

**CONVENTION ON THE PROHIBITION OF THE USE, STOCKPILING, PRODUCTION AND
TRANSFER OF
ANTI-PERSONNEL MINES AND ON THEIR DESTRUCTION**

INFORMATION PROVIDED IN ACCORDANCE WITH ARTICLE 7, PARAGRAPH 1

FEDERAL REPUBLIC OF SOMALIA

16 APRIL 2012 – 30 MARCH 2013

30 MARCH 2013

A. National implementation measures

Somalia is aware of its obligations under Article 9 of the Convention to take all appropriate legal, administrative and other measures, including the imposition of penal sanctions, to prevent and suppress any activity prohibited to Somalia under this Convention undertaken by persons or on territory under its jurisdiction or control. Somalia has not yet taken any such measures but is committed to doing so in the future and to reporting on these measures.

B. Stockpiled anti-personnel mines

Although Somalia does not produce landmines, large stocks are in the hands of former militias and private individuals. There have been reports of landmines being used in the Lower Juba and Shabelle regions to mining major roads between the federal capital Mogadishu and cities like Baidoa and Kisimayo and for the control of towns and the port cities of Marka, Barava and Kismayo. Officials have acknowledged the existence of a stockpile of antipersonnel mines, but have not provided information on numbers or types.

It is confirmed that Danish Demining Group (DDG) has assisted Somaliland in the destruction ofⁱ:

2001: 5135 AP mines destroyed

2002: 2382 AP mines destroyed

In 2011, Puntland has reported the following mines listed as stockpile destruction: Mine Advisory Group (MAG) supervised the Police EOD Team during the destruction period in 2008, 2009 and 2011.

Type	Quantity	Origin	Location of destruction sites	Date of destruction	Implementing agency, method of destruction and standards applied
PMP-71	48	Germany	Garowe CDS	24/07/2008	Police EOD team under supervision of MAG; Electrical method; IMAS standard
P2 MK2	72 ⁱⁱ	Pakistan	Garowe CDS	04/04/2009	Police EOD team under supervision of MAG; Electrical method; IMAS standard
PP Mi-SR	14 ⁱⁱⁱ	Czechoslovakia	Garowe CDS	05/02/2011	Police EOD team under supervision of MAG; Electrical method; IMAS standard
P4 MK1	364 ^{iv}	Pakistan	Garowe CDS	05/02/2011	Police EOD team under supervision of MAG; Electrical method; IMAS standard

Image from Puntland Mine Action Centre stockpile destruction that took place in 2011.

Stockpiled anti-personnel mines remaining to be destroyed:

Somalia is aware of its obligations to report on its stockpiled mines and is currently putting forth efforts to verify if in fact it holds anti-personnel mines in its stockpiles. It looks forward to reporting on its findings.

