Map 3- DMA EORE Activity

-Action # 28 – Oslo Action plan

The Republic of Iraq, through the Ministry of Planning, is adopting the inclusion of mine action for humanitarian purposes in all national plans and strategies

And humanitarian response plans to adopt explosive ordnance awareness programs in that plans, as well as including national mine action programs in the United Nations Cooperation Framework Program for Sustainable Development (UNSDCF) approved by the Iraqi government for the years (2020-2024) and in coordination with UNAMI , as well as inclusion of all awareness and gender balance in plan of the (DMA) at the level of field and operational performance.

-Action # 29– Oslo Action plan

Awareness programs is usually working according to data of contamination surveys , as well as analyzing data related to casualties and the number of victims in those locations, after that awareness campaigns will start according to EORE plan .

there are many awareness mechanisms to include direct and indirect educational means, in addition to programs for capacity building, developing skills , marking of mine fields and guiding citizens through various electronic and media.

-Action # 30 – Oslo Action Plan

Awareness mechanisms are compatible within the extension plan in the axes of intensifying sites EORE campaigns in the most contaminated areas , as well as the second axis is capacity building and rehabilitation for leaders of the local community, especially the teachers , within the framework of this educated people we passing safe messages to School students and pupils, who in turn will become awareness guides between their families, their circles and their various environments, also the efforts of the National Program to integrate awareness concepts into the curricula for all school stages

Action # 31 – Oslo Action Plan

As usually, when discovering new contaminated areas, awareness programs are designed to suit the nature of contamination (type of hazardous) also depend of the victims' data for those locations, taking into account the gender aspect in these programs , where the Mine Action Directorate (DMA) with the rest of the organizations and companies that working in EORE activity participate in

developing Various awareness activities, taking into consideration the importance of providing a safe environment, limiting injuries and reducing the number of victims, all through conducting effective awareness activities .

-Action # 32- Oslo Action Plan

According to our statistics on the awareness activities on the dangers of explosive ordnance indicate that the percentage of casualties and casualties in contaminated sites is limited to the lowest possible level, These intensive EORE campaigns for the teams of the Directorate of mine action (DMA) is the optimization of dealing with the dangers of explosive ordnance and the growth of safe behaviors in the affected communities, by this way enhances the mine action as well as cooperation of the local population with the clearance teams .

Action # 44- Oslo Action Plan

Regarding the action no.(44), it was formed a national team (National Forum) with international participation by UNMAS for dialogue among all stakeholders which it meets regularly (two meeting during the year) for the purpose of strengthening the national coordination on progress made, challenges and support the implementation of convention.

-Action # 47- Oslo Action Plan

Direct meetings were held with the diplomatic missions in Baghdad of the parties and donor countries in order to exploring a cooperation opportunities for international and regional to inform them about contamination size and type in Iraq , also the national achievements of the program and needs according to a official document that includes all available information .

as a result of These meetings there some cooperate is starting with some neighboring countries such as the Kingdom of Saudi Arabia, the United Arab Emirates and Romania to support Iraq implementation of APLC obligations, as well as preparations are underway to hold a second international meeting for donor countries during 2022 to propose some projects for international fund and exchange best practices and lessons.

the work is ongoing during this year by holding direct meetings with the embassies of state parties of convention in order to make partnerships to support the fulfillment of obligations. As well as completed the legal procedures on signing a memorandum of understanding with the Slovenian Government (state party of convention) to support the obligations implementation

As a result of Direct meetings were held with the diplomatic missions in Baghdad ,as well as according to Action #47 (OAP) . the donors funded a clearance project in Shatt al-Arab District (Basrah province) through UNMAS to clear minefield there. more details in below.

