

The Republic of South Sudan

Transparency /Article 7 Annual Report September 2012- April 2013

CONVENTION ON THE PROHIBITION OF THE USE, STOCKPILING, PRODUCTION AND TRANSFER OF ANTI-PERSONNEL MINES AND ON THEIR DESTRUCTION

**Contact Person Mr. Jurkuch Barach Jurkuch South Sudan National Mine Action
Authority,+2119264949338**

Form A National implementation measures

The republic of South Sudan has fully acknowledged the Convention and article 9 but has not yet taken any legal measure on this article at the moment.

Form B Stockpiled anti-personnel mines

- Sudan signed Ottawa Mine Ban Treaty in Dec. 1997 and ratified it in October 2003 and became the state party to this convention.
- SPLA/M reaffirmed their commitment to the Deed of Commitment of the Geneva Call in August 2003
- Government of South Sudan, destroyed 6000 anti-personnel mines to meet its obligations under the Ottawa Mine Ban Convention
- The Republic of South Sudan acceded the Anti Personnel Mine Ban Convention after its independence on November 2011 and became a state party .Since march 2008 South Sudan does not have Anti Personnel Mine all identified or discovered Anti Personnel Mine stockpiles were destroyed by the competent authority.

Stockpile Destruction March 2008 Juba South Sudan

Anti personnel Mine found in South Sudan

Form C Location of mined areas

As of September 2012-April 2013 there are 851 known Hazards closed and 117 Anti personnel Mine Hazards closed in all the Ten States of South Sudan from the level Boma ,Payam up to the county .
The detail can be seen in Annexes for further reference.

Map showing Location of Known Anti Personnel Hazards as of April 2013.

Map Showing Locations of Known Hazards as of April 2013

Form D Anti Personnel Mines retained or transferred

After the destruction of **6000** anti-personnel mines in **March 2008** to meet the obligations under the Ottawa Mine Ban Convention South Sudan has never retained any anti personnel mines for purpose of training in research and development.

If need be in future South Sudan will report on the types and quantities to be retained and obtain it from the sources available .

Details on on its intended purpose retained and the authority responsible will be will be as agreed by the convention.

Form E Status of programs for conversion or de-commissioning of APM production facilities

The Republic of South Sudan does not have amenities for the production of the anti-personnel mine and has no intension to produce them in future.

Form F Status of programs for destruction of APMs

South Sudan has two ways of destroying the AP mines, according to the National Technical Standard Guideline that is by the Mechanical Operations they are crushed by the machine at the site, and with Manual and Mine Dog Detection they are destroyed at Insitu (DIS) that is the same place /Location where its found. Its done by the implementing partner on ground always but recorded for record keeping.

In addition all the identified and discovered stockpile of Anti personnel mines are handed over to competent authorities and destroyed using the relevant procedures.

Form G APMs destroyed after entry into force

Article 4

The Republic of South Sudan entered the treaty as a new State party when they had no stockpile of APMs in place to destroy ,its only what is discover during clearance that is destroyed as explained above.

Article 5

Summary of progress of clearance in South Sudan from **September 2012 –April 2013** are as follows in clearance Area Released **35,714,849 square meters** , Mine Areas cleared **3,924,319** , Battle Area Clearance **2,538,503** , Anti Tank **983** ,Anti Personnel **128**, Unexploded Ordinance of War **16,609** ,Small Arm Ammunition **144,723** in all the ten States.

Form H Technical characteristics of each type produced/owned or possessed

South Sudan does not produced/**owned or possessed any type of Anti –Personnel Mine** .

Form I Measures to provide warning to the population

All suspected Hazards in South Sudan are surveyed through Non –Technical survey and Technical survey and either cancelled or prioritised for clearance .

All contaminated areas are recorded in the Information Management System and mark with sign that are internationally recognised.

Mine Risk Education is being provided to the communities and population at Risk in all the ten states of South Sudan .we have international NGOs and National NGOs facilitating Mine Risk Education in South Sudan. As **of September 2012 – April 2013, 125,282** people receive Mine Risk Education in the Ten States of South Sudan. **See the Table 1** below and **Table 2** show the cumulative figure from the beginning of Mine Risk Education activities in South Sudan

Form J Other relevant matters

.

From **September 2012 up to April 2013** in South Sudan we have recorded new cases of **30 victims** of Anti Personnel Mine from the ten States of South and **18 injured** and survived and **12 died on spot** .

It has to be noted that the number of accident has reduced in South Sudan because of the Mine Risk Education Activities and marking sign of all surveyed suspected and Mine field.

The number of Landmine victim in South Sudan are **4734 both killed and injured see table 2 below for details**.

South Sudan National Mine Action Authority ,Ministry of Gender ,Child and Social Welfare ,Ministry of Health Civil Society groups, ICRC ,UNMAS ,Victim Assistance disability organisation work together to deliver Medical, rehabilitation and Social Economic services to all mine and other people with disability .There is a coordination forum that is Chaired by the Director General Victim Assistance Ministry of Gender and co-chair by Director Victim Assistance National Mine Action Authority. All implementing partners report on their work progress on victim assistance projects every month in Juba .

South Sudan plan to ratify Convention of person with disability by 2013 and then develop a national disability policy to protect the rights of all persons with disability .