C. Areas known or suspected to contain anti-personnel mines

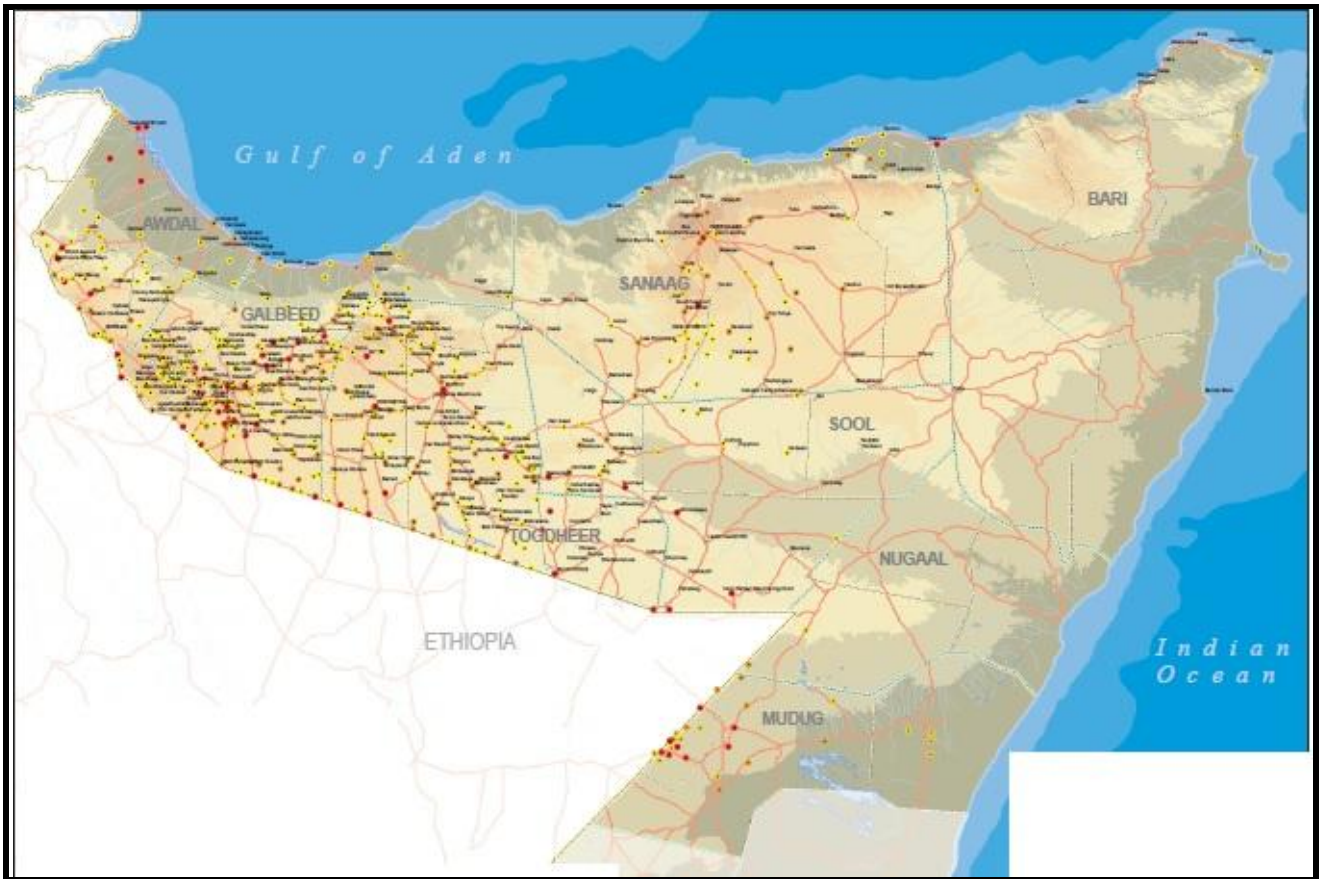

As of 28 March 2013, the landmine contamination in the Southern part of the country isn't quantified; however, there were performed different Landmine Impact Surveys LIS Phase I, LIS Phase II and LIS Phase III respectively in Somaliland, Puntland and Sool and Sanaag Regions.

LIS Phase I was implemented in Somaliland in 2002-2003 in the regions: Awdal, Hargeisa, Togdheer and Saaxil. A total of 356 communities were found to be effected 45 were highly impacted, 102 were medium impacted and 210 were low impacted with a total of 772 SHAs.

LIS Phase II was implemented in 2005 in Puntland in the regions: Bari, Nugaal and North of Mudug. A total of 35 communities were found to be effected, 9 were highly impacted, 9 were medium impacted and 17 were low impacted with a total of 47 SHAs.

The two regions Sool and Sanaag were surveyed LIS Phase III in 2006-2007. A total of 90 communities were found to be effected 11 were highly impacted 24 were medium impacted and 55 were low impacted with a total of 210 SHAs.

Map of LIS Phases I, II, III^v

As of March 30, 2013, there remained in Somalia 333 mined areas^{vi} from LIS surveys (i.e. LIS I, II, III) known to contain anti-personnel mines amounting to undefined square metres and undefined areas suspected to contain anti-personnel mines amounting to undefined square metres. The South Central part of the country isn't included in the above affected and indicated areas.

So far, data in IMSMA is not completely updated. Only in Somaliland has been completed mine clearance tasks from HALO Trust and DDG. HALO Trust produced a verification report on LIS I and III identifying 546 mined areas as confirmed mine free (discredited). Somaliland Mine Action Centre is of different opinion (see table at page 31). The remained mined areas in the surveyed areas of Somalia (i.e. Somaliland, Puntland, Sool and Sanag) are areas known or suspected to contain anti-personnel mines amounting to undefined (at this moment) square metres.

With the exclusion of South and Central Somalia regions (Banadir, Lower Shabelle, Middle Shabelle, Hiraan, Galgaduud, Mudug, Bay, Bakool, Gedo, Lower Juba and Middle Juba) where ERW contamination and landmines presence, specially border minefields are extensive, a complete list of the location of all mined areas that contain or are suspected to contain, anti-personnel mines under Somalia's jurisdiction is contained in Annex I to this report with threat maps in Annex II. The data has been extracted from IMSMA at the UNMAS/UNSOMA office in Mogadishu.

D. Anti-personnel mines retained or transferred for permitted purposes

Somalia does not retain any anti-personnel mines for purposes permitted under Article 3 of the Convention. Should Somalia in the future decide to retain mines for permitted purposes, it will report, as required, on

the numbers and types of mines retained and the entities authorized to retain and use these mines for permitted purposes. Somalia will also annually report, on a voluntary basis, on the plans for and actual use of anti-personnel mines retained, explain any increase or decrease in the number of retained anti-personnel mines.

E. The status of programmes for the conversion or decommissioning of anti-personnel mine production facilities.

There are no and never have been anti-personnel mine production facilities in Somalia.

F. The status of programmes for complying with Somalia's obligations under Article 4 and Article 5 of the Convention

i. Article 4

Somalia does not possess stockpiled anti-personnel mines, other than the quantity of unknown mines privately owned and in the hands of the opposition reported in Section B of this report. However, it is possible that additional previously unknown stocks of anti-personnel mines could be discovered in former militia hands and locations.

