

# Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction and the Siem Reap-Angkor Action Plan 2025-2029

## Reporting checklist

### Introduction

At the Fifth Review Conference in 2024, all States Parties, in adopting the Siem Reap-Angkor Action Plan committed to take a number of actions to contribute to the effective implementation of the Convention.

As indicated in the Siem Reap-Angkor Action Plan, the information submitted by States Parties in their annual Article 7 reports serves as the main data source to assess progress. The President and members of the Coordinating Committee are responsible for measuring progress within their mandate, with support of the Implementation Support Unit. A baseline value for all indicators will be established based on data reported contained in Article 7 reports due by 30 April 2025, progress in subsequent years will be compared to this baseline. States Parties are encouraged to provide detailed information on implementation, allowing for as accurate an assessment as possible of the implementation of the Siem Reap-Angkor Action Plan 2025-2029.

### How to use the checklist

In accordance with your State's outstanding obligations and commitments under the Convention and the Siem Reap-Angkor Action Plan, your State is encouraged to ensure that information highlighted in the checklist is provided within your Article 7 Report due annually by **30 April**. The checklist is a tool to support States Parties in ensuring that all matters related to the Convention and the Siem Reap—Angkor Action plan and associated indicators are addressed in their Article 7 Reports.

Your State is also encouraged to employ the [Guide to Reporting and annexed sample report](#) to support your reporting efforts.

**Universalization (Actions #11-#12)**

In order to strengthen efforts to promote a collective and coordinated approach to the universalization of the Convention and reinforce its norms, all States Parties are encouraged to report on the following:

Siem Reap-Angkor Action Plan	Checklist of information to be provided in your State’s Article 7 report for activities undertaken during the previous calendar year
<p><b>Action 11:</b> Use all available avenues, at the global, regional, and subregional levels, including through high level engagement and cooperation and assistance, to promote ratification of/accession to the Convention by States not party including by encouraging their participation in the work of the Convention.</p>	<p><input type="checkbox"/> Did your State report on efforts to promote ratification of / accession to the Convention by States not party? If yes, can you provide details on these actions?</p>
<p><b>Action 12:</b> Intensify efforts to promote universal observance of the Convention’s norms and objectives in a concerted and sustained manner, including through political and military-to military dialogue with States not party, condemn violations of the norms and take appropriate steps to end the use, stockpiling, production, and transfer of anti-personnel mines by any actor, including by armed non-state actors, under any circumstances.</p>	<p><input type="checkbox"/> Did your State report on actions taken to promote universal observance of the Convention’s norms and objectives? Or to condemn violations of the norms and take appropriate steps to end the use, stockpiling, production, and transfer of anti-personnel mines by any actor, including by armed non-State actors, under any circumstances? If yes, can you provide details on these actions?</p>

## Stockpile destruction and retention of anti-personnel mines (Actions# 13 to #16)

To ensure that all stockpiled anti-personnel mines are expeditiously destroyed in line with Article 4 of the Convention and to ensure continued and strengthened transparency and accountability concerning anti-personnel mines retained under Article 3, the number of which shall not exceed the minimum number absolutely necessary for permitted purposes, States Parties with obligations under Article 4 and/or who retain anti-personnel mines in line with Article 3 are encouraged to report on the following:

Siem Reap-Angkor Action Plan	Checklist of information to be provided in your State's Article 7 report for activities undertaken during the previous calendar year
<p><b>Action 13:</b> Following the entry into force of the Convention, develop a realistic, costed and time-bound plan with clear milestones for the fulfilment of Article 4 as soon as possible and within deadline, regularly inform States Parties on progress made and remaining challenges in implementation, report on the status of such mines in accordance with Article 7, and ensure that destruction methods align with international standards for the protection of public health and the environment.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report having developed a realistic, costed and time-bound plan with clear milestones for the destruction of stockpiled anti-personnel mines as soon as possible and within your Article 4 deadline? If yes, could you share this plan, including clear milestones for the destruction of remaining stockpiled mines? (annex work plan to Article 7 Reports).</li> <li><input type="checkbox"/> Did your State report on the number of stockpiled anti-personnel mines has your State destroyed? How many stockpiled anti-personnel mines remain to be destroyed?</li> <li><input type="checkbox"/> Did your State report on the destruction methods used and indicate how these are aligned with international standards for the protection of public health and environment?</li> <li><input type="checkbox"/> Did your State report on challenges in relation to stockpile destruction? If yes, could you provide information on these challenges?</li> </ul>
<p><b>Action 14:</b> States Parties that have failed to meet their stockpile destruction deadline and are therefore in non-compliance with Article 4 will present, by the Twenty-Second Meeting of the States Parties, a realistic, costed, and time-bound plan with clear milestones for fulfilling Article 4 as soon as possible, report on the status of such mines in accordance with Article 7, urgently proceed with implementation in a transparent and environmentally responsible manner and</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> If your State has failed to meet its stockpile destruction deadline, did your State report on a realistic, costed, and time-bound plan for completion with clear milestones? (annex plan to Article 7 report)</li> <li><input type="checkbox"/> Did your State report on progress made in the implementation of Article 4? How many stockpiled anti-personnel mines has your State destroyed? How many stockpiled anti-personnel mines remain to be destroyed?</li> </ul>

Siem Reap-Angkor Action Plan	Checklist of information to be provided in your State's Article 7 report for activities undertaken during the previous calendar year
regularly inform States Parties on progress and remaining challenges.	<input type="checkbox"/> Did your State report on challenges in relation to stockpile destruction? If yes, could you provide information on these challenges?
<p><b>Action 15:</b> States Parties that discover previously unknown stockpiles, including stockpiles of anti-personnel mines of an improvised nature, will inform the President of their discovery and plans for the destruction of these stockpiled anti-personnel mines as soon as possible, and ensure their destruction as a matter of urgent priority, in an environmentally responsible manner in accordance with the Convention and in line with IMAS, no later than six months after their discovery.</p>	<input type="checkbox"/> Did your State report on the discovery of any previously unknown stockpiles, including stockpiles of anti-personnel mines of an improvised nature? If yes, how many? And how many of these mines were destroyed?  <input type="checkbox"/> Did your State report on the destruction methods used and indicate how these are aligned with international standards for the protection of public health and environment?
<p><b>Action 16:</b> Annually review the number of anti-personnel mines retained for permitted purposes under Article 3 to ensure that they do not exceed the minimum number absolutely necessary, destroy as soon as possible all anti-personnel mines that exceed that number, report annually on their use and planned use and on their destruction. Explore alternatives to using live anti-personnel mines, and report annually on all of these efforts.</p>	<input type="checkbox"/> Did your State report on carrying out a review of the number of mines retained to ensure that they do not exceed the minimum number absolutely necessary for permitted purposes?  <input type="checkbox"/> Did your State report on how anti-personnel mines retained for reasons permitted under Article 3 were used?  <input type="checkbox"/> Did your State report on planned use for anti-personnel mines retained for reasons permitted under Article 3?  <input type="checkbox"/> Did your State report on efforts to explore alternatives to using live anti-personnel mines with alternative measures for training and research purposes? If yes, could you provide information on the alternative measures you have taken?  <input type="checkbox"/> Did your State report on any challenges and support requirements to destroy mines retained or to explore alternatives to using anti-personnel mines?

## Survey and Clearance of Mined Areas (Actions #17 - #25)

In their efforts to address all remaining anti-personnel mine contamination safely and swiftly, States Parties with obligations under Article 5 are encouraged to report on the following:

Siem Reap-Angkor Action Plan	Checklist of information to be provided in your State’s Article 7 report for activities undertaken during the previous calendar year
<p><b>Action 17:</b> Identify suspected and confirmed hazardous areas to the extent possible and establish as soon as possible, accurate baselines of contamination using data- and evidence-based information collected in an inclusive manner including in areas affected by improvised anti-personnel mines in line with IMAS.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did you State report having established an accurate and evidence-based contamination baseline, including in areas affected by improvised anti-personnel mines in line with IMAS;</li> <li><input type="checkbox"/> Did your State report having established a baseline through inclusive consultations?</li> <li><input type="checkbox"/> Did your State report on, as of 31 December 2024, how many Suspected Hazardous Areas remain to be addressed, where, and what is the total size of these areas?</li> <li><input type="checkbox"/> Did your State report on, as of 31 December 2024, how many Confirmed Hazardous Areas remain to addressed, where, and what is the total size of these areas?</li> </ul> <p><b>Please report on contamination in accordance with IMAS. Refer to sample tables within the Guide to Reporting for presenting information on hazardous areas.</b></p>
<p><b>Action 18:</b> Develop evidence-based, costed, context-specific, and time-bound national work plans for survey, clearance, and mine risk education as soon as possible and in an inclusive manner. These should include projections of the number of mined areas, size, and amount to be addressed annually, ensuring consideration for gender, age, disability, the diverse needs and experiences of people in mine-affected communities including mine survivors, climate, and the environment to achieve completion as soon as possible.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report having in place evidence-based, costed, context-specific, and time-bound national work plans for survey and clearance? Plan should be attached to your State’s Article 7 Report.</li> <li><input type="checkbox"/> Did your State report having in place evidence-based, costed, context-specific, and time-bound national work plans for mine risk education? Plan should be attached to your State’s Article 7 Report.</li> <li><input type="checkbox"/> Did your State report in their Article 7 report updates to their national</li> </ul>

Siem Reap-Angkor Action Plan	Checklist of information to be provided in your State's Article 7 report for activities undertaken during the previous calendar year
National work plans will be updated annually based on new evidence.	work plans, including adjusted milestones based on new evidence, including budgets for implementation, and requirements for assistance?
<p><b>Action 19:</b> Ensure that survey and clearance are prioritised based on clear nationally driven humanitarian and sustainable development criteria with consideration for gender, age, disability, the diverse needs and experiences of people in affected communities including mine survivors, and the environment.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report on the inclusion of humanitarian and sustainable development criteria in prioritizing survey and clearance?</li> <li><input type="checkbox"/> Did your State report on the consideration of inclusion of gender, age, disability, the diverse needs and experiences of people in affected communities including mine survivors, climate, and environment in survey and clearance planning and prioritisation?</li> </ul>
<p><b>Action 20:</b> States Parties affected by anti-personnel mines of an improvised nature (improvised explosive devices (IEDs) which meet the definition of an anti-personnel mine) will apply all provisions and obligations under the Convention to such contamination including during survey and clearance in fulfilment of Article 5 and when reporting in fulfilment of Article 7.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Where applicable, did your State report applying the provisions of the Convention to anti-personnel mines of an improvised nature including in survey and clearance operations under Article 5?</li> </ul>
<p><b>Action 21:</b> Ensure the establishment of a sustainable national capacity to implement the Convention and address previously unknown mined areas, including newly mined areas, discovered following completion. Consider the commitments made at the Twelfth Meeting of the States Parties as contained in the paper "Proposed rational response to States Parties discovering previously unknown mined areas after deadlines have passed"<sup>1</sup>.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report having a national capacity in place to implement the Convention and address any previously unknown mined areas or newly mined areas discovered following completion?</li> <li><input type="checkbox"/> Did your State report following completion, report the discovery of previously unknown mined areas or newly mined areas?</li> </ul>
<p><b>Action 22:</b> Report in a manner consistent with IMAS. Provide</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report on their remaining challenge in a manner</li> </ul>

<sup>1</sup>APLC/MSP.12/2012/7.

