*

It has to be noted that the global COVID 19 pandemics had affected the Ethiopian mine action sector. (Detail reported under form J)

Region /District	District	Cancelled area (m ²)	Reduced area (m ²)	Cleared area (m ²)	Total area released (m ²)	Number of AP mines destroyed	Number of UXO destroyed	Number of areas released
As of April 2020 areas released in Erer Zone of Somali region	Fiq	-	13,400	46,600	60,000	0	0	1
Total								

Summary of area and areas released and devices destroyed as of 31 March 2022 (Table2)

Region /Province	Number of areas known to contain anti-personnel mines	Number of areas suspected to contain anti-personnel mines	Total number of areas known or suspected to contain anti-personnel mines	Amount of area known to contain anti-personnel mines(m ²)	Amount of area suspected to contain anti-personnel mines(m ²)	Total amount of area known or suspected to contain anti-personnel mines(m ²)
Somali	18	82	100	1,027,500	718,709,532	719,737,032
Gambella	-	20	20	-	838,000	838,000
Afar	6	8	14	1,755,049	1,915,300	3,670,349

Total	29	123	152	3,519,538	722,548,937	726,008,475

Summary of areas remaining known or suspected to contain anti-personnel mines as of 31 March 2022 /remaining (Table 3)

Planned	Total known and SHA to be reduced canceled and cleared per year in square meters							
	2019	2020	2021	2022	2023	2024	2025	Total
To be cleared	1,905,438.26	4,300,000	4,300,000	4,300,000	4,300,000	4,300,000	3,900,000	27,305,438.26
To be Reduced	171,507,352	171,507,352	171,507,352	171,507,352.74	171,507,352	171,507,352	-	1,029,044,112.74
Total	173,412,790.2	175,807,352	175,807,352	175,807,352.74	175,807,352	175,807,352	3,900,000	1,056,349,551

Summary of projections for the the amount of area (square meters) known or suspected to contain anti-personnel mines to be released 2019-2025

Form D APMs retained or transferred

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

d) The types, quantities and, if possible, lot numbers of all anti-personnel mines retained or transferred for the development of and training in mine detection, mine clearance or mine destruction techniques, or transferred for the purpose of destruction, as well as the institutions authorized by a State Party to retain or transfer anti-personnel mines, in accordance with Article 3"

State [Party]: Ethiopia reporting for time period from January 2021 to March 2022

1a. Compulsory: Retained for development of and training in (Article 3, para.1)

The Federal Democratic Republic of Ethiopia does not retain or transfer anti-personnel mines for permitted purposes.

Form E Status of programs for conversion or de-commissioning of APM production facilities

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

e) The status of programs for the conversion or de-commissioning of anti-personnel mine production facilities."

State [Party]: **Ethiopia** reporting for time period from January 2021 to March 2022

Indicate if to "convert" or "decommission"	Status (indicate if "in process" or "completed")	Supplementary information
Ethiopia had never been producer of any type of mines therefore does not possess any production facilities.	N/A	N/A

Form F Status of programs for destruction of APMs

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

f) The status of programs for the destruction of anti-personnel mines in accordance with Articles 4 and 5, including details of the methods which will be used in destruction, the location of all destruction sites and the applicable safety and environmental standards to be observed."

State [Party]: Angola reporting for time period from January 2021 to March 2022

1. Status of programs for destruction of stockpiled APMs (Article 4)

<i>Type</i>	<i>Quantities</i>	<i>Supplementary Information</i>
N/A	N/A	Not applicable for the reporting period

2. Status of programs for destruction of APMs in mined areas (Article 5)

Region	Operator	Area cleared (m ²)	No. of AP mines destroyed*	No. of AV mines destroyed*	No. of UXO destroyed*
Somali	MoND - MAO	60,000	0	0	0
Total		60,000	0	0	0

- 46 AT Type 57 mines were destroyed

Technical survey (TS) of anti-personnel mines in 2021

Districts	Operator	Area reduced by TS (m ²)
Total		

Non-technical survey (NTS) of anti-personnel mines in 2020

Districts	Operator	Area cancelled by NTS (m ²)

Form G APMs destroyed after entry into force

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

g) The types and quantities of all anti-personnel mines destroyed after the entry into force of this Convention for that State Party, to include a breakdown of the quantity of each type of anti-personnel mine destroyed, in accordance with Articles 4 and 5, respectively, along with, if possible, the lot numbers of each type anti-personnel mine in the case of destruction in accordance with Article 4"

State [Party]: Ethiopia reporting for time period from January 2021 to March 2022

1. Destruction of stockpiled APMs (Article 4)

Type	Quantity	Lot # (if possible)	Supplementary information
NA	NA		
NA	NA		
TOTAL			