Should previously unknown stockpiles be discovered, Somalia will report such discoveries in accordance with its obligations under Article 7, and in addition take advantage of other informal means to share such information as soon as possible and destroy these anti-personnel mines as a matter of urgent priority. Somalia is planning to include in its future nationwide Mine Action Strategy the objective that all identified and discovered stockpiles of anti-personnel mines are handed over to competent authorities and destroyed.

ii. Article 5

In order to address the problems caused by anti-personnel mines and other explosive remnants of war, the Somalia Federal Government (during the transitional period) formed the Somalia National Mine Action Authority headed by a national director. Historically, the country was divided into four mine action; however, the first two to be established were respectively Somaliland Mine Action Centre and Puntland Mine Action Centre. The National Mine Action Authority (SNMAA) was established in December 2011. Landmine Impact Surveys (LIS I, II, III) were put forth in Somaliland and Puntland to identify mined areas. In the Southern part of the country no survey has taken place yet.

The United Nations (UNDP and UNMAS since 2007) has assisted Somalia with clearance of mines since the collapse of the military regime starting from the north and with the support of international NGOs (i.e. MAG, HALO, DDG, HI, UOS) and commercial contractors (i.e. TDI). As of the 30 March 2013, HALO, DDG, MAG, UOS and TDI are operational in Somalia.

G. Quantitative progress in the effort to comply with Somalia's obligations under Article 4 and Article 5 of the Convention

i. Article 4: Quantitative progress in implementation during the period May 2012-March 2013

Since entry into force, no stockpiled anti-personnel mines have been destroyed.

ii. Article 5: Quantitative progress in implementation during the period May 2012-March 2013

Between entry into force of the Convention for Somalia on 16 May 2012 and 30 March 2013, Somalia has ensured the release of 29,404,803 square metres of land which was known or suspected to contain anti-personnel mines, with 295 anti-personnel mines, 57 anti-tank mines, 3,469 pieces of small arms ammunition and 51,093 UXO destroyed.

Summary of area addressed and explosive items destroyed in Somalia in 2012

South Central 2011-2012

South Central	Area addressed by activity (square meters)					Devices found and destroyed				
	Mine clearance	Battle area clearance	Area discredited	Road Opened	New DA Reported	AP mines	AT mines	AU	SSA	UXO
Banadir	0	0	0	0	0	8	2	2	2303	9773
Bay	0	0	0	0	0	1	0	0	561	267
Galgaduud	0	0	0	0	0	5	2	0	70	2508
Gedo	0	0	0	0	0	1	0	0	259	81
Lower Shabelle	0	0	0	0	0	1	0	0	271	7392
Middle Shabelle	0	0	0	0	0	0	0	0	0	0
Mudug	0	0	0	0	0	1	0	0	3	76
Hiraan	0	0	0	0	0	0	0	0	0	0
Middle Juba	0	0	0	0	0	0	0	0	0	0
Lower Juba	0	0	0	0	0	0	0	0	0	0
Total	0	0	0	0	0	17	4	2	3,467	20,097

As stated in point the Southern part of the country wasn't surveyed because of the continuous confrontation between the government forces with AMISOM and Al-Shabaab; however, the recently liberated areas are subject to planning for stabilization programs and emergency humanitarian demining. The case of the planned IDPs relocation within the federal capital Mogadishu in a former military zone is an example of intervention between settlement planning and humanitarian demining. Also TDI under UNMAS/UNOPS contract is working along the border with Ethiopia with a base in Dolow and Hiraan. The Southern part of Somalia once fully recovered needs a careful assessment and survey to estimate the extent of contamination of mines and ERW.

Puntland 2012^{vii}

Puntland	Area addressed by activity (square meters)					Devices found and destroyed		
	Mine clearance	Battle area clearance	Area discredited	Road opened	New DA Reported	AP mines	AT mines	UXO
	0	12,200	0	0	143	156	0	19,297
Total	0	12,200	0	0	143	156	0	19,297

The above data from Puntland Mine Action Centre Annual Report 2011 is the combined efforts from Puntland Police EOD Team, DDG and MAG.

Somaliland 2012^{viiiix}

Somaliland	Area addressed by activity (square meters)					Devices found and destroyed		
	Mine clearance	Battle area clearance	Area discredited	Road Opened	New DA Reported	AP mines	AT mines	UXO
	1,847,146	2,609,436	23,872,684	1,063,337	0	122	53	11,699
Total	1,847,146	2,609,436	23,872,684	1,063,337	0	122	53	11,699

The above data from Somalia Mine Action Centre Annual Report 2011 and Somaliland Police Commission, Police EOD Unit Annual Report 2012 is the combined efforts from Somaliland Police EOD Team, HALO Trust, DDG and SMAC.

