

APMBC intersessional meeting
Thematic session – Mobilizing resources towards a
Mine Free World

Practical side of integrating mine action into
development

UNDP experiences

1

Practical side of integrating mine action into development

PRECONDITIONS FOR SUCCESS

- National ownership and commitment
- Knowledge and understanding of the SDGs and the 2030 Agenda
- Understand scope and impact of EO contamination
- Identify the linkages – goals and indicators

2

Practical side of integrating mine action into development

UN
DP

Linking SDGs/the 2030 agenda to mine action

Update key MA documents;

- National legislation
- National mine action strategy
- National standards, incl. survey methodology

Update tools for analysis and reporting

- National database

Include SDG's in MA related proposals and reporting

- APMBC reporting (art. 7 reporting, Oslo Action Plan)
- Proposals and plans

3

Practical side of integrating mine action into development

UN
DP

Integrating Mine Action into Development

- Engage in coordination mechanism, beyond mine action
- Include MA in
 - National SDG frameworks
 - UN sustainable development cooperation framework
 - Humanitarian response plans
 - SDG 18
