Fourteenth Meeting of the States Parties

30 November – 4 December 2015 | Geneva

MONDAY 30 NOVEMBER 2015

- 12:00 **Opening of the exhibition “Recovering the past”, followed by a cocktail.** Hosted by the Presidency of the 14th Meeting of the States Parties. Location: in front of room XVIII.
- 13:00 **Cambodia's landmine contamination – strategy, completion and international cooperation and assistance.** Hosted by the Cambodia Mine Action and Victim Assistance Authority (CMAA) and UNDP Cambodia. Room XXV. Contact: chanrotha@cmaa.gov.kh. His Excellency, Prum Sophakmonkol, Secretary General of the CMAA, will present the current situation and the future plans for the mine action sector in Cambodia as the country moves into the next stage of its mine action programming. The results of the Baseline Survey and Land Release results achieved since 2012 have provided a strong indication on the extent, scope and nature of the remaining landmine and ERW problem. Coordination and communication between international and national operators has assisted the CMAA to develop concrete and evidence-based plans and identify key actions, tools and resources required to achieve mine free status. The presentation will provide information on land release in Cambodia, including the results from the 2015 Land Reclamation Non-Technical Survey + Baseline Survey project funded by Clearing for Results Phase II.
- 13:00 **Landmine Monitor 2015 Briefing.** Hosted by the International Campaign to Ban Landmines (ICBL). Room XXIV. Contact: jeff@icblcmc.org. Leading civil society experts will share the major findings of the Landmine Monitor 2015, detailing global and national developments in landmine ban policy, survey and clearance of landmines and explosive remnants of war, support for mine action, casualties and victim assistance.
- 13:00 **Nearing Completion – the Case of the Democratic Republic of the Congo (DRC).** Hosted by Norwegian People's Aid (NPA), the Congolese Centre for Mine Action (CCLAM) and UNMAS. Room XXII. Contact: pehrl@npaid.org. The CCLAM, NPA and UNMAS will present the progress made in DRC and an outlook. The National Landmine Contamination Survey undertaken in DRC in 2013 resulted in 130 Suspected Hazardous Areas (SHA) recorded. Now, 18 months later there are only 85 SHA remaining. The deadline for DRC to meet its obligation under Article 5 of the Anti-Personnel Mine Ban Convention is 2021. At current rates, DRC should be able to meet these obligations already by 2017 with continued and increased donor support.

TUESDAY 1 DECEMBER 2015

- 13:00 **Technological innovations to help mine action.** Hosted by Belgium (Royal Military Academy). Room XXV. Contact: yvan.baudoin@skynet.be, vinciane.lacroix@rma.ac.be. The European Commission (EC) always supports efforts towards a mine-free world considering landmines and explosive remnants of war (ERW) within a broader context of humanitarian assistance as well as long-term and sustainable socio-economic development programs. The EC decided to fund a large project, called TIRAMISU, including twenty-five European Organizations, NGO, Universities, SME and Industrial Partners. This project (2012-2015) aims

Anti-Personnel Mine Ban Convention Implementation Support Unit

GICHD | Chemin Eugène-Rigot 2C | P.O. Box 1300 | 1211 Geneva 1 | Switzerland | t. + 41 (0)22 730 93 60
f. + 41 (0)22 730 93 62 | isu@apminebanconvention.org | www.apminebanconvention.org

at providing the foundation for a global and comprehensive toolbox that will cover the main Mine Action activities, from the survey of large areas to the actual disposal of explosive hazards, including Mine Risk Education, Training and Management tools. The project lead to validated and promising results with the support of experts from the United Nations Services and a continuous cooperation with the Management System for Mine Action developed and maintained by UNMAS and the GICHD. What do you expect from new technologies? You are cordially invited to the presentation of the Final Results of the TIRAMISU Project and interactive discussion answering this question.

- 13:00 **Exceptional Opportunities: Equal Basis 2015 Report Launch.** Hosted by the International Campaign to Ban landmines (ICBL). Room XXIV. Contact: loren@icblcmc.org. An update on progress and challenges in comprehensive rehabilitation, inclusive education and participation of survivors and other persons with disabilities in conflict, post-conflict and challenging environments.