Siem Reap-Angkor Action Plan	Checklist of information to be provided in your State's Article 7 report for activities undertaken during the previous calendar year
<p>information on the remaining challenge disaggregated by 'suspected hazardous areas' and 'confirmed hazardous areas', their relative size, type of contamination, and provide information on progress in accordance with the land release methodology employed (i.e. cancelled through non-technical survey, reduced through technical survey, or cleared through clearance).</p>	<p>disaggregated by 'suspected hazardous areas' and 'confirmed hazardous areas' and their relative size?</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report on progress made to address mined areas in accordance with the land release methodology employed (i.e. cancelled through non-technical survey, reduced through technical survey, or cleared through clearance)?</li> <li><input type="checkbox"/> Did your State report in a disaggregated manner by type of contamination?</li> </ul> <p>Please refer to sample tables within the Guide to Reporting for presenting information on hazardous areas.</p>
<p><b>Action 23:</b> Ensure that requests for extensions of Article 5 deadlines contain detailed, evidence-based, costed, context-specific, and multi-year work plans for survey, clearance, and mine risk education for the extension period in line with the decisions of States Parties concerning the extension request process and ensure consideration for gender, age, disability, the diverse needs and experiences of people in affected communities including mine survivors, as well as climate and the environment.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State submit an extension request that included detailed, evidence-based, costed, context-specific, and multi-year plans for survey and clearance?</li> <li><input type="checkbox"/> Did your State submit an extension request that included detailed, evidence-based, costed, context-specific, and multi-year plans for risk education activities?</li> <li><input type="checkbox"/> Did your State submit an extension request that ensured consideration for gender, age, disability, the diverse needs and experiences of people in affected communities including mine survivors, as well as climate, and the environment?</li> </ul>
<p><b>Action 24:</b> States Parties that complete their clearance obligations will submit voluntary Declarations of Completion considering the recommendations made by the Seventeenth Meeting of the States Parties in line with the paper "Reflections and understandings on the implementation and</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State declare completion of their Article 5 obligations?</li> <li><input type="checkbox"/> Did your State submit a voluntary Declaration of Completion?</li> </ul>

Siem Reap-Angkor Action Plan	Checklist of information to be provided in your State's Article 7 report for activities undertaken during the previous calendar year
completion of Article 5 mine clearance obligations <sup>2</sup> ".	
<p><b>Action 25:</b> Improve the effectiveness and efficiency of survey and clearance including through the application of up-to-date National Mine Action Standards in line with IMAS and promote the research, analysis, and adoption of innovative approaches, methods, and technological means to this effect.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report on efforts to improve effectiveness and efficiency of survey and clearance?</li> <li><input type="checkbox"/> Did your State report on research, analysis, and the adoption of innovative approaches, methods, and technological means to improve effectiveness and efficiency of survey and clearance.</li> </ul>

### Mine Risk Education and Reduction

In addition to clearance operations, providing mine risk education and other risk reduction programmes to populations currently or anticipated to be at-risk is a primary means of preventing injuries and fatalities. In their efforts to ensure the safety of the population until all anti-personnel mines in mined areas have been destroyed, States Parties with obligations under Article 5 are encouraged to report on the following:

Siem Reap Angkor Action Plan	Checklist of information to be provided in your State's Article 7 report for activities undertaken during the previous calendar year
<p><b>Action 26:</b> Integrate mine risk education and risk reduction programmes within wider plans for humanitarian response and protection, development, health, mental health, climate, the environment, education, and/or disaster risk reduction or other relevant plans; as well as within survey, clearance and victim assistance activities and other efforts to raise awareness, reduce the risk to the affected population, and work towards creating the conditions for safer behaviour until the threat is addressed.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report having integrated mine risk education and reduction programmes within wider national plans as well as within survey, clearance and victim assistance activities?  (e.g., humanitarian response and protection, development, health, mental health, climate, the environment, education, and/or disaster risk reduction or other relevant plans)</li> <li><input type="checkbox"/> Did your State report on efforts to reduce the affected population's risk-taking behaviour and to increase knowledge and awareness?</li> </ul>

<sup>2</sup>APLC/MSP.17/2018/10.

<p><b>Action 27:</b> Provide context-specific mine risk education and reduction programmes that are tailored to the threat encountered by the population and prioritise people most at risk by ensuring that these programmes are developed on an analysis of available casualty and contamination data, climate and environmental risk, an understanding of the affected population’s behaviour, risk pattern and coping mechanisms, and, wherever possible, anticipated population movements. Ensure that such programmes are sensitive to gender, age, disability and take the diverse needs and experiences of people in affected communities into account.</p>	<p><input type="checkbox"/> Did your State report having established an evidence-based priority-setting mechanism for mine risk education and reduction programmes tailored to the threat encountered by the population and which prioritises people most at risk?</p>
<p><b>Action 28:</b> Establish sustainable national capacities to deliver mine risk education and reduction programmes able to adapt to changing needs and contexts including in the case that previously unknown mined areas or newly mined areas are discovered and/or in emergency settings.</p>	<p>Did your State report having sustainable national capacities in place to deliver mine risk education and reduction programmes in case previously unknown mined areas or newly mined areas are discovered and/or in emergency settings?</p>
<p><b>Action 29:</b> Report on the implementation of mine risk education programmes, including information on how priorities were established, methodologies used, challenges faced, and results achieved and include information disaggregated by gender, age, disability, and other diverse needs and experiences of affected communities.</p>	<p>Did your State report carrying out mine risk education and reduction programmes including information on how priorities are established, methodologies used (e.g. interpersonal, mass, or digital media), challenges faced, and results achieved and included information disaggregated by gender, age, disability, and other relevant factors?</p>