2. Destruction of APMs in mined areas (Article 5)

Type	Quantity	Supplementary information
Landmines		Includes 143,615 anti-personnel blast mines, 32,042 anti-vehicle mines of various types. These include all items recovered from 2004 after entry into force.
UXO		Includes items of unexploded ordnance of various types destroyed in the process of demining and EOD.
TOTAL		

Form H Technical characteristics of each type produced/owned or possessed

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

h) The technical characteristics of each type of anti-personnel mine produced, to the extent known, and those currently owned or possessed by a State Party, giving, where reasonably possible, such categories of information as may facilitate identification and clearance of anti-personnel mines; at a minimum, this information shall include the dimensions, fusing, explosive content, metallic content, colour photographs and other information which may facilitate mine clearance"

State [Party]: **Ethiopia** reporting for time period from **January 2021** to **March 2022**

1. Technical characteristics of each APM-type produced: **N/A**

Type	Dimensions	Fusing	Explosive content	Metallic content	Colour photo attached	Supplementary information to facilitate mine clearance.
type	grams					
N/A	N/A	N/A	N/A	N/A		

2. Technical characteristics of each APM-type currently owned or possessed

Type	Dimensions	Fusing	Explosive content	Metallic content	Colour photo attached	Supplementary information to facilitate mine clearance.
type	grams					
N/A						
N/A						

Form I Measures to provide warning to the population

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

i) The measures taken to provide an immediate and effective warning to the population in relation to all areas identified under paragraph 2 of Article 5."

Remark: In accordance with Article 5, para.2: "Each State Party shall make every effort to identify all areas under its jurisdiction or control in which anti-personnel mines are known or suspected to be emplaced and shall ensure as soon as possible that all anti-personnel mines in mined areas under its jurisdiction or control are perimeter-marked, monitored and protected by fencing or other means, to ensure the effective exclusion of civilians, until all anti-personnel mines contained therein have been destroyed. The marking shall at least be to the standards set out in the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices, as amended on 3 May 1996, annexed to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects".

State [Party]: **Ethiopia** reporting for time period from **January 2021** to **March 2022**

[Narrative:] Explosive Ordnance Risk Education (EORE) is a top priority in Ethiopia. The government recognizes the hazards presented by landmines (EOs), and EORE initiatives continue to focus on regions where NTS and TS activities are taking place, as well as on populations affected by landmines. During the reporting period, MoND MAO, a field operator, carried out ad hoc EORE actions during assessments in Fiq areas. During this engagement risk education activities were conducted in Fiq woreda benefiting 1553 men, women and Children.

Form J: Other Relevant Matters:

Ethiopia is dedicated to advancing mine action initiatives aimed at reducing landmines' social, economic, and environmental repercussions. Despite delayed growth compounded by a worldwide pandemic and domestic turmoil, the industry has seen increased attention from foreign and national entities.

Mine action is now incorporated in the UN humanitarian response plan, following a detailed desk review study conducted by UNMAS (HRP 2022). The strategy almost identified 1 million persons in need of mine action support, however the evaluation took into account the Explosive Ordnance Risk Education (EORE) and Victim Assistance (VA) components of mine action.

In response to the EORE requirement, the Bureau of Mine Action offered training for new national implementing partners in partnership with UNMAS.

As a result, the sector provides risk education initiatives through national NGOs in Afar and Amhara.

Separately, the Halo Trust has completed the registration and accreditation procedure and is commencing operations in the Somali region, while Mines Advisory Group completed the first scoping expedition, which was favorably accepted.

Ethiopia made realistic initiatives to improve the overall performance of the country's mine action sector in the period ending March 2022. This must be supplemented with adequate resources to allow the country to become land mine-free.

During the reporting period the MoD Bureau of mine action unit undertook the following:

1. Road clearance activities were undertaken in four areas.
 - 1.1. Fifan Zone to Senge 109.80 km
 - 1.2. Fifan Zone to Gelahadish 130 km
 - 1.3. Kebri dehar to Dalo 90 km
 - 1.4. Koraye Zone to Dalo 120 km
2. Destruction of assorted Explosive Ordnance collected from iron melting factory (items deemed to be sold as scrap metal and reported by the iron melting factory).
 - 2.1. In total 146 kg worth of assorted explosive devices including 46 AT (TM 57), 62 AT (M15) and 508 UXOs as well as 896 fuses were destroyed.

To date, Ethiopia has a total of 29 Confirmed contaminated areas and 123 Suspected hazardous areas accounting in total for 726.68 square kilometers. As indicated during the 2019 extension request, a baseline survey to revise contamination data from the 2001–04 landmine impact survey is paramount.

Annex I: Map² of Areas known and suspected to contain anti-personnel mines as of 30April 2020

² Map depicting regions contaminated by Landmines and Explosive Remnants of War (ERW). Yellow marked regions are believed to be contaminated by EO. Small pockets of contamination are also recorded in Oromia region specifically East Hararige, E Shoa and Wolega areas.

Annex II: Areas known and suspected to contain anti-personnel mines as of 30April 2020