WEDNESDAY 2 DECEMBER 2015

- 09:00 **Clearing the mines: overcoming challenges in Article 5 implementation.** Hosted by: Norwegian People's Aid (NPA). Room: XXIV. Contact: atlek@npaid.org. This event will look at the remaining threat from anti-personnel mine contamination around the world, and assess what progress States have made in addressing the problem and implementing Article 5 of the Convention.
- 13:00 **Lessons learnt from a 'Mine-Free' Mozambique: Article 5 Compliance.** Hosted by the Permanent Mission of Mozambique to the United Nations in Geneva. Room XXIV. Contact: hansrisser@gmail.com. In 2015, Mozambique completed demining of the last known minefield and declared its compliance with Article 5 of the Anti-Personnel Mine Ban Convention. This side event will bring together some of the international and national partners that made this all possible to discuss how compliance was achieved, the impact of Article 5 compliance and the next steps after completion. Moderated by the Head of the Mozambican Delegation to the 14MSP, speakers include representatives of Mozambique, ISU, ICBL, UNDP, APOPO, HALO Trust, Handicap International and NPA.
- 13:00 **Launch of the "Child Focused Victim Assistance Guidance".** Hosted by UNICEF and Costa Rica. Room XXV. Description and contact to follow.

THURSDAY 3 DECEMBER 2015

- 13:00 **Mine clearance in the midst of Colombia's armed conflict: saving lives and building peace/ Desminado en medio del conflicto en Colombia: salvando vidas y construyendo la paz.** Hosted by the Government of Colombia and the International Campaign to Ban Landmines (ICBL). Room XXIV. Contact: megan@icblcmc.org. Results of and lessons learned from the Historic Agreement between the Colombian Government and the FARC to clear mined areas in the midst of ongoing conflict. How this pilot clearance project has protected the Colombian people and contributed to the peace process. What comes next for Colombia?

- 13:00 **South-south cooperation.** Hosted by the Geneva International Centre for Humanitarian Demining (GICHD). Room XXV. Contact: f.paktian@gichd.org. There are several platforms within the mine action community through which countries and programmes can exchange and benefit from each other's experiences. The linguistic platforms created by the GICHD in the recent years have greatly contributed to south-south and regional cooperation. These opportunities offer the mine action practitioners to share information and support each other in the local languages such as Arabic, French, Farsi, Russian and Spanish. This session's goal is to make participants aware of these platforms, their achievements, activities in the coming years as well as lessons learnt. Chaired by the GICHD, speakers include representatives from Afghanistan, Egypt, Iraq, Tajikistan, Mauritania, Ukraine and Colombia.
- 13:00 **Targeting mine risk education in Ukraine.** Hosted by the Danish Demining Group (DDG). Room VIII. Contact: tammy.hall@drc.dk. In April 2015, DDG in partnership with UNICEF conducted a knowledge, attitudes and practices (KAP) survey. This exercise was unique in the sense that it was the first KAP survey conducted in mine action in Ukraine and it addressed internally displaced people, returnees and resident concerns and perceptions of the danger attached to mines/ERW from the recent conflict.

FRIDAY 4 DECEMBER 2015

- 13:00 **Badbaado Plan – A presentation of the Multi-Year Explosive Hazard Management proposal outlined by the Federal Government of Somalia.** Hosted by the Federal Government of Somalia – Somali Explosive Management Authority (SEMA). Room: XXV. Contact: mahmed.shaan@gmail.com, abdirizakom@gmail.com. 2015 has been a year of great progress for Somalia in addressing explosive hazards. So far, the Council of Ministers endorsed the legislative framework, policy and budget of the SEMA acknowledging SEMA as the legal entity responsible for managing and coordinating all explosive hazard management activities in Somalia. This year the mine action community has proven that it is possible to work in areas previously considered too dangerous, clearing remnants of past conflict and paving the way for peace and stability. The Federal Government has ratified the Cluster Munitions Convention as well. It will report on progress towards meeting its treaty obligations, and will outline its strategy to work towards a Somalia free from the threat of explosive hazards.
- 13:00 **Evaluation of the Dutch humanitarian mine action programme and benefits of multi-annual financing of projects.** Hosted by the Government of the Netherlands. Room VIII. Description and contact to follow.