H. Technical characteristics of each type of anti-personnel mine produced, owned or possessed

Somalia has destroyed the following types of emplaced anti-personnel mines (see list below). As these are mines that have been reported on and destroyed by many other States Parties, technical characteristics of these mines are widely available in the public domain. The majority of mines originate from the Former Soviet Union (FSU), Eastern and Western European countries, USA and Pakistan.

Types of mines found and destroyed in Somalia	
AP Blast Type Mines	P4
	M14
	P4Mk2
	PMN
	Type 72
	NR409
	PMD-6M
	PRB-M35
	VS-50
AP Omni - Directionnel Fragmentation Type Mines	POMZ-2 and POMZ-2M
AP Omni - Directional Bounding Fragmentation Type Mines	PP-Mi-Sr
	M16A1
	Type 69
AP Directionnel Fragmentation Type Mines	M18A1 "Claymore"
	AV Blast Mines
	M7A2
AT Blast Mines	TM-46
	PRB-M3
	TM-57
	P2 Mk3
	M15
	M19
	Pt-Mi-Ba-3

I. Measures to warn the population in relation to mined areas

An intended outcome of the implementation of existing plans is that all groups at risk are correctly informed about the threat of landmines and other explosive remnants of war. A total of 298,092 individuals have been reached between entry-into-force on 2011- 2012. The following organizations have been involved in the delivery of mine risk education: Danish Demining Group, Mines Advisory Group, HALO Trust, Handicap International, UOS, Police EOD Team and SOHDO.

Individuals reached through mine risk education, between 2001 - 2012 in part of South Central regions

Southern Somalia	Girls	Boys	Women	Men	Total
Banadir	115841	126391	73103	36677	352012
Bay	4171	5425	5687	816	16099
Galgaduud	3089	3821	3606	3439	13955
Gedo	1635	2058	675	456	4824
Lower Shabelle	2848	3449	1260	1756	9313
Middle Shabelle	35	45	45	22	147
Mudug	2624	2897	2012	717	8250
Total	130243	144086	86388	43883	404600

In 2011 SMAC liaison officers visited 205 communities and 274 Schools and reached 48,546 people including (18232 boys, 18645 girls, 7024 Men and 4645 women). The Police EOD has conducted MRE 534 Communities and 387 schools; they gave the MRE messages to 41,237 persons including 17,557 boys, 13175 girls, 5,936 Men and 4,569 Women.

During 2011 HALO Trust reached 44,689 people including (17,403 boys, 13,503 girls, 7489 Men and 6294 Women). In 2011 DDG teams visited 95 communities and 6 schools reached 22,330 people including (7,721 boys, 4004 girls, 6871 Men and 3734 Women).

J. Other matters

i. Landmine casualties

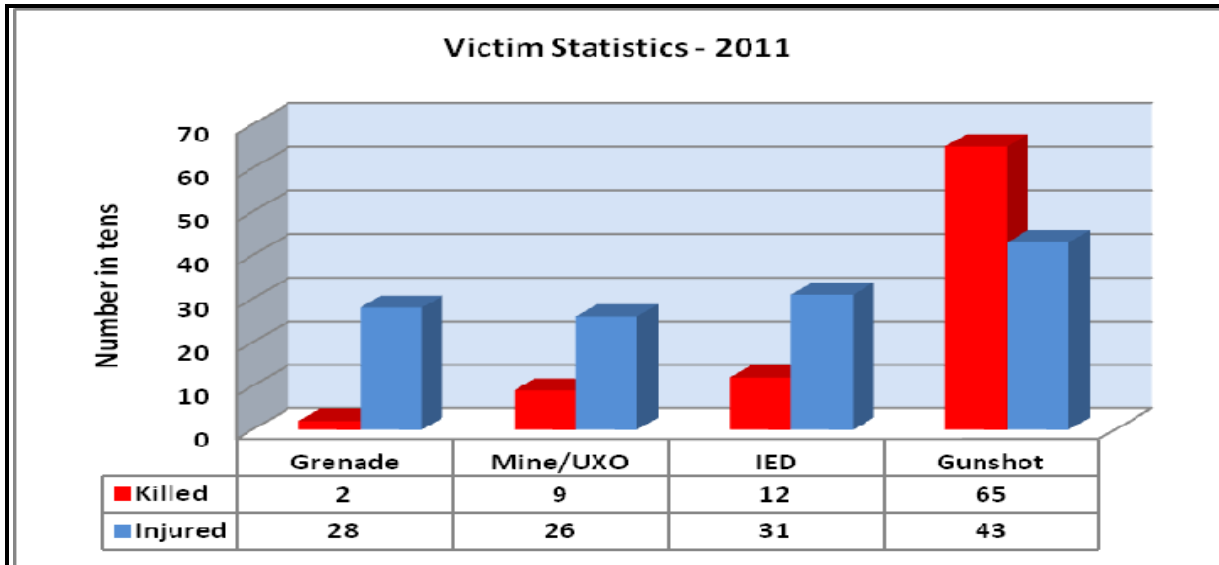

During the period 2011-2012, South central regions recorded 159 casualties of landmines and other explosive remnants of war, including deaths and injured

