**Information of Ukraine
concerning questions from the Committee on the Implementation of Article 5
of the Ottawa Convention**

1. On Ukraine's request to extend the implementation of the Article 5 of the Ottawa Convention for 10 years.

Ukraine does not object the Committee's proposal to reduce from 10 to 5 years duration of the implementation of the Article 5 of the Ottawa Convention, which was put forward in Ukraine's initial request to extend the implementation of the Article 5 of the Ottawa Convention for 10 years.

2. Information on the progress of clearance from explosive objects since Ukraine submitted its last request in 2018 for the extension of Article 5.

Period	The number of engagements of pyrotechnic units	The number of neutralized EODs, pcs.	Area of cleared territory, hectares
2019	11 891	67 415	6949
2020	14 166	73 375	4 939
2021	12 909	89 614	4 552
2022	41 226	315 068	78 180
2023 (as of 09.05.2023)	13 159	45 791	7 425

3. On the assessment of Ukraine's territories, which are potentially contaminated by anti-personnel mines.

The State Emergency Service (SES) has no data regarding the coordinates of minefields on the territory of Ukraine, which were laid down by the enemy.

4. On measures to inform the public about the risks associated with explosive objects.

Since the beginning of the full-scale invasion of the Russian Federation on the territory of Ukraine (from February 24, 2022), the SES specialists have conducted about 16,787 informational and educational events with different age and gender categories of the population, which encompasses more than 465,000 people, including 281,000 children and 184 thousand adult men and women.

5. Data on victims of mines and other explosive objects.

According to information from the Ministry of Reintegration of the Temporarily Occupied Territories of Ukraine, the number of victims of explosive objects as a result of Russia's aggression against Ukraine is: 237 people died, 533 people were injured.

6. Financial costs for the implementation of measures to destroy anti-personnel mines, the amount of necessary equipment and other technical resources.

The funding of activities related to the demining of territories of Ukraine by pyrotechnic units is carried out within the budget allocations of the State Emergency Service under Budget program 1006280 "Support activities of Civil Protection Forces", no separate funding of mine countermeasures is provided.

The need for equipment and vehicles for the SES pyrotechnic units (including in English) is posted on the Internet at the link:
<https://docs.google.com/spreadsheets/d/1kpFtie871-FjNdDR9kkZIqqvi3mcKEQEpuhucsVsNI/edit#gid=2105558982> .