States Parties with victims in areas under their jurisdiction or control will endeavour to do their utmost to provide appropriate, affordable, inclusive, and accessible services to mine victims and their families on an equal basis with others and to ensure victims and their representative organisations are consulted on the development and implementation of such services. In this regard, States Parties will take the following actions:

Siem Reap Angkor Action Plan	Checklist of information to be provided in your State's Article 7 report for activities undertaken during the previous calendar year
<p><b>Action 30:</b> Ensure that a relevant government entity in affected States Parties is assigned as the focal point to coordinate victim assistance and oversee and enhance the integration of victim assistance activities into broader national policies, plans, budgets, and legal frameworks to ensure its sustainability, including following Article 5 completion. The focal point will work with relevant national entities, survivors and their representative organisations, and other relevant stakeholders to develop a national specific, measurable, realistic, and time-bound disability action plan. The plan should be inclusive of the needs and rights of mine victims and ensure consideration for gender, age, and disability, among others. The focal point will monitor and report on the plan's inclusive implementation.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report having designated a government entity to coordinate victim assistance activities and the integration of victim assistance into broader national policies, plans and legal frameworks? Please include information on the relevant government entity.</li> <li><input type="checkbox"/> Did your State report having developed a specific, measurable, realistic, and time-bound action plan<sup>3</sup> and a monitoring mechanism to support mine and other explosive ordnance victims? If yes, please include the plan in the annex of your Article 7 Report.</li> <li><input type="checkbox"/> Did your State report on efforts to ensure survivors and their representative organizations are involved in developing and implementing the plan?</li> <li><input type="checkbox"/> Did your State report on how the plan consider gender, age and disability?</li> </ul>
<p><b>Action 31:</b> Carry out inter-ministerial and multi-sectoral efforts to ensure that the needs and rights of mine and other explosive ordnance victims are effectively addressed through relevant national policy and legal frameworks and budgets relating to disability, health, mental health, education, employment, climate change, the environment, development, and poverty reduction in line with relevant provisions of the Convention on the Rights of Persons with Disabilities.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report on its multi-sectoral approach to ensure that the needs and rights of mine victims are effectively addressed? What kinds of measures have been put into place in this regard?</li> <li><input type="checkbox"/> Did your State report on its inter-ministerial coordination mechanism in place to address victim assistance implementation?</li> <li><input type="checkbox"/> Did your State report on how have the needs of mine and other explosive ordnance victims been incorporated into national policies on disability,</li> </ul>

<sup>3</sup> Victim Assistance does not necessarily require a separate national plan. Instead, and in line with the integrated approach, victim assistance provisions should be integrated into existing national plans or strategies on disability rights, or other mainstream sectors such as health, human rights, national development, poverty reduction, education, etc. Question 30.2.a refers to such broader national frameworks.