Victim Statistics: South Central regions in 2011-2012

South Central	Girls	Boys	Women	Men	Total
Bakool	0	4	0	2	6
Banadir	14	25	12	37	88
Bay	4	12	3	9	28
Galgaduud	2	5	2	6	15
Hiraan	0	4	1	0	5
Lower Shabelle	0	5	0	3	8
Middle Shabelle	0	9	0	0	9
Total	20	64	18	57	159

Victim Statistics: Jan-Dec 2011 in Puntland

Activities	PMAC	MAG	DDG	HI	Total
Mine/UXO Accident	12	2	-	-	14
Mine/UXO Victim	23	12	-	-	35
IED Incident	26	3	-	-	29
IED Victim	43	-	-	-	43

In 2011, SMAC recorded 18 landmine/UXO accidents including 23 landmines/UXO casualties 4 people were killed and 19 injured in the six regions; 6 casualties were female and 17 male, 11 were Adult and 12 were children. Devices that caused the accidents were as follows; 12 UXO, 3 antipersonnel mines, and 1 antitank mines.

Victim Statistics: Jan-Dec 2011 in Somaliland

Regions	Human Casualties				Gender / Age Mine / UXO							
	Accident	Victim	Killed	Injured	Male	Female	Adult	Child	UXO	AP	AT	Unknown
Hargeisa	8	8	2	6	8	0	4	4	4	2	0	1
Togdheer	4	6	0	6	4	2	2	4	4	0	0	0
Awdal	5	8	1	7	4	4	4	4	4	1	0	0
Sanaag	1	1	1	0	1	0	1	0	0	0	1	0
Sahil	0	0	0	0	0	0	0	0	0	0	0	0
Sool	0	0	0	0	0	0	0	0	0	0	0	0
Total	18	23	4	19	17	6	11	12	12	3	1	1

Victim Statistics: Jan-Dec 2011 in Sool and Sanaag

Regions	Human Casualties				Gender / Age Mine / UXO							
	Accident	Victim	Killed	Injured	Male	Female	Adult	Child	Uxo	AP	AT	Unknown
Sanaag	1	1	1	0	1	0	1	0	0	0	1	0
Sool	0	0	0	0	0	0	0	0	0	0	0	0
Total	1	1	1	0	1	0	1	0	0	0	1	0

ii. Victim Assistance

Somalia has still to draft its National Strategy Plan in the coming years and to include policies on Victim Assistance. At present, landmine accident survivors receive minimal of assistance.

As Somalia is working on its National Policy on Human Rights, it will highlight in its future Mine Action Strategy document that all landmine and other ERW victims have equal and full access to adequate, affordable, gender and age-sensitive emergency and continued medical care; physical rehabilitation; psychosocial support; social and economic inclusion services and legal assistance on a basis equal with others.

a. Data with respect to landmine survivors and persons with disabilities

Baseline

At present, no comprehensive baseline information exists regarding the prevalence of disabilities across Somalia. However the Somali National Mine Action Authority with the support of UNMAS/UNSOMA and in collaboration with International demining organization, is planning to do a research of knowledge, attitude and practice (KAP) disability survey in mainly affected areas including the survivors of the wars at different period of the country's history.

The Information Management System for Mine Action (IMSMA) is currently used to store and manage information on landmine and other ERW victims and accidents, although the Ministry of Social Development is the lead authority responsible for compiling, storing and managing information on disability. At present, the Ministry of Social Development does not have a disability information system.

Objectives

the National Mine Action Authority together with the existing Mine Action Centers will continue to collect casualty data disaggregated by sex and age to provide reliable, systematic and comprehensive information on persons with disabilities, including landmine and other ERW victims. By 2014, Somalia will use information from the disability information system as a basis for planning and share information with stakeholders.

b. The legal and policy framework on landmine survivors and persons with disabilities

Baseline

The rights of persons with disabilities are guaranteed through the Interim Constitution of Somali Federal Republic.

Objectives

Somalia intends to accede to the Convention on the Rights of Persons with Disabilities (CRPD) by 2015. In addition, the National Mine Action Authority will work with national organizations and civil society that Somalia will enact national legislation that protects the rights of all landmine and other ERW survivors and other persons with disabilities.

c. Access to services for landmine and ERW survivors

Baseline

There are no organizations known to be providing rehabilitation services for landmine survivors in S Somalia except in Somaliland where the Red Crescent Society (SRCS) runs a lower limb prosthetic and component manufacturing center in Hargeisa. Psychological support facilities and basic education for children with visual and hearing impairments are very limited as are professional training services.

Objective

Somalia will enhance access to rehabilitation, psycho-social (including peer support) and socio-economic inclusion services for all landmine and ERW victims, as well as women, girls, boys and men with disabilities on a basis equal with others.

d. National coordination of disability action and rights of landmine survivors

Baseline

The Ministry of Social Development of the Federal Government of Somalia is the leading authority for disability including victim assistance in Somalia. At present, there is no legislation produced to take into account needs and rights of landmine survivors.

