MAPUTO ACTION PLAN
ADOPTED 27 JUNE 2014

INTRODUCTION

The States Parties reaffirm their unqualified commitment to ending the suffering and casualties caused by anti-personnel mines for all people for all time, and aspire to end the era of anti-personnel mines. These States Parties strive to: maintain strict observance of the Convention’s norms; ensure that there are no new mine victims in areas under their jurisdiction or control; see that survivors participate in their societies on an equal basis to others; and, commit to intensify their efforts to complete their respective time-bound obligations with the urgency that the completion work requires.

The Maputo Action Plan aims for significant and sustainable progress towards the achievement of this ambition during the period 2014 to 2019, building on the achievements made under the Nairobi and Cartagena Action Plans, while acknowledging local, national and regional circumstances in its practical implementation. The States Parties will implement the Maputo Action Plan in a cooperative, inclusive, age-appropriate and gender-sensitive manner and, in doing so, endeavour for a high degree of coherence, coordination and cost effectiveness. In addition, they will continue to recognise the special partnerships in the universalization and implementation of the Convention with the United Nations, the International Committee of the Red Cross, the International Campaign to Ban Landmines and the Geneva International Centre for Humanitarian Demining.

IV. VICTIM ASSISTANCE

States Parties are committed to the full, equal and effective participation of mine victims in society. Actions taken under this Convention to fulfil the solemn promise to mine victims have proven vital and commitments under the Cartagena Action Plan and remain valid and should be acted upon. Engagement in other domains is also necessary in view of the States Parties’ understanding that victim assistance should be integrated into broader national policies, plans and legal frameworks related to the rights of persons with disabilities, health, education, employment, development and poverty reduction. In this context and in order to address victim assistance with the same precision and intensity as for other aims of the Convention and to ensure that broader frameworks are reaching mine victims, the States Parties will take the following actions:

12. Each State Party with mine victims in areas under its jurisdiction or control, in a manner that takes into account sex- and age-disaggregated data, will do its utmost to assess the needs of mine victims, the availability and gaps in services and support, and existing or new requirements for disability, health, education, employment, development and poverty reduction activities needed to meet the needs of mine victims, and to refer victims to existing services where possible.

13. Based on its assessments, each State Party with mine victims in areas under its jurisdiction or control will do its utmost to communicate to the States Parties, including through its annual transparency report, as applicable, by 30 April 2015, time-bound and measurable objectives it seeks to achieve through the implementation of national policies, plans and legal frameworks that will tangibly contribute, to the full, equal and effective participation of mine victims in society. Every year, these objectives should be updated, their implementation monitored, and progress in implementing them reported to the States Parties.
14. Based on its assessments, each State Party with mine victims in areas under its jurisdiction or control will do its utmost to communicate to the States Parties, including through its annual transparency report, as applicable, by 30 April 2015, enhancements that have been made or will be made to disability, health, social welfare, education, employment, development and poverty reduction plans, policies and legal frameworks needed to meet the needs of mine victims, and on budgets allocated for their implementation. Every year, efforts to implement these plans, policies and legal frameworks and their enhancements should be communicated to the States Parties.

15. Each State Party with mine victims in areas under its jurisdiction or control, taking into account its own local, national and regional circumstances, will do its utmost to strengthen local capacities, enhance coordination with subnational entities as relevant and appropriate, and increase availability of and accessibility to appropriate comprehensive rehabilitation services, economic inclusion opportunities and social protection measures for all mine victims, regardless of their gender and age. This entails removing physical, social, cultural, economic, political and other barriers, including expanding quality services in rural and remote areas and paying particular attention to vulnerable groups.

16. Each State Party, and particularly each with mine victims in areas under its jurisdiction or control, will do its utmost to enhance the capacity and ensure the inclusion and full and active participation of mine victims and their representative organisations in all matters that affect them, particularly as concerns national action plans, legal frameworks, policies, implementation mechanisms, monitoring and evaluation.

17. All States Parties will seize every opportunity to raise awareness of the imperative to address the needs and guarantee the rights of mine victims, in an age- and gender-sensitive manner, including by engaging in the work of international, regional and national human rights, health care, labour and other fora, instruments and domains.

18. Each State Party with mine victims in areas under its jurisdiction or control will do its utmost to report in advance of the next Review Conference on measurable improvements made in the well-being and the guarantee of the rights of mine victims, challenges that remain and priorities for assistance as relevant.

---

1 Recommendations on applying all available methods for the full and expedient implementation of Article 5 were endorsed by the Ninth Meeting of the States Parties.