Siem Reap Angkor Action Plan	Checklist of information to be provided in your State's Article 7 report for activities undertaken during the previous calendar year
	<p>health, education, etc.?</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> If applicable, did your State report on its efforts to align victim assistance efforts with the Convention on the Rights of Persons with Disabilities (CRPD)?</li> </ul>
<p><b>Action 32:</b> Carry out efforts to identify all mine and other explosive ordnance victims and collect accurate and comprehensive information on their needs, challenges and geographic locations in a manner disaggregated by gender, age, disability, and other considerations, making data on mine and other explosive ordnance victims available to relevant stakeholders including by integrating this data into a national centralised database, such as disability data systems to ensure a comprehensive and sustainable response in line with relevant national data protection regulations or measures.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report on efforts to collect data on mine and other explosive ordnance victims?</li> <li><input type="checkbox"/> Did your State report on data disaggregated by gender, age, and disability?</li> <li><input type="checkbox"/> Did your State report on the total number of mine and other explosive ordnance victims that have been registered to date?</li> <li><input type="checkbox"/> Did your State report on having a centralised database, such as a national disability database or a national injury surveillance? If yes, does it include information on mine and other explosive ordnance victims, their needs, and challenges? If not, is there a plan to establish a central database?</li> <li><input type="checkbox"/> Did your State report on effort to ensure that information about mine and other explosive ordnance victims is made available or shared with relevant national ministries and stakeholders? Are national data protection regulations (data privacy) followed in data collection and sharing?</li> </ul>
<p><b>Action 33:</b> Provide effective and efficient context-specific emergency medical care to new casualties and improve national capacity through training, including on psychosocial first care, specialized training for health professionals and layperson first responder training in affected communities and ensure that mine and other explosive ordnance survivors have access to health services including in rural and remote areas.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report on having an effective first aid response system in place for new casualties?</li> <li><input type="checkbox"/> Did your State report on improvement in its national capacity for casualty response? What type of trainings have or will be provided?</li> <li><input type="checkbox"/> Did your State report on having medical emergency and health care available and accessible to mine and other explosive ordnance victims,</li> </ul>

Siem Reap Angkor Action Plan	Checklist of information to be provided in your State's Article 7 report for activities undertaken during the previous calendar year
	including in rural and remote areas? What challenges are faced in this regard?
<p><b>Action 34:</b> Ensure that a national/sub-administrative area referral mechanism is in place to facilitate access to services for mine and other explosive ordnance victims, including by creating and disseminating a comprehensive directory of services available, accessible, and inclusive for all mine and other explosive ordnance victims.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report on having a national or sub-administrative area referral mechanism to facilitate access to services for mine and other explosive ordnance victims?</li> <li><input type="checkbox"/> Did your State report on having a national comprehensive directory of services available to facilitate mine and other explosive ordnance victims' access to services?</li> </ul>
<p><b>Action 35:</b> Take steps to ensure that considering local, national, and regional circumstances, all mine and other explosive ordnance victims including in rural and remote areas have access to comprehensive rehabilitation services and assistive technology; including where necessary, through the provision of outreach and innovative rehabilitation services, paying particular attention to the most vulnerable.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report on efforts to ensure that all mine and other and other explosive ordnance survivors, especially in affected rural and remote areas, have access to comprehensive functioning rehabilitation services including physiotherapy, prosthetic and orthotic, occupational therapy, and assistive devices?</li> <li><input type="checkbox"/> Did your State report on efforts to ensure that assistive technology<sup>4</sup> including wheelchairs, prosthetics, hearing and communication devices, crutches, etc. are available to mine and other explosive ordnance survivors and persons with disabilities?</li> <li><input type="checkbox"/> Did your State report on efforts to allocate sufficient national budget for functioning rehabilitation including production/procurement of assistive devices?</li> <li><input type="checkbox"/> Did your State report on the status of its national capacity such as experts and technicians to deliver quality rehabilitation services?</li> </ul>

