Thematic Panel A:
Financing mine action: challenges and new opportunities

International Conference Centre Geneva (CICG)
SWITZERLAND

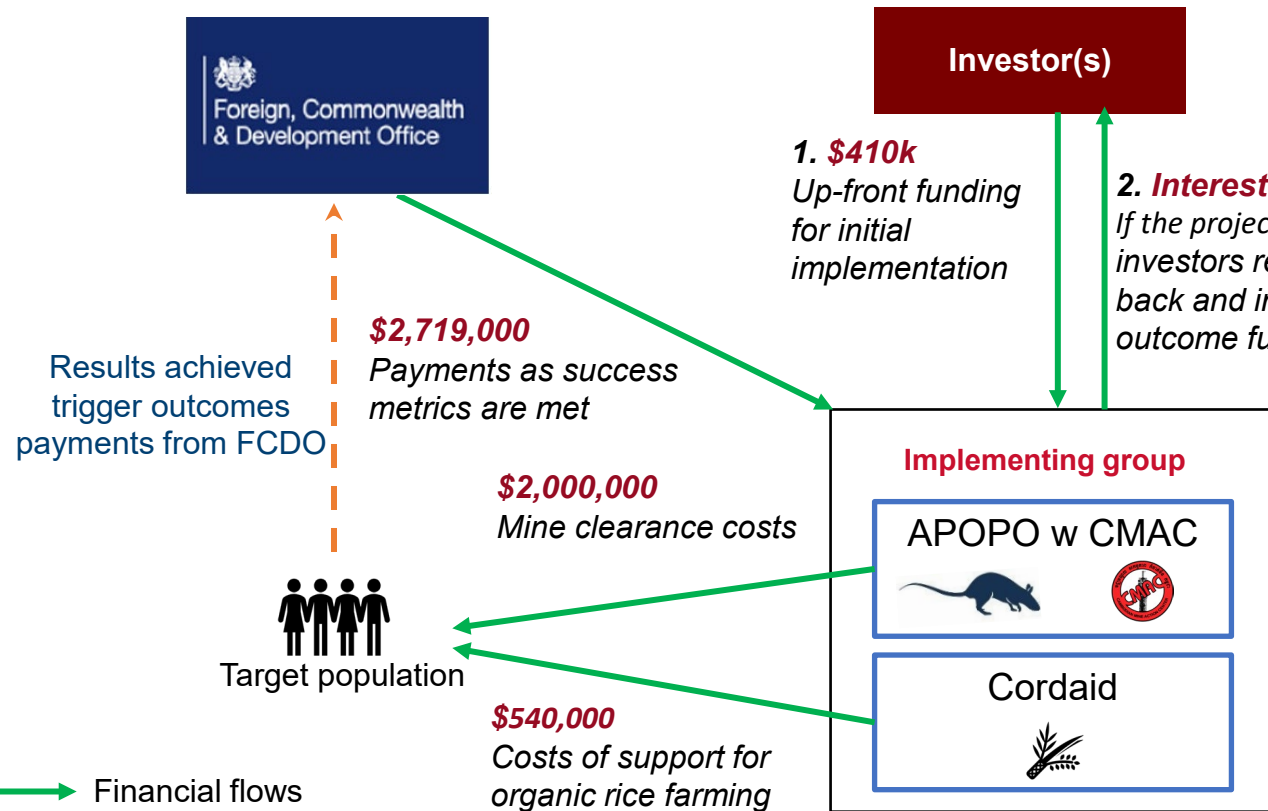

17-20 June 2025

CAMBODIA

MINEFIELDS TO RICEFIELDS

Performance to Date and Future Ahead

Overview of financial flows

Key elements:

- 1 Recycling of capital
- 2 Primary agriculture focus on end outcome; increased income
- 3 Only 4.1% of total outcome funding provided as interest to the investors