Objectives

Somalia will develop a national disability policy and establish an inter- ministerial/inter-sectoral coordination mechanism for the development, implementation, monitoring and evaluation of relevant national policies, plans and legal frameworks.

The total impacted communities listed in IMSMA data added with the LIS III data in Sool and Sanaag regions result in 447 which is a benchmark for impacted communities with 982 total of mined areas. As noted, part of this has been dealt with in Somaliland by HALO Trust and DDG. Also, the verification on LIS I from SMAC and Halo Trust led to the following table^x

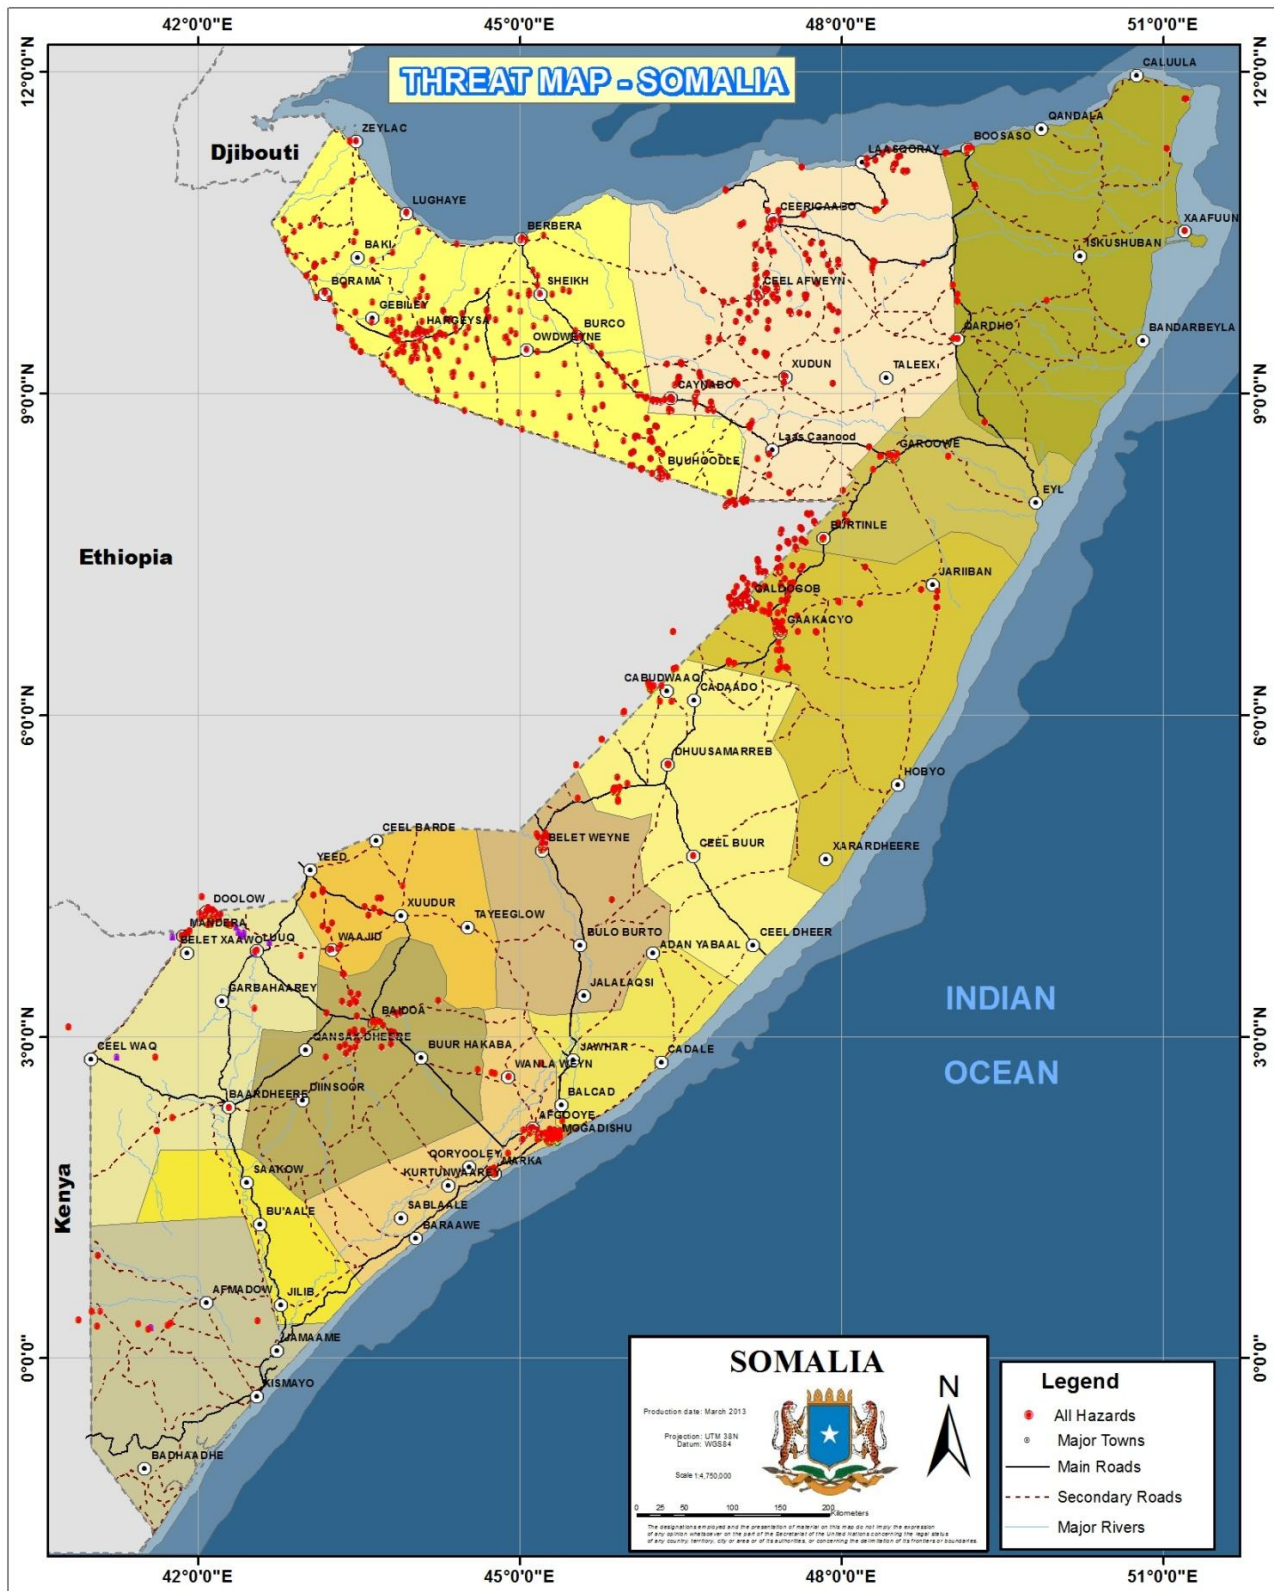

SMAC Verification on LIS Phase I.

Region	Discredited areas	Contaminated areas	Mine free areas
Waqooyi Gabeed (Hargeisa)	162	20	142
Togdheer	101	16	85
Sahil	26	3	23
Awdal	51	2	49
Total	340	41	299