Siem Reap Angkor Action Plan	Checklist of information to be provided in your State's Article 7 report for activities undertaken during the previous calendar year
<p><b>Action 36:</b> Ensure mine victims have access to psychological and psychosocial support services including to mental health, peer-to-peer support, community support, and other available services. Increase national capacity in mental health and psychological support and peer-to-peer support to address all needs, including in situations of emergencies.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report on access for mine and other explosive ordnance victims to psychosocial and mental health services?</li> <li><input type="checkbox"/> Did your State report on peer-to-peer support provided to mine and other explosive ordnance survivors and affected families?</li> <li><input type="checkbox"/> Did your State report on efforts to integrate peer-to-peer support into mental health / public programmes?</li> <li><input type="checkbox"/> Did your State report on efforts to increase national capacity in this regard?</li> </ul>
<p><b>Action 37:</b> Strengthen efforts to meet the social and economic inclusion needs of mine victims by ensuring their access to education, capacity-building, employment referral services, finance institutions/services, business development services, rural development, vocational training, and social protection programmes, including in rural and remote areas.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report on policy or programmes to meet the social and economic inclusion needs of mine victims and other and other explosive ordnance survivors and affected families?</li> <li><input type="checkbox"/> Did your State report on access to education, capacity building training, employment services, microfinance, and social protection programs for mine and other explosive ordnance survivors?</li> <li><input type="checkbox"/> Did your State report on the number of survivors and affected families benefited from socio-economic support during the last reporting year?</li> </ul>
<p><b>Action 38:</b> Ensure that relevant national emergency/humanitarian response and preparedness plans integrate the safety and protection of mine survivors and populations in affected communities in situations of risk. This includes situations of armed conflict, humanitarian emergencies, and natural disasters in line with the Convention on the Rights of Persons with Disabilities, other relevant international humanitarian and human rights law,</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report on efforts to ensure that relevant national humanitarian response and preparedness plans and policies include needs of mine victims to ensure their safety and protection in situations of risk, including situations of armed conflict, humanitarian emergencies and natural disasters? Does your State have a plan to address this matter?</li> <li><input type="checkbox"/> Did your State report on challenges faced in ensuring the safety and protection of mine survivors and how are they addressed?</li> </ul>

Siem Reap Angkor Action Plan	Checklist of information to be provided in your State's Article 7 report for activities undertaken during the previous calendar year
and international guidelines.	<input type="checkbox"/> Did your State report on efforts to ensure the inclusion of mine victims and other explosive ordnance survivors and their representative organisations included in programmes related to humanitarian assistance, risk reduction and conflict preparedness protection?
<p><b>Action 39:</b> Improve accessibility and strive to remove physical, social, cultural, political, attitudinal, and communications barriers to ensure the full inclusion and effective participation of mine victims and their representative organisations including in rural and remote areas in all matters that affect them.</p>	<input type="checkbox"/> Did your State report on efforts that have been or are being made to improve access to services? <input type="checkbox"/> Did your State report on the national policies or standards that are in place to ensure accessibility to public services? <input type="checkbox"/> Did your State report on mechanisms to ensure full inclusion and effective participation of mine victims and their representative organizations in all matters that affect them, including in rural and remote areas? <input type="checkbox"/> Did your State report on efforts to include mine survivors or their representative organisations in victim assistance planning at the national and local level?

**International Cooperation and Assistance (Actions #40 to #45)**

With a view to *leaving no State Party behind*, and enhance cooperation through strengthening donor coordination and effective partnerships, States Parties are encouraged to report on the following:

Siem Reap Angkor Action Plan	Checklist of information to be provided in your State's Article 7 report for activities undertaken during the previous calendar year
<p><b>Action 40:</b> Do their utmost to commit the resources needed to meet their Convention obligations as soon as possible and explore all possible funding sources including conventional and alternative/innovative sources and mechanisms of funding such as front loading models.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> If you are a mine-affected State Party, did your State report on national financial commitments to the implementation of survey and clearance?</li> <li><input type="checkbox"/> If you are a mine-affected State Party, did your State report on national financial commitments to the implementation of victim assistance?</li> <li><input type="checkbox"/> If you are a mine-affected State Party, did your State report on national financial commitments to meet your stockpile destruction obligations?</li> <li><input type="checkbox"/> Did your State report on having provided financial or other support to affected States Parties? Can you provide details of this support?</li> <li><input type="checkbox"/> Did your State report on efforts to explore conventional and alternative and/or innovative sources of financing, including mechanisms of funding such as front-loading models?</li> <li><input type="checkbox"/> Did your State report on successful efforts and challenges in obtaining resources from conventional and alternative and /or innovative sources?</li> </ul>
<p><b>Action 41:</b> Develop resource mobilisation plans and use all mechanisms to disseminate information on challenges and requirements for assistance including through annual Article 7 reports, requests for extension under Article 5 and updated work plans where applicable, and by taking advantage of the Individualised Approach tool.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report on the challenges you face and your requirements for assistance? Did your State report on its resource mobilisation plan?</li> </ul>