Case Study according to Action #47 (OAP)

DMA-RMAC south /UNMAS Shatt al-Arab demining project in Basra province*

Introduction:

Shatt Al-Arab district in Basra province is one of highly contaminated area by minefields and ERW in Iraq due to long war that happened between Iraq and Iran 1980-1988s , Iraq lose many agriculture areas , one of township called (Itba) has been completely destroyed and its people displaced so far ,which had a population of about 30,000 people in 1980s. The area of Shatt al-Arab was once covered by the largest date palm forest in the world. In the mid-1970s, the Basra included an estimated 13 million date palms, which at the time was an estimated of 15% of the world's palm trees. the Statistics talked that more than 9 million of the palms had been wiped out by combined factors of war and salinity.

Shatt Al-Arab district before and after the war

***NIBRAS AL TAMEEMI, RMAC south Director ,March 2022 nibras.rmac@gmail.com**

In 2013 DMA/RMAC south with all partners in Iraq mine action program conducted NTS for Basra province and according for this survey we recorded a huge contaminated areas as a mixed between suspected mine field and ERW areas in that time the statistics referred to more than 919km2 contaminated by mine fields and ERW in Shatt Al-Arab district .

Iraq government asked United Nations Mine Action Service (UNMAS) to support demining activities in this area and DMA/RMAC south sent all information ,reports and maps to UNMAS to study this area.

RMAC south through many meetings with UNMAS asked to survey and clear 15,000,000 sqm for minefields and battle areas which consider this area as one of RMAC south priorities according to humanitarian and economical requirements as well as the number of accidents in this area as the statistics talk that The number of mine accident victims in Shatt Alarab district is 2051 victim.

The (UNMAS) funded by the European Union to support Iraq government efforts to clear remnants of war in the form of anti-personnel mines, anti-vehicle mines and other unexploded objects by contract with AL KHEBRA ALFANYA Company (AKAF) one of accredited companies by Ministry of Environment to pave the way for much needed agricultural activities and building of houses in this area .

Task

According to APMBC and Oslo Action Plan to do more efforts to update the information to release area or change status of hazard ,DMA/RMAC south issued a task order (**Task ID SI-AL KHEBBRA -06**) to AKAF demining teams to clear 2,414,572 m2 as first stage for this project .

Since the commencement of clearance in August 2021 AKAF achieved about 20% for this task according to March 2022, hundreds of anti-personnel landmines and anti-vehicle mines have been cleared as well as 4,642 other items of explosive hazards including mortar rounds and other types of ammunition that was fired during the war but failed to function .

The clearance of these explosive hazards is undertaken along the recently constructed irrigation canal. Mines are detected using metal detectors, operated by trained brave Iraqi women and men, working, often under a scorching sun, and sometimes in temperatures reaching over 40 degrees Centigrade or even higher. The crust of the ground often must be softened with water to be able to investigate signals given by the metal detectors. Mines are also detected, detonated or destroyed with large mechanical systems purpose built for clearance of landmines as they chew through the surface and down to a depth of 50 cm of the contaminated areas.

Gender equality

One of success stories ,UNMAS trained first national women team to work in operation section together with men teams .DMA/ RMAC south so happy for this team because Iraq would like to fulfil all obligations that related with Osla action plan which consider the gender equality one of their main objectives .

Therefore, gender mainstreaming in Iraq mine action program will continuous process of assessing the differentiated implications for women, and men and taking into account their specific needs in all activities, so that mine action dividends benefit them in the diversity of their circumstances and statuses equally .

DMA / RMAC south will continue its efforts to encourage all organizations to create equally opportunities for women and men to build an ideal national program .

Demining women team through training

Next steps:

This success experiment and high coordination and cooperation between DMA/RMAC south and UNMAS urge us to continue the demining efforts in this great project to implement all future plans and complete this mission.

The huge contamination remains in Shatt al-Arab and will continue to do so for many years to come unless significant funding for clearance is provided by the international community and its donors as well as the Iraqi government to support its efforts to achieve this mission.

Minister of Environment , UNMAS director , DMA director ,the Deputy Special Representative of the United Nations Secretary-General (#DSRSG) ,and the Ambassador of the Kingdoms of the Netherlands, Denmark in Iraq in addition to senior representatives ,many visits to clearance operations site .