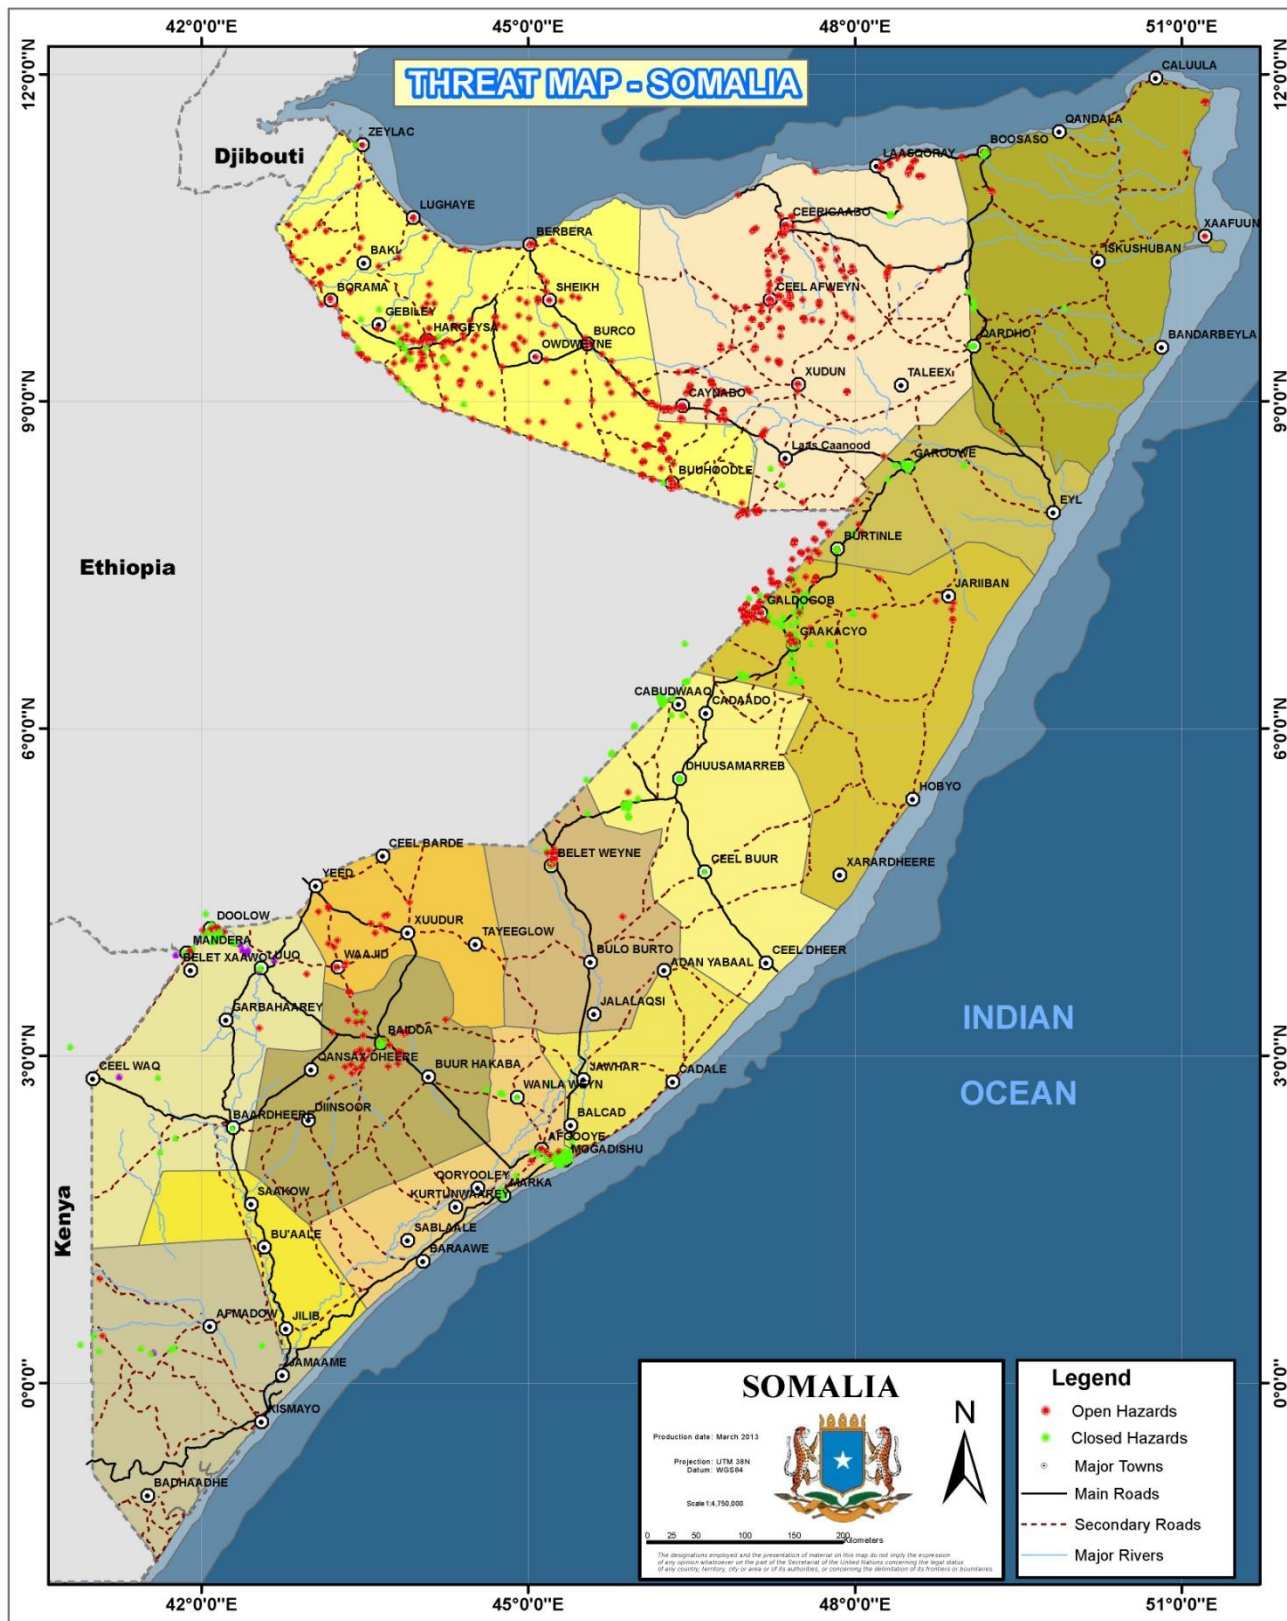

Considering the above table, the remained mined areas from the LIS Phases I, II, III are 333 mined areas with the exclusion of South Central Somalia. Somalia is committed to submit the full data once IMSMA is updated at the various entry level in the country.

Annex II: Areas known or suspected to contain anti-personnel mines which have been addressed during the reporting period

Map of Somalia showing the contamination of the country: Areas cleared and still open to clearance. The Southern part of the country isn't surveyed fully with respect to Somaliland (LIS I), Puntland (LIS II) and Sool and Sanaag (LIS III).

Map of Somalia showing the contamination of the country: Areas cleared and still open to clearance. The Southern part of the country isn't surveyed fully with respect to Somaliland (LIS I), Puntland (LIS II) and Sool and Sanaag (LIS III).