<p>for the effective implementation of Convention obligations by affected States Parties, including in areas of stockpile destruction, mine clearance, risk education and reduction, and victim assistance. As part of this effort, States Parties will explore the feasibility of establishing a voluntary trust fund to support affected States Parties struggling to secure international assistance for their legal and time-bound commitments under Article 5 of the Convention, with a view to reporting on the progress made to the Twenty-Second Meeting of the States Parties and to taking a decision thereon by no later than the Twenty-Third Meeting of the States Parties.</p>	<p>the Convention? If yes, could you please indicate in which area: stockpile destruction, mine clearance, risk education and reduction, and/or victim assistance.</p>
<p><b>Action 45:</b> Explore opportunities for international, regional, and bilateral cooperation including between affected States Parties or triangular cooperation for the voluntary sharing of national experiences and good practices. This may include mutually supporting clearance commitments in border areas, sharing experience of integrating considerations for gender, the diverse needs and experiences of people in affected communities, climate, the environment, scientific, methodological, and technological expertise into programming to strengthen the Convention's implementation.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report on any cooperation engagements to promote the implementation of the Convention in accordance with Action 45?</li> <li><input type="checkbox"/> Did your State report on any efforts to share national experiences and good practices through international, regional, or bilateral (including triangular) cooperation to strengthen the Convention's implementation?</li> <li><input type="checkbox"/> Did your State report on any initiatives to support mutually beneficial clearance commitments in border areas of affected State Parties to reinforce the Convention's implementation?</li> <li><input type="checkbox"/> Did your State report on any efforts to share scientific, methodological, and technological expertise to strengthen the Convention's implementation?</li> </ul>

**Measures to ensure compliance (Actions #48)**

Reaffirming the unwavering commitment to promote compliance with the Convention, in accordance with its provisions and principles, the States Parties are encouraged to report as follows:

Siem Reap Angkor Action Plan	Checklist of information to be provided in your State's Article 7 report for activities undertaken during the previous calendar year
<p><b>Action 46</b> In the event of alleged or known non-compliance with the general obligations under Article 1, the State Party concerned will undertake all necessary measures to investigate and address alleged or known non-compliance with Article 1, as well as measures taken to prevent any further instances of non-compliance, where relevant, and to provide information on the situation to all States Parties in the most expeditious, comprehensive and transparent manner possible. The State Party will work with other States Parties in a spirit of cooperation to resolve the matter in an expeditious and effective manner, in accordance with Article 8.1</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> If your State has pending allegations or is in known non-compliance with Article 1, has your State reported on the status of the situation and efforts to investigate and address these matters.</li> </ul>
<p><b>Action 48:</b> States Parties that have not fulfilled their obligations under Article 9 of the Convention will urgently take all appropriate legal, administrative, and other measures to implement those obligations and report on the measures taken as soon as possible and no later than the Twenty-Second Meeting of the States Parties (2025).</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> If your State has not yet fulfilled its obligations under Article 9, did your State report on what measures it has taken to implement Article 9? Could you provide information on all relevant measures (legal, administrative and other) taken if they have not yet been reported?</li> </ul>

## Best Practices in Implementation (Actions #1-#9)

Siem Reap Angkor Action Plan	Checklist of information to be provided in your State's Article 7 report for activities undertaken during the previous calendar year
<p><b>Action 1:</b> Demonstrate high levels of national ownership, partnership and coordination, by integrating Convention implementation activities into national development plans, strategies and budgets including on poverty reduction, humanitarian response, health and mental health, gender equality, inclusion of persons with disabilities, peacebuilding, Human Rights, climate change adaptation, environmental protection and improvement and/or disaster risk reduction, as appropriate.</p>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Did your State report on efforts to integrating Convention implementation activities in national development plan, strategies and budgets, (including poverty reduction, humanitarian response, health, mental health, gender equality, inclusion of PWD, peacebuilding, Human Rights, climate change adaptation, environmental protection and improvement and/or disaster risk reduction, as appropriate.</li> <li><input type="checkbox"/> Did your State report on efforts to strengthen partnerships and coordinated Convention implementation activities sectors in any of the following sectors; relevant humanitarian, peacebuilding, climate, environmental, development, health, disability, and human rights.</li> </ul>