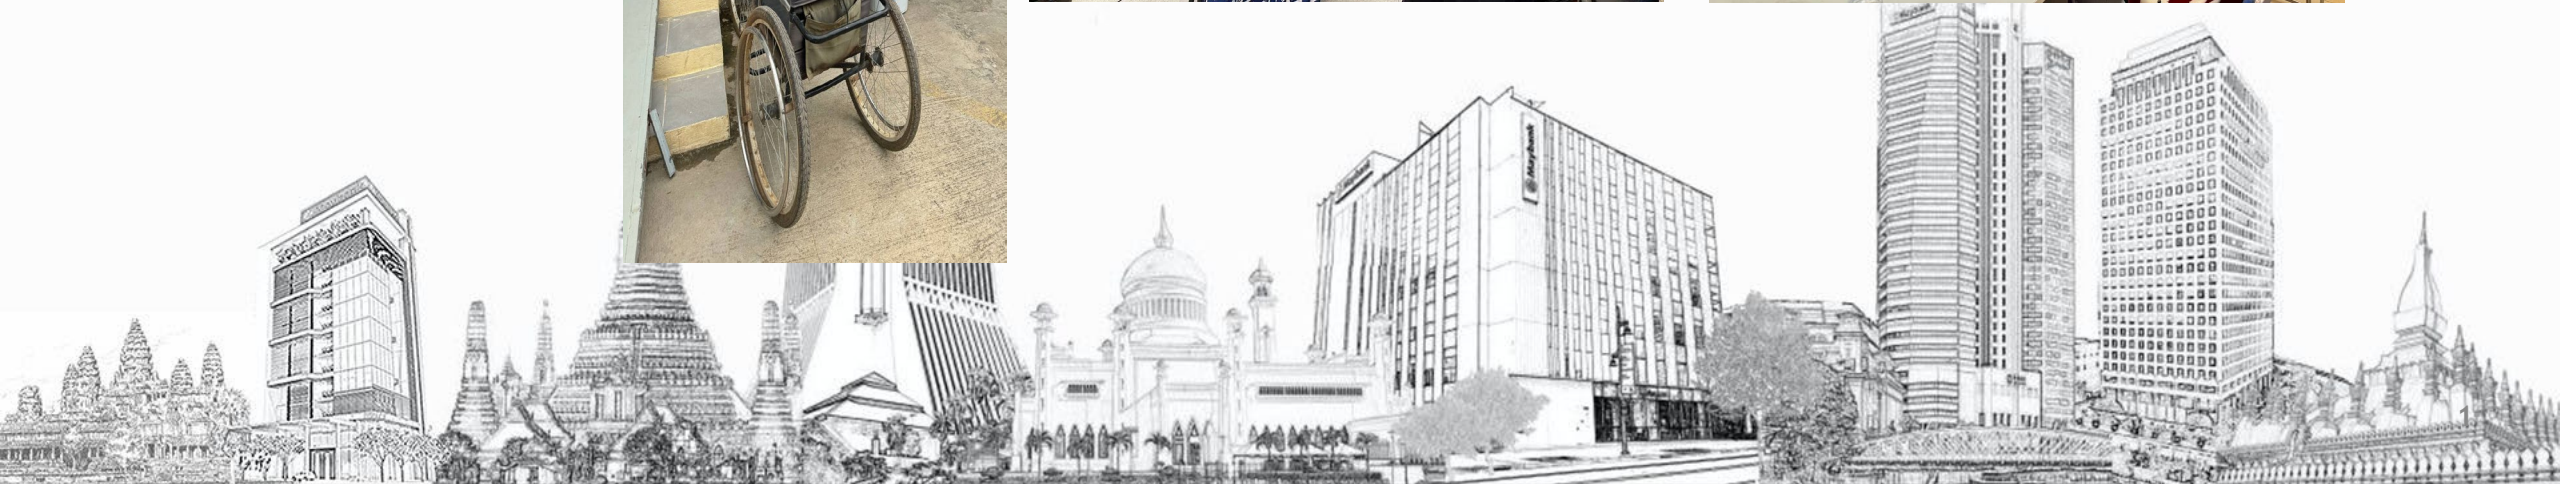

Cambodia DIB Extension Strategy

- \$1M committed by FCDO for April 2025 – March 2026; a major private foundation may provide an additional \$500K of funding in June 2026
- Transitioned to working with the Cambodian Institute for Research and Rural Development as our agricultural implementer to build local capacity in outcome funding projects, and improve cost efficiency per farmer served
- During 2025, develop a flexible 5-year DIB model that integrates longer term, higher income earning crops, like cashews and peppers and climate—friendly agroforestry methods
- Testing and piloting a Mine Action Beneficiary Brand that could be scaled across Cambodia and globally
- Seeking \$2M+ of annual outcome funding for larger scale extension from 2026 - 2030

REACH INDEPENDENCE & SUSTAINABLE ENTREPRENEURSHIP (R.I.S.E.)

Cambodia

**Circular Strategy on Environment
2023-2028**
