**Form I Measures to provide warning to the population**

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

- i) The measures taken to provide an immediate and effective warning to the population in relation to all areas identified under paragraph 2 of Article 5."

*Remark:* In accordance with Article 5, para.2: "Each State Party shall make every effort to identify all areas under its jurisdiction or control in which anti-personnel mines are known or suspected to be emplaced and shall ensure as soon as possible that all anti-personnel mines in mined areas under its jurisdiction or control are perimeter-marked, monitored and protected by fencing or other means, to ensure the effective exclusion of civilians, until all anti-personnel mines contained therein have been destroyed. The marking shall at least be to the standards set out in the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices, as amended on 3 May 1996, annexed to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects".

State [Party]:

**REPUBLIC OF SERBIA**

reporting for time period from

**1<sup>st</sup> January 2013**

to

**31<sup>st</sup> December 2013**

(Narrative:)

The Republic of Serbia carries out a number of efforts to ensure that civilians are not injured by mines and other UXO including through the following methods:

- **Marking:** The whole area suspected to be contaminated with various types of mines has been visibly marked with "STOP UXO" signs in Serbian and Albanian languages, given that it is an area with multiethnic population. Areas contaminated with cluster munitions, air bombs – rockets and other UXO, have been also marked correspondingly. Marking is conducted by the Serbian Mine Action Centre (SMAC) and within its regular activities the SMAC periodically visits contaminated locations making sure that these signs remain emplaced.
- **Risk Education:** Locals are being informed about demining activities through a number of means and media. Mine risk education was conducted in schools and local communities. In accordance with the IMAS, during demining operations, evacuation of people from houses, shops and other communal locations located within the zone of demining works is conducted. Suspension of traffic on the roads within the zone of demining operations is conducted, too. In relation to that, the SMAC coordinates activities with local authorities, school authorities and other relevant state bodies, local media means in communities where demining operations are conducted.

**Form J**

**Other relevant matters**

Remark: States Parties may use this form to report voluntarily on other relevant matters, including matters pertaining to compliance and implementation not covered by the formal reporting requirements contained in Article 7. States Parties are encouraged to use this form to report on activities undertaken with respect to Article 6, and in particular to report on assistance provided for the care and rehabilitation, and social and economic reintegration, of mine victims.
